Attn: Authorized Representatives
Summer Food Service Program Applicants

SUBJECT: Summer Food Service Program Application/Agreement

Welcome to the Child Nutrition Programs. To receive federal funds for meals served, a local agency must have an approved application and signed agreement on file with the Child and Adult Nutrition Services (CANS).

First step in getting started is to register for South Dakota's SFSP trainings and send the form to Julie McCord as instructed. If you are new to the Child Nutrition Programs in South Dakota, please contact doe.icanhelp@state.sd.us also to establish a sponsor profile and obtain a user id of the online application system called iCAN Summer Food Service Program.

The iCAN Summer Food Service Program red icon, and the SFSP 2019 will be activated once the South Dakota SFSP Waiver statuses are known and SFSP trainings in March are underway. When the iCAN system is ready with the 2019 information, I will have you enter the information online. The local agency will need to enter birthdates of the administrative staff, much like what is require for those administrating the Child and Adult Care Food Program CACFP in preparation for the implementation of the National Disqualified List as part of the integrity requirements and seriously deficient declarations of sponsors when applicable. We are operating under our most current guidance and will update materials as new guidance is available to us.

Training registrations were due February 22, 2019 and we will use information from the registration to contact you prior the application being open and available to those indicating they will be operating the summer of 2019.

The Summer Food Service Program iCAN Application Packet Checklist Item forms can be downloaded from [South Dakota DOE Summer Food Service Program](#). A completed application packet must be entered in iCAN SFSP and submitted for approval to the Child and Adult Nutrition Services by **April 25, 2019**, for a timely approval before school ends and your summer program begins.

The Local Agency must be able to demonstrate administrative capability and financial viability needed to properly operate child nutrition programs. If the Local Agency has successfully operated the NSLP or the School Breakfast Program (SBP) in the past, then the agency is eligible to operate the Summer Food Service Program and choose between the existing meal pattern for SBP, NSLP, afterschool snack or the SFSP Meal Pattern which does not require the vegetable subgroups and has a different set of requirements for offer versus serve on both breakfast and lunch or supper. The sponsor will not be allowed to submit claims for meals for Summer Food Service Program until the iCAN application, site application, management plan, budget and checklist items are approved.
