**Message:** Good day,  
I would like to see along with open enrollment that those who file for public school exemption could turn in their exemption forms to the district which they have the most contact with, which provides them with the best support, and with which they intend to participate in the future of their child's education. It would be nice if the district that the exemption was submitted to, would be the one that would receive the funding that schools receive for homeschooled children. I would like to see the school of my choice get the support they need to continue to provide in the best way for the children in the area.
