24:05:25:04. Evaluation procedures -- General. School districts shall ensure, at a minimum, that evaluation procedures include the following:

- (4) No single measure or assessment is used as the sole criterion for determining eligibility or an appropriate educational program for a child;
- (5) A variety of assessment tools and strategies are used to gather relevant functional, developmental, and academic information about the child, including information provided by the parents, that may assist in determining:
 - (a) Whether the child is a child with a disability; and
 - (b) The content of the child's IEP, including information related to enabling the child:
 - (i) To be involved in and progress in the general education curriculum; or
 - (ii) For a preschool child, to participate in appropriate activities;
- (6) Technically sound instruments, assessment tools, and strategies are used that:
 - (a) May assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors; and
 - (b) Provide relevant information that directly assists persons in determining the educational needs of the child;
- (7) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities; and
- (8) The evaluation is sufficiently comprehensive to identify all of the child's special education and related service's needs, whether or not commonly linked to the disability category in which the child has been classified.

24:05:25:06. Reevaluations. A school district shall ensure that a reevaluation of each child with a disability is conducted in accordance with this chapter if the school district determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation or if the child's parents or teacher requests a reevaluation.

A reevaluation conducted under this section may occur not more than once a year, unless the parent and district agree otherwise, and must occur at least once every three years, unless the parent and the district agree that a reevaluation is unnecessary.

Reevaluations must be completed within 25 school days after receipt by the district of signed consent to reevaluate unless other time limits are agreed to by the school administration and the parents consistent with § 24:05:25:03.

24:05:25:03. Preplacement evaluation. Before any action is taken concerning the initial placement of a child with disabilities in a special education program, a full and individual initial evaluation of the child's educational needs must be conducted in accordance with the requirements of this chapter. Initial evaluations must be completed within 25 school days after receipt by the district of signed parent consent to evaluate unless other timelines are agreed to by the school administration and the parents.

Written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of the 25 school day evaluation timeline. If another timeline for completing the evaluation process is agreed to by the parent and school administration, the written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of agreed upon evaluation timeline.
