

EDU 298 Mentorship/Internship for Career & Technical Education Instructors –

EDU 298 supports current secondary CTE instructors as they continue to grow in their teaching career. Through mentorship and guided reflection, participants will explore effective instructional strategies, curriculum development, and classroom delivery methods tailored to career and technical education. Emphasis is placed on building upon each instructor's existing experience and strengths, with a focus on applying competency-based education models in real-world teaching environments
