

Quick Guide to Implementing the New SD CTE Standards

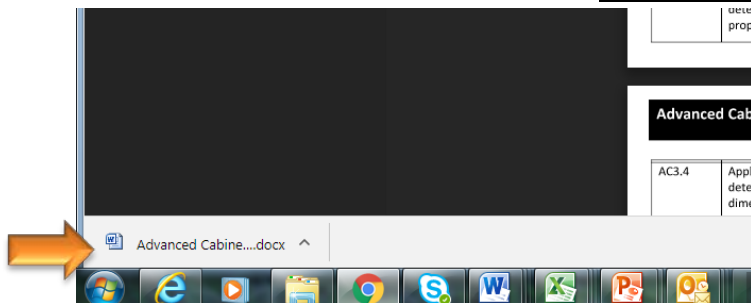

Step 1: Locate the Standards Implementation Templates

Go Here: <https://goo.gl/n45TBE>

- Select the Career Cluster then specific course you plan to work on revising or implementing.
- Click on the course title to open the document.
- Then, download it. Select the down arrow in the far upper right corner-----> 

- This will automatically download the document you want. You can find it at the bottom of your browser screen. It will look like this in the bottom left corner:

- Click on it to open your document. Be sure to File Save As- to a location where you can easily find it in the future instead of the default 'Downloads' folder on your computer.

Step 2: Start crafting and drafting how you intend to teach the standards.

- Feel free to move and rearrange the standards into the order in which you plan to teach them.
- **Just don't delete or toss any out....** CTE standards are minimum standards. Meaning- when you pick that course, you must teach all the standards listed by the end of the course.
- Don't forget about a few key resources available to help make the process as efficient as possible. A handy document listing explaining these resources is listed within the link above.
- A **Power Point Presentation** used at the in-person Standards Implementation Work Day can also be found in the Google folder via the link at the top of the page.

Step 3: Put the New Plans to Work!

- Align your Perkins requests, curriculum updates and local departmental budget requests to meet the needs of the newly revised curriculum and related CTE content standards.
- The Implementation Worksheets are super print friendly as well.

Need CEU Contact Hours? Follow these directions to receive a CEU Contact Hours for completing a Standards Implementation Worksheet. The more courses you work to revise- the CEU Contact Hours earned! Check out the instructions here for how to submit your work for CEU Contact Hours credit- <https://goo.gl/XueLVC>
