New Form 471 Walk-through for FY 2015

Presented by Debra M. Kriete, Esq.
South Dakota State E-rate Coordinator
January 21, 2015

E-rate 2.1: More Changes

- Second FCC E-rate Modernization issued on December 11, 2014

- Includes more NEW rules, clarifies others and opines on items from 2.0 Order that were submitted for reconsideration

- Some new rules are to begin in 2015, others in 2016

E-Rate 2.1: A LOT More $$

- $1.5 billion additional funding each year
  - Funds are added to existing cap of $2.4 Billion for a new annual cap of $3.9 Billion for FY 2015
  - Will continue to be inflation adjusted in future years
- Additional funding from reserves of at least $1 billion for each of the next 2 years
- FY 2015 and FY 2019: $4.9 billion available
- *Substantial likelihood that all requests for C1 and C2 funding at all discount levels may be funded*

E-Rate 2.1

- Clarifies rules surrounding eligibility of wireless (cellular) data plans and air cards
  - Eligibility narrowed to very limited situations
  - Bookmobiles and *very small school buildings*
  - Must show installation of permanent wireless equipment is not cost effective or physically feasible
  - If you are going to apply, file this FRN on a completely separate application and be prepared to answer many PIA questions

E-Rate 2.1

- Revised, more sensible definition of Urban
  - Schools and libraries in "urbanized areas" and "urban clusters" in which the population is less than 25,000 will be considered rural for purposes of discount calculation

- Category 2 "Budget" approach of $150 per student/building is effective for five years
  - Previously this was going to possibly sunset after 2 years

- One-time C1 construction charges may be applied for in a lump sum for next 4 years
  - Previously had to apply over 3 years if charges were $500,000 or more

Reminders:

- Form 471 Window is **OPEN NOW**

- Form 471 Filing Window closes at 11:59 pm Eastern Time on Thursday **March 26, 2015**

- Last possible day to post Form 470 for 2015/2016 is **February 26, 2015**

- DO NOT miss these deadlines!

- Build in more time than past years!!

What's New in the Form 471?

- New updated interface
- May use different browsers: Firefox, Safari, Chrome, IE
- New questions – new information must be provided
- Block 5 has two parts
  - Traditional FRN information
  - Item 21 attachment is embedded in form
- Updated and *optional* template for Block 4 discounts
- New *optional* templates for Item 21
- Cannot copy/paste Block 4 from last year's form

1 Entity # for Each School

- How is "school" defined for E-rate purposes?
  - Based on state law definition
  - If the LEA is a separate listing in the State Educational Directory, the LEA is a "school" for E-rate purposes and requires a separate entity #
- School ≠ physical building
- SLD wants to know what services and equipment are in each specific "school"
- May need to request additional entity number for each LEA
- See list of entity #s posted to list serve

Category 1 Voice Phone Service 471

- Key differences in this year's Form 471:
  - Voice service must be in a separate FRN
    - If you receive Internet and voice service from same vendor, create 2 separate FRNs, one for voice and one for Internet
  - Smartphone plans must be cost allocated
    - May apply for voice charges
    - Must deduct separate text message charges
    - Must deduct data related charges
  - Aircards are generally ineligible and need to be deducted from cellular bill

Cellular Cost Allocations

- Ask your specific cellular representative for their cost allocations for your specific Smartphone and cellular plans
- If you cannot obtain specific information:
  - Deduct separate itemized text message charge from voice plans (if a separate line item)
  - Deduct 50% of Smartphone charges to remove data charges

Other C1 Information

- # of phone lines
- Speed (mbps) for phone line
  - Use 1 mbps for POTS lines and cellular lines
- Speed (mbps) for DSL or cable modem lines
  - Review bill for this information
  - Check vendor's website if not on bill
  - Contact company to ask

Next, tell us about the current connectivity in your school district.

Connectivity Questions

Does the school district (or school, if not part of a district) have Internet access of
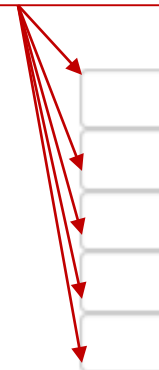

- ○ less than 100 Mbps per 1,000 users (students and staff)
- ○ at least 100 Mbps per 1,000 users but less than 1Gbps per 1,000 users
- ○ at least 1 Gbps per 1,000 users

< 0.1 mbps per student and staff

0.1 mbps or > but < than 10 mbps per student and staff

10 mbps or more per student and staff.

How many of the schools in the school district have Wide Area Networking connections that are scalable to 10 Gbps?

0

Must provide a number in each of these below. 0 can be used.

How many schools in your school district have LAN/WLAN capacity and coverage?

Completely sufficient to support the educational or library activities conducted here

Mostly sufficient to support the educational or library activities conducted here

Sometimes sufficient to support the educational or library activities conducted here

Rarely sufficient to support the educational or library activities conducted here

Not sufficient to support the educational or library activities conducted here

If you answer that less than all buildings have completely adequate LAN/WLAN coverage, these questions automatically appear on the form and you must select all that apply.

For those schools and libraries that do not have sufficient LAN/WLAN capacity and coverage to support the educational objectives or library activities conducted at that location, is the reason (check all that apply):

☐ Equipment too costly

☐ Installation too costly

☐ Broadband connection speed to building is too slow

☐ Inadequate local area network (LAN) services/internal networks and wiring

☐ Outdated equipment

☐ Lack of training and technical support

☐ Inconsistent service/frequent outages and down time

☐ Physical structure or layout of building(s)

☐ Other: If so, please provide it here
