Deb Muilenburg-Wilson, Special Education Director  
Sioux Falls School District  
201 East 38<sup>th</sup> Street  
Sioux Falls, SD 57105

Dear Deb:

The South Dakota Department of Education, Special Education Programs, conducted a review at the SD State Penitentiary for the purpose of assessing compliance in the implementation of the Individuals with Disabilities Education Act (IDEA), the Administrative Rules of South Dakota (ARSD), and assisting your district in developing strategies to improve results for children with disabilities. The Special Education Program's Accountability Process is designed to focus state and local resources on improved results for children with disabilities and their families through a working partnership among the Division of Educational Services and Support, parents, and advocates.

The attached report addresses the areas reviewed in your school district. **Special Education Programs is pleased to report that no issues were found in your agency. Therefore, no compliance action plan is necessary.**

Thank you for the efforts of you and your staff on the behalf of individuals with disabilities and their families.

Sincerely,

Linda Turner, Director  
Special Education Programs
