24:10:42:28. Formula for funding. The postsecondary technical institutes shall receive state funding, from the amount appropriated by the Legislature less funds reserved in § 24:10:42:27, under a formula that distributes these funds based on full-time equivalent students as follows:

(1) Subtract the total set-asides reserved in § 24:10:42:27 from the total amount appropriated by the Legislature within the general appropriations act;

(2) Determine the number of full-time equivalent students at each institution for the preceding fiscal year using the following calculation:

(a) One "full-time equivalent student" equals 30 credit hours of instruction;

(b) The number of full-time equivalent students for an institution is calculated by dividing tuition collected for the preceding fiscal year by program as per chart of accounts prescribed within the South Dakota School District Accounting Manual by the tuition fee per credit and the quotient is divided by 30 credit hours;

(3) Multiply the number of full-time equivalent students at each institution by the per student allocation to determine the total allocation for the distribution formula. The distribution formula is as follows:

(a) "Per student allocation," for school fiscal year ~~2016~~ 2017 is ~~\$3,395.71~~ \$3,487.39;

(b) Twenty-five percent (25%) of the total allocation will be distributed equally among the four institutions as a baseline for common operations at each technical institute. The funds shall be divided by four (4);

(c) Seventy-five percent (75%) of the total allocation will be distributed within three program categories: high cost-low density programs, high cost programs, and standard cost programs. The funds shall be distributed by determining each program's full-time equivalent students, multiplied by the weighted program factor multiplied by the weighted per student value;

(d) The Director will identify the weighted program factor of each program documented on the South Dakota School District Accounting Manual;

(e) The weighted per student value is determined by the allocation divided by adding the total high cost-low density program's full-time equivalent students multiplied by a weighted program factor, plus the total high cost program's full-time equivalent students multiplied by a

weighted program factor, plus the total standard cost program's full-time equivalent students by a weighted program factor.

~~(4)(5)~~ "Capstone experience," a culminating high school experience designed to integrate knowledge, skills, and concepts gained from a student's program of study. Capstone experiences include:

(a) Senior experience that requires students to complete a research project, design and develop a product, assemble a portfolio, and complete an oral presentation before a panel;

(b) Entrepreneurship experience that requires students to research a new business opportunity, develop a business plan, assemble a portfolio, and complete an oral presentation before a panel; and

(c) Youth internship that allows students to gain hands-on experience at a business, develop employability skills, learn technical skills, and complete a portfolio.

~~(5)~~(6) "Career and technical student organization," "CTSO," a youth organization tied to career or technical education courses and operated in conjunction with an approved secondary CTE program, focusing on extending a student's learning experiences from the classroom to develop the student's leadership and work-readiness skills, assist the student to serve the student's community, and deepen the student's understanding of careers;

~~(6)~~(7) "Career, high demand," occupations in South Dakota for which occupational employment projections by DLR demonstrate an average annual demand for workers which is higher than the average annual demand across all occupations included in the projections data;

~~(7)~~(8) "Career, high skill," occupations in South Dakota which:

- (a) Prefer a minimum education of a postsecondary non-degree award;
- (b) Prefer an apprenticeship, internship, or long term on the job training; or
- (c) Prefer work experience of more than five years;

~~(8)~~(9) "Career, high wage," occupations in South Dakota in which statewide occupational wage estimates by DLR demonstrate an average wage which is greater than the average wage across all occupations included in the wage estimates data;

~~(9)~~(10) "Career pathway," a coherent, articulated sequence of rigorous academic, career and technical education courses developed, implemented, and maintained in partnership among secondary and postsecondary education, business, and employers. A career pathway commences in the ninth grade and leads to an associate, baccalaureate, or other degree, an industry recognized certificate, or a license;

(11) "Contract days," the working days in an academic year for an instructor position;

~~(10)~~(12) "Credential," the certificate giving authority or license to instruct at the postsecondary technical institute level;

~~(11)~~(13) "Credit, concurrent," postsecondary education courses for which a student receives both secondary and postsecondary credit, taught at a high school by a teacher who has been approved by a public postsecondary technical institute or university;

~~(12)~~(14) "Credit, dual," postsecondary education courses for which a student receives both secondary and postsecondary credit, taught through a public postsecondary technical institute or university, either online or in-person;

~~(13)~~(15) "CTE," career and technical education as defined by SDCL 13-39-1.2;

~~(14)~~(16) "DLR," the Department of Labor and Regulation;

~~(15)~~(17) "General education," the courses in communications, computer applications, math/science, social studies, and behavioral science taught at postsecondary technical institutes;

~~(16)~~(18) "Health occupation," a program that prepares individuals to enter, advance, or retrain for employment consistent with industry and labor market needs in the health field;

(19) "Instructor," an instructor at a postsecondary technical institute;

~~(17)~~(20) "Local credentialing committee," a committee of instructors and administrators appointed by the director of the local postsecondary technical institute to monitor the credentialing process;

(21) "Market value," the point within the wage range for each instructor position which reflects full qualification to hold the position and supervisory-level professional compensation in a comparable industry;

~~(18)~~(22) "Postsecondary education," training after secondary school with the goal of a credential, license, diploma, or degree;

~~(19)~~(23) "Program of study," a comprehensive, structured approach for delivering academic and career and technical education to prepare students for postsecondary education and career success;

~~(20)~~(24) "Secondary," a public secondary school as defined by § 24:43:01:01(41) and (42);

~~(21)~~(25) "Service learning," meaningful and relevant activity that addresses needs important to the community being served, in which students explore the context of societal issues relevant to the service;

(26) "Salary support funds," funding appropriated each year for instructor salary support to increase instructor salaries to market value;

(27) "Target average daily rate," the market value for each instructor position divided by the number of working days for that position;

~~(22)~~(28) "Technical specialty," an area of expertise determined by the occupational work experience of the individual;

(29) "Wage range," the range of pay established for each instructor position which includes an entry rate, market value, and maximum rate;

~~(23)~~(30) "Work-based learning," credit and noncredit bearing experiences focused on career exploration and development which help a student build employment-related competencies in the workplace, including capstone experiences, service learning projects, work placements, job shadow experiences, and workplace mentoring;

~~(24)~~(31) "Work experience," full-time employment in a career and technical area;

~~(25)~~(32) "Workforce education grants," grants from the workforce education fund established by SDCL 13-13-88; and

~~(26)~~(33) "Work-readiness skills," skills that indicate an individual possesses at least minimal qualifications, including intellectual and behavioral skills for a specific occupation.

24:10:49:03. Information to be provided. By November thirtieth of each year, each postsecondary technical institute shall provide the following information for each program in that academic year:

- (1) Average salary per instructor;
- (2) Average number of contract days;
- (3) Number of instructors; and
- (4) Justification for increase of contract days for the next academic year of

instructors, with detail regarding how the increased contract days will be sustained.

24:10:49:04. Calculation of need. Based upon the information referenced in § 24:10:49:03, the department shall calculate, for each postsecondary technical institute, the actual average daily rate per program. The department shall then calculate need as follows:

- (1) Subtract the actual average daily rate per program from the target average daily rate per program;

(2) If the calculation in subsection (1) results in a positive number, then add 14.06 percent to account for increased benefits to arrive at the total need; and

(3) If the calculation in subsection (1) results in a negative number, no dollars shall be allocated because instructors are at or above market value.
