Data Requirements

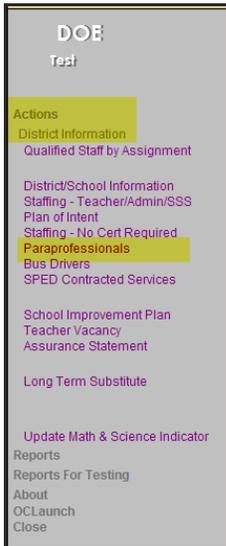

A Paraprofessional provides instructional support. Individuals who work in food services, cafeteria or playground supervision, personal care services, non-instructional computer assistance and similar positions are not considered a paraprofessional.

Beginning in the 2009-2010 School Year, the Paraprofessional Screen was updated because of changes to the Federal reporting requirements for Title I and Special Education. These changes include:

- Paraprofessionals encoded in Classified Staffing and Title I Paras will now be encoded in the new Paraprofessional Screen. Specific impacts to the Classified Staffing Screen include:
 - 01 Educational Paraprofessional – Special Education no longer an option
 - 02 Educational Paraprofessional – Regular Education no longer an option
 - 03 ‘Other’ Educational Assistant is no longer an option
 - 04 Tutor is no longer an option

STEP #1: Open the PRF. Click on:

- **Actions**
- **District Information**
- **Select Paraprofessionals**

- **You will see the following screen:**

STEP #3: Adding FTE by Type of Students (STUDENT INFORMATION)

Federal Reporting now requires us to provide information by student age group and whether the staff is qualified. For example the FTE for individuals working with Special Education Students age 3 to 5 must be reported by the full time equivalent staff that are qualified and the staff who are not qualified.

In order to provide this data a tab called Student Information was created.

Add Edit Delete Print **Student Information**

- Click on **Student Information** and you will see the screen on the following page.

Student Information

The purpose of the Student Information Screen is to identify the types of students the Paraprofessional assists. The three types of students include those who are (1) Regular Education, (2) Special Education Students ages 3 to 5 and (3) Special Education Students ages 6 to 21. You then must identify, by each type of student, the Paraprofessional FTE that are qualified and those which are not qualified. Qualified staff are determined by program requirements and the system automatically generates whether they are qualified. In order to help you identify the FTE for qualified and not qualified staff, this information is listed below.

Note: The funding source used to pay the salary of the Paraprofessional does not matter for the purpose of this screen.

Student Information Type	Total Qualified Staff FTE	Total Not Qualified Staff FTE
Regular Education	FTE	FTE
Special Education (Students Age 3 to 5)	FTE	FTE
Special Education (Students Age 6 to 21)	FTE	FTE

Total Funding Source FTE (Qualified versus Not Qualified)

Total Qualified Paraprofessional FTE:

Total Not Qualified Paraprofessional FTE:

- Determine the number of Qualified and Not Qualified Staff (by Full Time Equivalent Employees) that work with the following groups of students:
 - Regular Education
 - Special Education (Students Age 3 to 5)
 - Special Education (Students Age 6 to 21)

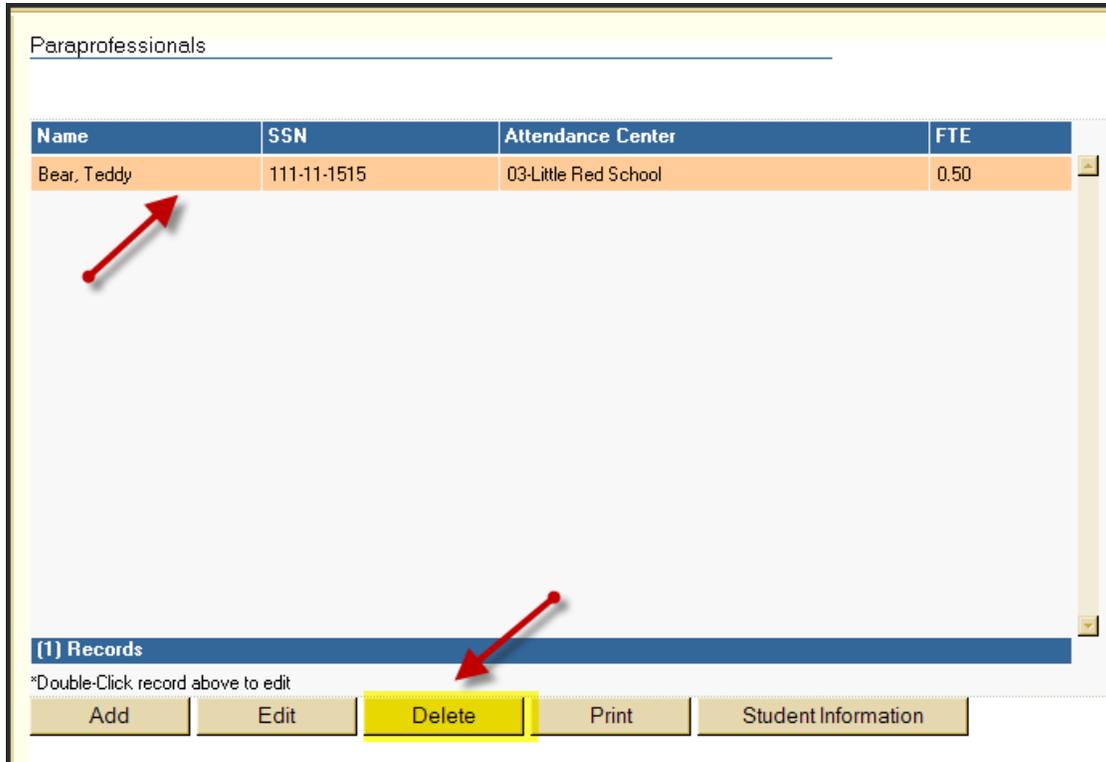

TIP: First Add the Paraprofessional Information to the database. The system will identify those who are qualified and not qualified. To assist you with this requirement, Total Funding Source FTE (Qualified versus Not Qualified) has been added to the bottom of the page.

There will be an Edit Check in the Assurance Statement that determines if the FTE added for Paraprofessionals equals the FTE broken out by the type of student and qualified and not qualified.

Deleting Paraprofessional Data

STEP #1: Deleting a Record

- To delete an individual open the Paraprofessional Main Screen, highlight the person you need to delete and click the Delete button.
