

Improved Collaboration Features Summary

Release Date – January 28, 2017

Personal Favorites Collections

Educators can now create and share Personal Collections of their favorite resources. Personal Collections are embedded folders within the Favorites tab for educators to organize and sort their favorite Digital Library Resources. Additional functionality allows educators to share their Personal Collections.

Goal-Setting and Tracking

Educators now have the option to download a “certificate” that displays their progress towards, and achievement of, goals for a given school year. Users set their own goals and elect to be featured on the Active Members Board of the Digital Library homepage.

Rate and Discuss Resources

The resource-based collaboration features are improved. Each resource has a Rate and Discuss tab for educators to provide feedback on resources.

State-Specific Forums

Members of the Digital Library State Leadership Teams can create and manage discussion forums personalized for their state. Only Digital Library users in that particular state will have access to the forum.

Notifications

Users will now have the option to set a frequency for email notifications. Both in-system and email notifications are updated based on new functionality in the Digital Library.
