

Assessment News Alert- May 20, 2025

This message was sent to assessment coordinators in public school districts and several approved programs and non-public school systems.

Individual Student Reports (ISRs) can include math on one side and ELA on the other now!

Districts can go to the Student Results Generator in Cambium's Reporting System and use the following settings. This will sort the PDFs in order of student. The ISRs will download all at once and they'll see the ELA and Math results for each student next to each other. See screenshot below. Just a reminder, all results should be in the Reporting System after **May 19**.

The screenshot shows the 'Student Results Generator' window. A red box highlights the 'Report Type' section where 'Individual Student Report' is selected. Another red box highlights the 'Report Options' section where 'Include only those students who were mine when they tested.' is unchecked. A third red box highlights the 'Print Options' section where 'Single PDF' is selected. A fourth red box highlights the 'PDF Type' section where 'Detailed' is selected. A fifth red box highlights the 'Language' dropdown menu which is set to 'English'. A sixth red box highlights the 'Supplemental Materials' section where 'Do Not Include' is selected. A seventh red box highlights the 'Search by Student ID' field. A eighth red box highlights the 'Select the assessments.' section where 'Select by Grade' is selected. A ninth red box highlights the 'Grade 3' section where 'ELA' and 'Mathematics' are both selected. A tenth red box highlights the 'Grade 3 ELA - Summative' and 'Grade 3 Math - Summative' options.

Opportunity for Math and ELA Teachers

Do you want to help strengthen South Dakota's Math and English Language Arts assessments? We are currently looking for educators to help review assessment passages virtually for the math and ELA assessments. The potential dates for the reviews are located on the [Calendar of Educator Events](#) page. If you are interested in learning more and/or applying, please visit the [Educator Recruitment page](#).

Interim Assessment Window Extended

The window for the interims (FIABs, IABs, and Science) has been extended through Friday, May 23.

MSAA (Math-Alt and ELA-Alt) Assessment Results

MSAA results will be available in **mid-July**. Be on the lookout for an email around that time!

ACT Alignment Study Opportunity (Please share with your high school math, ELA, and science teachers)

We are seeking qualified high school teachers with content experience to help evaluate the alignment of the ACT Math, English, Reading, Writing, and Science assessments to the South Dakota Content Standards for Math, ELA, and Science. This work will take place in Pierre on July 9-10, 2025. Participants will receive \$175 per day, with hotel accommodations provided and travel expenses reimbursed. [Apply by Monday, May 26 if you are interested!](#) Please share this opportunity with all high school math, ELA, and science teachers in your network.

Summative Assessment Target Report – not available until after July 1, 2025

Need help analyzing your district's summative data? Our team can create a customized three-year target report for your school or district. These reports are especially valuable for:

- Analyzing your districts' summative assessment trends to determine areas of strength and growth over multiple years
- Planning instruction for the upcoming year
- Identifying focus areas for interim assessments

Contact [Rebecca Frerichs](#) to request your target report.
