Workforce Education Grant Background

In 2013, the South Dakota Legislature established the Workforce Education Grant fund through [SB 235](#). After fiscal year 2016, the dollars accrued annually in the grant fund are designated to provide grants for Career & Technical Education (CTE) in secondary schools.

The Workforce Education Grants provide Local Education Agencies (LEAs) in South Dakota the opportunity to make transformative change in career and technical education programs. High quality CTE programs give students the knowledge, skills and experiences to be well prepared for postsecondary education and the workforce. Partnerships among secondary education, postsecondary education, and business & industry lay the foundation for modern CTE programs. These grants will efficiently increase the number of students with access to high quality career and technical education programs in the state.

South Dakota has taken the challenge of preparing and building its skilled workforce head on. Unemployment rates are low, the business climate ripe, and meaningful, well-paying careers await individuals in multiple industries. Education that blends academics, technical skills, career exploration, work-based learning, and the development of soft skills can be an expressway to success following high school. Career and technical education at the middle and high school level allows students to explore career options, take technical courses to develop knowledge and skills, and experience the world of work through the full-spectrum of work-based learning.

South Dakota Administrative Rule 24:10:47

Per the direction given in [SB 235](#), the SD Board of Education promulgated administrative rules to provide consistent guidelines regarding the distribution of monies from the Workforce Education Fund. The rules can be accessed in [Chapter 24:10:47](#) at <http://sdlegislature.gov>. The chapter governs grants to both LEAs and private, non-profit entities who offer specialized career and technical education services and training. Applications from LEAs should follow only the rules which apply to them.

Grant Purpose & Eligibility

The Workforce Education Grants are designed to support and align secondary school CTE systems with South Dakota's postsecondary education programs and workforce needs, developing the state's talent pipeline for workforce development and economic growth. Projects are meant to serve middle and high school students.

Eligible applicants are Local Education Agencies (LEAs) with projects designed to serve middle and high school students. The LEAs who are awarded grants will serve as fiscal agents through the completion of their projects. All applications must demonstrate commitment by all grant partners to the grant project and its sustainability following the conclusion of the grant.

Proposed projects must meet the following criteria:

1. Build, reform or enhance an approved secondary CTE program;
2. Align to high-skill, high-demand, and high-wage careers and postsecondary education programs in South Dakota; and
3. Demonstrate the ability to complete the project.

LEAs are not expected to have previously demonstrated success in all proposed grant activities but must exhibit assurance and capacity to achieve the project's outlined goals. **In developing the application, LEAs should pay particular attention to how the vision of the project will promote modern, high quality technical education, partner with industry to provide students preparation for the state's high-demand career fields, produce equitable access to students of all backgrounds, efficiently invest grant funds, and build partnerships for strong career pathways.** Both existing and new CTE programs are eligible to apply.

Proposed projects must fall within one or more of the following categories:

1. Evaluation for alignment to postsecondary education and work force demands;
2. Development of career pathways or programs of study;
3. Development of career guidance or work-based learning programs;
4. Educator training;
5. Facilities;
6. Equipment; or
7. Instructional materials.

Grant Submission Guidelines & Anticipated Award Timeline

Grants will be awarded so that they may begin in June 2024. Up to \$1,125,000 may be available. The maximum individual grant award amount will be \$225,000.

The Workforce Education Grants will be awarded through a competitive submission and review process. As such, grant teams are expected to make significant and meaningful improvements to career & technical education programs; applications should not be one-off projects for small equipment purchases, teacher training, student transportation, or similar activities.

Priority will be given to projects which demonstrate one or more of the following characteristics and meet the requirements for LEAs outlined in SD Administrative Rule [24:10:47](#):

1. An innovative project demonstrating alignment to postsecondary education and South Dakota workforce needs and including work-based learning, dual or concurrent credit courses and any applicable CTSO;
2. A project demonstrating partnerships with postsecondary education and business or industry;
3. A project evaluating local career and technical education systems for the purposes of redesigning approved secondary CTE programs;
4. A project which includes collaboration between multiple secondary schools;
5. A project including industry-grade practices, equipment, and student certifications;
6. A project integrating academic content, work-readiness skills, and entrepreneurship education;

7. A project increasing access to and support for approved secondary CTE programs in rural areas;
8. A project including plans for sustainability; and
9. A project which supports the retention of highly effective teachers, career counselors, and administrators for approved secondary CTE programs.

The Workforce Education Grants are one-time awards. If additional grants are available in the future from the fund, LEAs will not be re-awarded funds to sustain the initial award.

Grant applications (one per district) are due March 29, 2024 by 10 a.m. Mountain. Awards will be announced by April 25, 2024. Incomplete or duplicate applications will not be considered. Complete applications will include a grant application (Appendix A), budget and narrative (Appendix B), and signed grant assurances (Appendix C).

A single .pdf copy of the complete and signed grant application must be emailed to jamie.boettcher@state.sd.us by 10 a.m. Mountain on the grant application deadline. District applications that do not comply with both deadline requirements will not be considered.

Applications will be scored by a team of reviewers who represent secondary and postsecondary education, workforce development, and economic development. Reviewers may not be involved in any aspect of activities proposed in grant applications, whether at the LEA level, as part of a postsecondary partnership, or business partnership.

Grant Match

The Workforce Education Grants require a one-to-one match, meaning the full amount requested from the state grant funds must be matched in an equal amount from non-state grant funds. The match may come from in-kind and/or monetary contributions by the LEA, community contributors, or business and industry partners.

Matching funds must be:

- adequately documented (i.e., time and effort records, invoices, current fair market value, etc.),
- necessary and reasonable for accomplishment of the project objectives,
- provided for in the approved budget, and
- the values for the contributions of services and property must be established as they would for federal grants in accordance with the [CFR Part 200 Uniform Guidance §220.306](#).

Match may be documented only in the award period. In other words, match cannot be used for expenses incurred or gifts given before or after the approved grant project dates. If, through the review process, match is determined ineligible, applicants must either provide an alternative source of eligible match or the state grant will be reduced to equal the eligible match.

Perkins funds used for match must meet all requirements from the U.S. Department of Education and the SD Division of Career & Technical Education. If Perkins grant funds are used as a relevant match source for the proposed grant project, the approval of those funds is not assumed in the award of a Workforce Education grant. Perkins funds will be approved through the traditional annual application process. If an applicant is a member of a Perkins consortium and seeks to use Perkins funds as a relevant match source for the proposed grant project, the consortium must be a partner in the grant application

and the members of the consortium must agree that the applicant can use the designated portion of the consortium's Perkins allocation for the grant project.

If awarded a grant, LEAs will be reimbursed an amount equal to or less than the documented match available for the reimbursement period. In other words, grant reimbursements will not exceed documented match. Matching funds must be documented, and documentation must be submitted along with requests for reimbursement.

Supports & Assistance Provided to Grantees

LEAs that receive Workforce Education Grants will have up to 18 months to complete their projects as detailed in the application. In addition to financial resources, all awardees will receive technical assistance from the SD Department of Education's Division of Career and Technical Education (DCTE) to meet the intended outcomes of the grant project.

Examples of technical assistance, depending on the needs of the LEA and grant project, may include:

- Calls or webinars with grant team members.
- On-site coaching or assistance.
- Facilitation between grant partners.
- Cross-district convenings involving applicable Workforce Education Grant projects.
- Feedback on progress reports and final project reports.

In addition to technical assistance, the DCTE team will support LEAs by sharing strategies, best practices, and lessons learned during the grant period. Grantees may be asked to participate in periodic knowledge capture activities such as site visits, surveys, and interviews. Fiscal and data monitoring will also be conducted throughout the grants' life cycles.

Eligible Partnerships

The lead grant applicant must be an official, public Local Education Agency (LEA) in South Dakota. All South Dakota schools that participate in awarded grant projects must be accredited by the South Dakota Department of Education and in good standing. Any grant activities related to secondary Career & Technical Education (CTE) programs must be part of approved programs (or become approved programs in the process of completing the grant project).

The lead LEA must authorize a decision maker for the duration of the grant project to serve as the project manager. The grant's project manager will coordinate and drive the work of all involved grant partners to ensure quality completion, fiscal accountability, and sustainability of the project. The grant's project manager will serve as the liaison with Department of Education's Division of Career and Technical Education (DCTE).

South Dakota's In-Demand Occupations

The South Dakota Department of Labor & Regulation's (DLR) Labor Market Information Center (LMIC) publishes labor market and wage data that can be used in supporting applications for the Workforce Education Grants. Employment projections can be found at

http://dlr.sd.gov/lmic/menu_projections.aspx. Wage data is located at:
http://dlr.sd.gov/lmic/menu_occupational_wages.aspx

These grants are intended to support and align secondary school CTE systems with South Dakota's postsecondary education programs and workforce needs, developing the state's talent pipeline for workforce development and economic growth. Grants applications should clearly define and justify how the project will fulfill the intent of the Workforce Education Grants.

Evaluation & Budget

Grant applications should clearly identify how the project will be assessed throughout the project for impact, success, and needed changes. Grant activities will be evaluated throughout the project via progress reports, on-site visits, and other contacts. A final grant report will be due within one month of the project's completion. As a condition of funding, LEAs must agree to participate fully in grant evaluation.

All grant applications must include a detailed budget request and a corresponding narrative which cover the entire length of the proposed project (provided in Appendix B). The budget must note expenditures to be made by the grant, in-kind match, and monetary match. Together, the budget request and narrative should illustrate what it will cost to implement the plan and meet the intended outcomes. The budget must list all direct costs associated with implementation of the project and propose expenses which are reasonable, allowable, and justified.

Grant Conditions

Grant applications must follow the outline provided in Appendix A. In addition, grant assurances for fiscal accountability are noted in Appendix C. Complete applications will include a grant application, budget and narrative, and signed grant assurances.

All grantees will be subject to the following conditions:

1. The amount of a grant may not exceed the actual cost of the project as proposed in the application.
2. Grants will be paid on a reimbursement basis. At least one reimbursement, with corresponding progress report, must be submitted each quarter to cover the expenditures incurred during the quarter. Reimbursement is subject to adequate progress on the project's goals.
3. Grant funds must be necessary and reasonable to complete the project.
4. Documentation must be available to support all expenditures, and expenditures must be approved before the end of the grant period. LEAs are required to utilize their financial accounting system to track financial expenditures.
5. For projects involving capital expenditures, all work paid with grant funds must comply with all applicable building codes and standards.
6. Projects must be completed within 18 months following grant approval.
7. A grant project must be supported with local match resources, including monetary resources and in-kind contributions, in an amount equal to the awarded grant funds to show support for long-term sustainability of the project.
8. Grant funds may not be used for salaries and benefits, costs associated with writing the grant proposal, contractual obligations which began before the award date, purchases that become

the property of any individual or organization other than the grantee, tuition and fees, or purchases or services beyond the project outcomes or activities. However, matching funds may be used for salaries and benefits.

9. Any program created through grant dollars must fulfill the requirements of approved secondary CTE programs in South Dakota.
10. No more than 20% of available grant funds in any grant year may be awarded to a single grantee.

The submission of false or misleading statements, omissions, or information as part of a grant application or the failure to comply with any requirements in 24:10:47 shall be considered a default on the terms of a grant. In the event of a default, the department may require the grantee to repay the grant to the department within 30 days of a written demand from the department. The department may begin a civil action to recover any grant funds that a grantee is required to repay.

Application Format

Grant applications are due March 29, 2024 by 10 a.m. Mountain. Awards will be announced by April 25, 2024. Incomplete or duplicate applications will not be considered. Complete applications will include a grant application (Appendix A), budget and narrative (Appendix B), and signed grant assurances (Appendix C).

A single .pdf copy of the complete and signed grant application must be emailed to jamie.boettcher@state.sd.us by 10 a.m. Mountain on the grant application deadline.

The Workforce Education Grants require a one-to-one match. The match may come from in-kind and/or monetary contributions by the LEA, community contributors, or business and industry partners.

Applications must make clear what the project is, what it will accomplish, and why it is important. Applications should not include extraneous material. Succinct applications which clearly address the criteria of SD Administrative Rule 24:10:47 are expected. Complete applications are those which include:

1. Application as described in Appendix A
2. Complete budget and budget narrative as described in Appendix B
3. Complete and signed grant assurances from Appendix C

Appendix A: Application Outline

The following outline is provided to develop applications. The questions below each section heading are intended to guide applicants' thinking but should not be viewed as exhaustive or prescriptive. Page lengths provided after each narrative section are offered as suggestions, not as requirements.

A single .pdf copy of the complete and signed grant application must be emailed to jamie.boettcher@state.sd.us by 10 a.m. Mountain on the grant application deadline.

Grant applications are due March 29, 2024 by 10 a.m. Mountain. Awards will be announced by April 25, 2024. Incomplete or duplicate applications will not be considered. Complete applications will include a CTE grant cover page (page 29), grant application (Appendix A), budget and narrative (Appendix B), and signed grant assurances (Appendix C).

CTE Grant Cover Page *(provided on page 29 of application)*

- District and School name, Main contact (name/phone/email), Project Title, Total Amount Requested, Brief Project Summary, Clusters Served, Courses that will benefit, & teachers that will benefit

Application Cover Page/Overview *(1-2 pages on school letterhead, signed by an authorized LEA representative)*

- What is the project?
- Why should this project be done at this time?
- How will the project develop the state's talent pipeline for workforce development and economic growth?
- In what ways will the project better prepare students for success in college and the world of work?
- How will the project support and align secondary school CTE programs with postsecondary education programs and workforce needs?
- How will the project promote modern, high quality technical education? Provide students preparation for the state's high-demand career fields? Produce equitable access to students of all backgrounds and geographic locations? Efficiently invest grant funds? Build partnerships for strong career pathways?
- In what ways will the project make significant and meaningful change to career & technical education programs?

Narrative Section 1: Project Goals & Objectives *(1-2 pages)*

- What are the overall goals for this project, especially related to the priorities of the Workforce Education Grants?
- In what ways does this project add value to the workforce strategies of your community? Your region? The state?
- How does the project partner with local industry to provide work-based learning opportunities?
- If you could accomplish anything with this award, what would change at your school? In your community? Region? The state?

- How will you know students are more ready for postsecondary education and entry-level careers because of this award?
- How will students be more aware of and knowledgeable about in-demand careers in South Dakota?

Narrative Section 2: Commitment & Capacity *(1-2 pages)*

- What work is already underway to support this project’s completion and success?
- Who will serve on the grant team and what value will they bring to the project?
- Who will serve as grant project manager? How will he/she ensure the project is successfully completed and is implemented as a collaborative effort to accomplish the grant’s goals?
- What evidence do you have that warrants funding this project?
- What will this project look like in five years?
- What have you done to demonstrate commitment to the project?
- What is the proposed implementation timeline? All projects must be complete within 18 months of the grant award.
- What background information or special circumstances are important for the review team to understand? Provide supporting evidence.
- How will the project be evaluated?

Letters of Support from Partner School Districts, Postsecondary Institutions, &/or Business & Industry Partners *(1 page each on letterhead, signed by an authorized representative)*

- What school districts, businesses, organizations, postsecondary institutions, etc. will be partners on this project?
- What role will the partner play for the success of the project?
- Why is the partner interested in being part of the project?

Budget & Budget Narrative *(see Appendix B – 2-3 pages)*

Grant Assurances *(see Appendix C)*

Appendix B: Budget & Budget Narrative

Applicants must provide a budget narrative to justify the grant dollar requests being made and explain all match resources in detail, including calculations for any in-kind or monetary contributions. Based on the budget narrative, applicants must use the budget template in excel format that is on the grant webpage to summarize all direct costs and grant match sources associated with the implementation of the proposed plan.

Please note the following grant conditions:

1. The amount of a grant may not exceed the actual cost of the project as proposed in the application.
2. Grants will be paid on a reimbursement basis. At least one reimbursement must be submitted each quarter to cover the expenditures incurred the quarter. Reimbursement is subject to adequate progress on the project's goals.
3. Grant funds must be necessary and reasonable to complete the project.
4. Documentation must be available to support all expenditures, and expenditures must be approved before the end of the grant period. LEAs are required to utilize their financial accounting system to track financial expenditures.
5. For projects involving capital expenditures, all work paid with grant funds must comply with all applicable building codes and standards.
6. Projects must be completed within 18 months following grant approval.
7. A grant project must be supported with local match resources, including monetary resources and in-kind contributions, in an amount equal to the awarded grant funds to show support for long-term sustainability of the project.
8. Grant funds may not be used for salaries and benefits, costs associated with writing the grant proposal, contractual obligations which began before the award date, purchases that become the property of any individual or organization other than the grantee, tuition and fees, or purchases or services beyond the project outcomes or activities. However, matching funds can be used for salaries and benefits.
9. Any program created through grant dollars must fulfill the requirements of approved secondary CTE programs in South Dakota.
10. No more than 20% of available grant funds in any grant year may be awarded to a single grantee.
11. Progress reports are expected quarterly during the grant period and must be included with any reimbursement request.

The Workforce Education Grants require a one-to-one match meaning the full amount requested from the state grant funds must be matched in an equal amount from non-state grant funds. The match may come from in-kind and/or monetary contributions by the LEA, community contributors, or business and industry partners. See match details on page 5.

The Workforce Education Grants are one-time awards. If additional grants are available in the future from the workforce education fund, LEAs will not be re-awarded grants to sustain the initial award.

All grant revenues must be coded to 3129 (restricted state grants).

If awarded a grant, the applicant will need to state on the invoice the breakdown of the reimbursement request by the budget categories approved in the grant. The applicant is responsible for keeping track of their budget (including match budget) and should notify DOE staff if they will be over any budget category.

All Applicants must have their business manager or finance staff review the above budget for accuracy in compliance with generally accepted accounting principles (GAAP). An authorized business\finance staff shall need to sign the below signature block indicating they have reviewed the budget.

GRANT AGREEMENT TERMS AND CONDITIONS

1. STANDARDS OF WORK

Grantee agrees to implement the subaward and perform pursuant to the requirements of the Agreement in a manner consistent with that level of care and skill ordinarily exercised by subrecipients currently practicing under similar conditions, particularly in reference to restricted or sponsored programs.

2. ADMINISTRATIVE CONSIDERATIONS

Where policies of Grantee differ from those of the State, such as travel reimbursement, fringe benefits, indirect costs, etc., the policies of the Grantee shall be applicable to cost incurrences under the Agreement provided such policies comply with awarding agency regulations.

3. DISCLOSURE OF INFORMATION

Any confidential information or personally identifiable information (PII) acquired by Grantee during the course of the subaward shall not be disclosed by Grantee to any person, firm, corporation, association, or other entity for any reason or purpose whatsoever without the prior written consent of the State, either during the term of the Agreement or in the event of termination of the Agreement for any reasons whatsoever. Grantee agrees to abide by

applicable state regulations regarding confidential information and research standards, as appropriate.

4. MONITORING PLAN AND REPORTING

The State will monitor Grantee to ensure compliance with program requirements and identify any failures in the administration and performance of the award. The monitoring plan will also serve to identify whether the Grantee needs technical assistance. In addition to program performance, the State will monitor financial performance. Monitoring will be used to document allowable and unallowable costs, time and effort reporting and travel. Monitoring also will be used to follow up on findings identified in an earlier monitoring visit, from document reviews or after an audit to ensure that subrecipient took corrective action. As appropriate, the cooperative audit resolution process may be applied. The monitor plan may include on-site visits, follow-up, document and/or desk reviews, third-party evaluations, virtual monitoring, technical assistance and informal monitoring such as email and telephone interviews. For reporting, the uniform guidance requires the State and Grantee use OMB-approved government-wide standard information collections when providing performance and data in reports.

5. AUDIT AND COMPLIANCE

A local government and nonprofit organization must comply with all state audit requirements, including: 2 CFR Part 200 Subpart F – Audit Requirements; and any other application law or regulation,

- *Audit required.* A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single or program-specific audit conducted for that year in accordance with the provisions of this part.
- *Single audit.* A non-Federal entity that expends \$750,000 or more during the non-Federal entity's fiscal year in Federal awards must have a single audit conducted in accordance with § 200.514 Scope of audit except when it elects to have a program-specific audit conducted in accordance with paragraph (c) of this section.
- *Program-specific audit election.* When an auditee expends Federal awards under only one Federal program (excluding R&D) and the Federal program's statutes, regulations, or the terms and conditions of the Federal award do not require a financial statement audit of the auditee, the auditee may elect to have a program-specific audit conducted in accordance with § 200.507 Program-specific audits. A program-specific audit may not be elected for R&D unless all of the Federal awards expended were received from the same Federal agency, or the same Federal agency and the same pass-through entity, and that Federal agency, or pass-through entity in the case of a subrecipient, approves in advance a program-specific audit.

- *Exemption when Federal awards expended are less than \$750,000.* A non-Federal entity that expends less than \$750,000 during the non-Federal entity's fiscal year in Federal awards is exempt from Federal audit requirements for that year, except as noted in § 200.503 Relation to other audit requirements, but records must be available for review or audit by appropriate officials of the Federal agency, pass-through entity, and Government Accountability Office (GAO).
- *For-profit subrecipient.* Since this part does not apply to for-profit subrecipients, the pass-through entity is responsible for establishing requirements, as necessary, to ensure compliance by for-profit subrecipients. The agreement with the for-profit subrecipient should describe applicable compliance requirements and the for-profit subrecipient's compliance responsibility. Methods to ensure compliance for Federal awards made to for-profit subrecipients may include pre-award audits, monitoring during the agreement, and post-award audits.

Pursuant to SDCL 4-11-7.1. A school district shall have financial and compliance audits performed at least every two years. The audits shall be performed in accordance with generally accepted governmental auditing standards. The audits may be done by the Department of Legislative Audit or by a private firm authorized by law to audit the financial records of school districts.

After completion of the audit, the State requires that Grantee to send a copy of the audit to the State with 30 calendar days.

The Grantee shall be responsible for payment of any and all audit exceptions related to the work performed under this Agreement which are identified by the State.

Notwithstanding any other condition of the Agreement, the cooperative audit resolution process applies, as appropriate. The books and records of the Grantee must be made available if needed and upon request, at the Grantee's regular place of business, for audit by personnel authorized by the State.

The State has the right to return to audit the program after close-out at any time during the record retention period, and to conduct recovery audits including the recovery of funds, as appropriate.

6. RECORDS ACCESS AND RETENTION

The State, and its auditors will be provided access to the Grantee's programmatic and financial records.

The Grantee will maintain all programmatic and financial records, including but not limited to:

- Records providing a full description of each activity undertaken

- Records demonstrating that each activity undertaken meets the objectives of the program;
- Records required to determine the eligibility of activities;
- Records required to document the acquisition, improvement, use or disposition of real property acquired or improved with the award assistance;
- Records documenting compliance with state and local laws; and

The Grantee shall retain all records pertinent to program activities and financial expenditures incurred under this Agreement for a period of five years after the date of submission of the final expenditure and program report under this agreement. Notwithstanding the above, if there are litigation, claims, audits, negotiations, cognizant agencies, or the State, or other actions that involve any the records cited and that have started before the expiration of the five-year period, then such records must be retained until completion of the actions and resolutions of all issues, or the expiration of the five-year period, whichever occurs later.

7. CLOSEOUT

- a. For purposes of this Agreement, "Date of Completion" shall mean the date when the Agreement expires pursuant to its terms or is terminated in accordance with paragraph 23.
- b. The Grantee shall submit a final financial report to the State. Within the limits of the Agreement amount, the State may make upward or downward cost adjustments based on the information contained in the report. Agreement obligations will remain in force until all final reports are reviewed and approved by the State.
- c. The Grantee, along with the final financial report, will refund to the State any unexpended funds or unobligated (unencumbered) cash advances.
- d. All outstanding obligations (encumbered funds) which have not been paid out as of the Date of Completion must be liquidated prior to the submission of the final report.
- e. Whether or not audits were conducted during the Agreement term, a final financial and compliance audit may be initiated up to three years after the Agreement completion date beginning with the date the Grantee submits the final reports.
- f. If either the final financial report or the final audit discloses an overpayment to the Grantee, the State may, at its option, either require the Grantee to repay the overpayment by the State or deduct the amount of overpayment from monies due the Grantee under this Grant Agreement or under any other Agreement between the Grantee and the State. Any overpayments will be paid back in accordance with paragraph 5.e.

g. The Grantee shall provide, along with the final financial report, a written accounting of property acquired with Agreement funds or received from the State.

8. LIABILITY

Grantee agrees to hold harmless and indemnify the State of South Dakota, its officers, agents and employees, from and against any and all actions, suits, damages, liability or other proceedings which may arise as a result of performing services hereunder. This section does not require the Grantee to be responsible for or defend against claims or damages arising solely from errors or omissions of the State, its officers, agents or employees.

9. INDEPENDENT CONTRACTOR/GRANTEE

While performing services hereunder, the Grantee is an independent and not an officer, agent or employee of the State of South Dakota. The Grantee will provide the State with its Employer Identification Number, Federal Tax Identification Number or Social Security Number; DUNS Number; and SAM registration upon execution of this Agreement.

10. SUBCONTRACTING/SUBAWARD

The Grantee may not use subcontractors/subaward to perform the services described herein without the express prior written consent of the State. The Grantee is solely responsible for the performance of any subcontractor/subaward. The Grantee will include provisions in its subcontracts/subaward requiring its subcontractors/subawards to comply with the applicable provisions of this Agreement, to indemnify the State, and to provide insurance coverage for the benefit of the State in a manner consistent with this Agreement. The Grantee will cause its subcontractors, agents, and employees to comply with applicable federal, state and local laws, regulations, ordinances, guidelines, permits and requirements and will adopt such review and inspection procedures as are necessary to assure such compliance.

11. OWNERSHIP RIGHTS

The Grantee hereby acknowledges and agrees that all reports, plans, specifications, technical data, miscellaneous drawings, software system programs and documentation, procedures, or files, operating instructions and procedures, source code(s) and documentation, including those necessary to upgrade and maintain any software program, and all information contained therein provided to the State by the Grantee in connection with its performance of services under this Agreement shall belong to and is the property of the State and will not be used in any way by the Grantee without the written consent of the State. Papers, reports, forms, software programs, source code(s) and other material which are a part of the work under this Agreement will not be copyrighted without written approval of the State.

12. COMPLIANCE WITH LAW

The Grantee will comply with all federal, state, and local laws, regulations, ordinances, guidelines, permits and requirements applicable to providing services pursuant to this Agreement, and will be solely responsible for obtaining current information on such requirements.

13. COMPLIANCE WITH LAW

The parties mutually agree that neither of them shall disclose the contents of the agreement except as required by applicable law or as necessary to carry out the terms of the agreement or to enforce that party's rights under this agreement. Grantee acknowledges that the State and its agencies are public entities and thus are bound by South Dakota open meetings and open records laws. It is therefore not a breach of this agreement for the State to take any action that the State reasonably believes is necessary to comply with the South Dakota open records or open meetings laws, including but not limited to posting this Agreement on the State's website. If work assignment performed in the course of this Agreement required security requirements or clearance, the Grantee will be required to undergo investigation.

14. ASSIGNMENT, AMENDMENTS, AND WAIVER

- a. Assignment: The Grantee shall neither assign nor transfer any rights or obligations under this agreement without the prior written consent of the State.
- b. Amendments: If there are any amendments to this agreement, they must be in writing. Amendments will not be effective until they have been executed and approved by the State and Grantee.
- c. Waiver: All other prior discussions, communications, and representations concerning the subject matter of the Agreement are superseded by the terms of this Agreement, and except as specifically provided herein, this Agreement constitutes the entire agreement with respect to the subject matter hereof.

15. DEBARMENT OR SUSPENSION

The Grantee certifies that neither Grantee nor its principals, nor its subgrantees or consultants are presently debarred, suspended, proposed for debarment or suspension, or declared ineligible from participating in transactions by the federal government or any state or local government department or agency. The Grantee further agrees that it will immediately notify the State if during the term of this Agreement Grantee or its principals, or its subgrantee or consultants become subject to debarment, suspension or ineligibility from participating in transactions by the federal government, or by any state or local government department or agency. The Grantee further certifies that neither it nor its principals, nor its subgrantees or consultants have, within a three (3) year period preceding the awarding of this Agreement, been

convicted of or had a civil judgment rendered against it for commission of fraud or been convicted of a criminal offense in connection with obtaining, attempting to obtain, or performing a federal, state, or local transaction or contract or been convicted of a violation of federal or state antitrust statutes, embezzlement, theft, forgery, bribery, falsifications, destruction of records, making false statements, or receiving stolen property. Grantee further certifies that neither it nor its principals, nor its subgrantees or consultants, have within a three (3) year period preceding this Agreement, had a federal, state, or local transaction terminated for cause or default.

16. GOVERNING LAW AND VENUE

This Agreement shall be governed by and construed in accordance with the laws of the State of South Dakota. Any lawsuit pertaining to or affecting this Agreement shall be venued in Circuit Court, Sixth Judicial Circuit, Hughes County, South Dakota.

17. PUBLICITY

The Grantee shall not without the written consent of the State advertise, publicly announce or provide to any other person information relating to the existence or details of the Agreement or use the State's name in any format for any promotion, publicity, marketing or advertising purpose.

The Grantee with written consent of the State when issuing statements, press releases, request for proposals, bid solicitations, and other documents describing projects or programs funded, pursuant to this Agreement, in who or in part with State funds, the Grantee shall, state:

- a. the percentage of the total cost of the program or project which is financed with State funds;
- b. the dollar amount of State funds for the project or program; and
- c. the percentage and dollar amount of the total costs of the project or program that will be funded by nongovernment sources.

18. TERMINATION PROVISION

- a. **TERMINATION FOR CONVENIENCE:** This Agreement may be terminated by either party hereto upon sixty (60) days written notice. The Grantee shall be paid for work satisfactorily completed prior to the effective date of the termination, but in no event shall the Grantee be entitled to recover loss of profits.
- b. **NON-APPROPRIATION:** This Agreement depends upon the continued availability of appropriated funds and expenditure authority from the Legislature for this purpose. If for any reason the Legislature fails to appropriate funds or grant expenditure authority, or

funds become unavailable by operation of law, this Agreement will be terminated by the State. Termination for any of these reasons is not a default by the State nor does it give rise to a claim against the State.

- c. **TERMINATION FOR CAUSE:** This Agreement may be terminated by the State in the event the Grantee breaches any of the terms or conditions hereof at any time with or without notice. If termination for such a default is affected by the State, any payments due to the Grantee at the time of termination may be adjusted to cover any additional costs to the State because of Grantee's default. Upon termination the State may take over the work and may award another party an agreement to complete the work under this Agreement. If after the State terminates for a default by Grantee it is determined that Grantee was not at fault, then the Grantee shall be paid for eligible services rendered and expenses incurred up to the date of termination.

WORKFORCE EDUCATION TERMS AND CONDITIONS

1. All requirements pertaining to LEAs outlined in South Dakota Administrative Rule 24:10:47 will be upheld.
2. The grant condition and default rules outlined in South Dakota Administrative Rule 24:10:47 are understood and will be fulfilled.
3. The LEA will submit required progress reports, a final report, participation and program effectiveness data, and financial reimbursements as agreed upon with the Division of Career & Technical Education.
4. The budget approved as part of the application considers other educational and training resources available in the area and will not unnecessarily duplicate existing equipment, technology, curriculum, or other instructional materials.
5. The LEA will keep a complete inventory throughout the project and provide it to the South Dakota Department of Education upon request.
6. All students, no matter their level of academic performance or goals for postsecondary education and careers, will be encouraged to participate in the grant project.
7. Individuals who are members of special populations will be provided with equal access to recruitment, enrollment, and placement activities in the full range of career and technical education programs available to individuals who are not members or special populations, including career awareness, programs of study, work-based learning, capstone experiences, postsecondary education exploration, comprehensive school counseling, and career guidance, and shall not be discriminated against on the basis of their status as members of special populations.
8. Disadvantaged students and English learners have access to the full breadth of career and technical education provided by the LEA in the most integrated setting possible.
9. Career education and planning for individuals with disabilities will be coordinated between appropriate representatives from career and technical education, special education, school counseling, vocational rehabilitation, and other applicable groups.
10. No funds made available through this grant will be used to require any secondary student to choose or pursue a specific career or educational path.
11. Funds made available through this grant will be used to support the CTE system for 7th – 12th grade students.

- 12.** Funds made available through this grant may be used to pay for the costs of career and technical education services required in an individualized education plan developed pursuant to section 614(d) of the Individuals with Disabilities Education Act (IDEA) and services necessary to the requirements of 504 of the Rehabilitation Act of 1973 with respect to ensuring equal access to career and technical education.
- 13.** All programs, services, and activities covered by this application will be conducted in accordance with Title VI of the Civil Rights Act of 1964, Title IX of the Education Amendments of 1972, the Age Discrimination Act of 1975, and the U.S. Office for Civil Rights “Vocational Education Program Guidelines for Eliminating Discrimination and Denial of Services on the Basis of Race, Color, National Origin, Sex and Handicap.”
- 14.** In cases where curriculum or instructional material development is approved, copies of all materials will be sent to the Division of Career & Technical Education as part of the final report.
- 15.** Funds expended under this grant will not be used to purchase anything which results in a direct financial benefit to any organization representing the interest of the purchasing entity or its employees or any affiliate of such an organization.
- 16.** All information contained in the application is accurate and complete.

Appendix D: Scoring Rubric

Applicant Name:			
Reviewer Name:			
Screening Questions	SDAR 24:10:47:02 & 24:10:47:03		
Question 1:	Does the application meet each of the three criteria listed below? Applications that do not meet the three criteria listed below will not be reviewed.	Yes	No
	The project builds, enhances, or reforms an approved secondary CTE program.		
	The project is in alignment with high-skill, high-demand, and high-wage careers and related postsecondary programs in South Dakota.		
	The applicant demonstrates the ability to complete the project as described in the application.		
Question 2:	Does the application meet at least one of the criteria listed below? Applications that do not meet at least one of the criteria listed below will not be reviewed.	Yes	No
	The project seeks to evaluate current programs for alignment to postsecondary education and work force demands.		
	The project develops career pathways or programs of study.		
	The project supports educator training related to workforce education.		
	The project supports the update of existing facilities or construction of new facilities.		
	The project supports the update of existing equipment or purchase of new equipment.		
	The project supports the update of existing instructional materials or purchase of new instructional materials.		

NOTES:

Preference Areas: SD Administrative Rule 24:10:47:04				
		Points		
Preference 1	Applicant may receive up to 15 points for each preference area addressed in the application.	0-5	6-10	11-15
Pts. _____	The project implements an innovative practice and includes work-based learning, dual or concurrent credit, and an applicable Career & Technical Student Organization.	Project provides students with a single opportunity to participate in work-based learning. Enrollment in dual or concurrent credit courses and participation in a Career & Technical Student Organization is available to students, but without coordination with the students' personal learning plans.	Project provides students with repeated opportunities to participate in work-based learning, dual or concurrent credit and Career & Technical Student Organizations, but with minimal coordination with students' personal learning plans.	Project provides students with multiple and varied opportunities to participate in work-based learning throughout middle and high school; Students enroll in dual or concurrent credit based on their personal learning plans; Student participation in dual or concurrent credit is non-duplicative; Students have access to one or more active Career & Technical Student Organizations and participation in these organizations in conjunction with career-related coursework; work-based learning strategies impacted are cross-curricular.
Pts. _____	The project includes meaningful collaboration with postsecondary education and business or industry.	Postsecondary institutions or business/industry representatives have signed letters of intent indicating support for collaboration, but the letters do not provide clarity about the unique way each partner will provide support to the project. Partners who represent high-skill, high-wage, high-demand careers are not included.	Both postsecondary and business/industry representatives have signed letter of intent indicating support for collaboration and provide clarity about how each partner will uniquely support the project. Partners represent high-skill, high-wage, high-demand careers.	The project facilitates frequent meetings between postsecondary staff, business/industry representatives and district administrators and teachers. Partnership provides for shared facilities, instructional materials, or curricula. Representatives from high-skill, high-wage, high demand careers are represented.

		Points		
Preference 2	Applicant may receive up to 10 points for each preference area addressed in the application.	0-3	4-7	8-10
Pts. _____	The project includes meaningful collaboration among multiple secondary schools.	Multiple school districts have signed letters of intent indicating support for collaboration, but the letters do not provide clarity about the unique way each school will provide support to the project or ensure student participation in the project.	School districts have signed letters of intent indicating support for collaboration and provide clarity about how each school will ensure student participation in the project, but collaboration is limited to specific CTE programs rather than full career development programs.	Students from multiple districts have expanded access to and will enroll in a collaborative CTE programs; Through collaboration, school districts take advantage of cost efficiencies and each school district's community resources and industry connections. School districts collaborate across both CTE programs and career development programs.
Pts. _____	The project outlines specific plans for sustainability.	Sustainability for the project is not addressed within the application or outlined plan for sustainability lacks specificity. The outlined sustainability plan does not guarantee the project will be continued beyond the grant period.	The sustainability plan identifies resources that will be used to maintain the project after the grant period but lacks specificity. The plan does not ensure the grant will be carried out at the same level of quality described in the original application. Minimal partners have been included within the sustainability plan.	Project plan includes specific funding sources and budget items that will sustain the project after the completion of the grant period and will maintain the project at the same level of quality of higher as described in the original application. Participating school districts, postsecondary partners, and business/industry representatives have all been included within the sustainability plan.

NOTES:

		Points		
Preference 3	Applicant may receive up to 10 points for each preference area addressed in the application.	0-3	4-7	8-10
Pts. _____	The project evaluates local career and technical education systems for the purposes of redesigning approved secondary CTE programs.	Project is limited to a specific career cluster and does not address the implementation or re-design of a system-wide career development program. A limited number of stakeholders are involved in the project. Minimal data sources are used in the evaluation process.	The evaluation process reviews strategies for the implementation of a system-wide career education program. Limited data and stakeholder involvement is included in the process.	Project involves community members, local business representatives, and school district representatives in the evaluation process. Evaluation process uses both qualitative and quantitative data to guide decision making. The evaluation process reviews strategies for the implementation of system-wide career education program.
Pts. _____	The project includes industry-grade practices, equipment, and student certifications.	Project identifies practices, equipment or certifications without consultation with business/industry representatives.	Business/industry representatives are consulted to identify practices, equipment, or certifications in alignment with industry standards and needs.	Project facilitates continued communication with business/industry representatives to identify practices, equipment, or certifications in alignment with industry standards and needs, specifically in high-skill, high-wage, high-demand careers. Plans for frequent reviews are identified in order to ensure practices, equipment or certifications are still in alignment with business/industry needs.

NOTES:

		Points		
Preference 4	Applicant may receive up to 10 points for each preference area addressed in the application.	0-3	4-7	8-10
Pts. _____	The project integrates academic content, work-readiness skills, and entrepreneurship education.	Academic content, work-readiness skills and entrepreneurship education are not integrated into the project or are integrated in a singular CTE program.	Academic content, work-readiness skills and entrepreneurship education are integrated across all career clusters.	Academic content, work-readiness skills, and entrepreneurship education are integrated across both CTE courses and core content courses.
Pts. _____	The project increases access to and support for approved secondary CTE programs in rural areas. <i>(Rural classification is based on U.S. Department of Education, National Center for Education Statistics, Common Core of Data (CCD), "Local Education Agency (School District) Universe Survey", 2013-14 v.1a.)</i>	Project increases access to rural areas through in a singular method.	Project increases access to rural areas in multiple ways, but community resources and other partners are not involved in the project.	Project increases access to rural areas through online courses, dual credit, and collaboration with other school districts, and other innovative practices. Postsecondary staff and business/industry partners are involved in providing additional access, particularly in high skill, high-wage, high demand careers.
Pts. _____	The project supports the retention of highly effective teachers, career counselors, and administrators for approved secondary CTE programs.	Support for teachers, career counselors, and administrators is provided through a single opportunity. Collaboration with colleagues, business/industry representatives, and postsecondary staff is not prioritized.	Project provides repeated support of teachers, career counselors and administrators, but collaboration with colleagues, business/industry partners, and postsecondary staff is not prioritized.	Project provides repeated, ongoing support of teachers, career counselors and administrators and encourages leadership development among these individuals. Collaboration with colleagues, business/industry representatives and postsecondary staff is prioritized to ensure system-wide effectiveness and continuous improvement.

Definitions and Resources

Career Clusters: South Dakota recognizes 16 career clusters. Career clusters are designed to help students acquire the knowledge and skills they need to reach their postsecondary and career goals. You can explore South Dakota’s career clusters by visiting <https://doe.sd.gov/CTE/careerclusters.aspx>.

Program of Study: includes a sequence of courses across secondary and postsecondary education that incorporates technical, academic and employability knowledge and skills.

Work Based Learning: connects students with industry to engage in real-world experiences. WBL experiences bridge academic, technical and employability skill development to help students become college, career and life ready. Whether in the earlier grades with career awareness, middle grades with career exploration, or high school with career preparation, WBL helps students explore careers and develop personal and professional goals for life after high school. You can learn more about Work Based Learning by visiting <https://doe.sd.gov/CTE/wbl.aspx>.

CTSO’s (Career and Technical Student Organizations): Student led organizations that promote leadership, teamwork and citizenship through hands-on application of classroom learning. Approved CTSO’s in South Dakota include DECA, FBLA, FFA, FCCLA, HOSA, SkillsUSA, and Educator’s Rising. You can learn more about these organizations by visiting <https://sdmylife.com/prepping-for-career/student-organizations>.

Dual Credit: college coursework completed by high school students which simultaneously enroll as traditional/nontraditional college students. Students in their Junior or Senior year of high school can enroll in dual credit courses offered through the six Regental institutions and the four Technical College if the participating school district agrees to transcript the credit earned on the student’s high school transcript. Students pay \$48.33 per credit hour.

Concurrent Credit: high school students enrolled in college coursework that is delivered by a qualified high school teacher, using the syllabus developed by the partner institution, under the mentorship of a qualified faculty member. Like dual credit activity, students earn both high school and college credit through their experience, yet only high school students are enrolled in the course. Tuition and Fees are agreed on in a contract between the post-secondary institution and the high school.
