# Fall Update

Performance Series (DACCS)

South Dakota Assessment Portal (SDAP)

End of Course

# Performance Series (DACCS)

---

- Computer adaptive achievement tests in:
  - math, reading, language arts and science.
- Can be given 3-4 times a year.
  - Testing Windows
    - Fall 8/20 – 11/22
    - Winter 1/1 – 2/22
    - Spring 3/22 – 6/15
- Districts can transfer students between the schools

# What's New

---

- Maintaining correct data
  - Audit students
  - Update staff
  - Transfer students out to the transfer site (976-583-8718)
  - Contact the state before entering any student in the system as new

# South Dakota Assessment Portal SDAP

---

- What is it?
  - The SDAP is a website that you will be able to access the following platforms:
    - **iTester** – is the platform used to deliver benchmark/interim formative assessment and End of Course summative assessment testing online. This platform offers iTester Admin and iTester client.
    - **iTester Admin** is for set up of State, District and School personnel to view the current status of a particular administrating , add and edit users, add students, schedule test sessions, and assign test forms.
    - **iTester Client** is the test delivery system.

# South Dakota Assessment Portal

## SDAP (cont.)

---

- **Test Builder** – is the platform used to create items and tests to be delivered through iTester. This program offers two programs.
- **iAuthor**- which gives Districts/Schools the ability to add their own items and Form Builder to create tests with those items.
- **Form Builder** – Users may create multiple forms or have just one form for an assessment.
- **Data Interaction** – is eMetric's web-based platform for data integration, dissemination and analytics of most formative and summative as well as DStep testing results. It provides a variety of data visualization and graphical features which enable data to be represented in the form of graphs, histograms, line graphs, scatter plots and pie charts
