

EDFN 592: Advanced Data Use Skills for Educators

Course information

Building upon the skills first taught in the prerequisite “Fundamentals of Using Data for Educators,” this online, advanced course applies the skills to an individual project that uses data. Participants will complete required readings, **attend a weekly class**, participate in online discussions, and complete a data project with the goal of using data in order to answer important questions for their district, school, or classroom. Two graduate credits are available for this course!

Who should attend

This course is open to South Dakota administrators and educators who are interested in school- or district-level data **and** who have completed the Fundamentals of Using Data for Educators prior to registering.

Dates and times

Course: Aug 28-Dec 18, 2024

Classes: Wednesday nights, 6:00-8:00 PM CT, held online.

Final project due: Dec 18

Cost and registration

Participation is free. Register for the course [here](#).

Two credits are available through USD at \$40.00/credit. If you wish to take this course for credit, you must register for graduate credit [here](#).

Participants are required to purchase the following textbook: Bernhardt, V. L. (2017). *Data analysis for continuous school improvement* (4th Ed.). New York, NY: Routledge
