

SSIP Theory of Action

Vision: SD Birth to Three contributes to the success of children with developmental delays and their families by providing dynamic, individualized early intervention services and supports by building on family strengths through everyday routines and learning experiences.

Strands of Action

If the State...

Then Regionally....

Then

Results

Data Quality

...Supports a statewide culture of data informed decision making using the Birth to Three comprehensive data system SEIDS

...administrators and early intervention providers use data to inform continuous improvement

Accountability

...Implements general supervision monitoring protocols including results and compliance

...IFSP teams increase the quality of decisions related to outcomes and services
...Early intervention providers implement EI services in accordance with federal and state requirements

...Statewide data quality continues

...Children & families, including those most often underserved, receive appropriate evidence-based practices

...Infants and toddlers exiting early intervention services will demonstrate increased growth in their acquisition and use of knowledge and skills (including early language/communication)

Professional Development

...Continues to provide comprehensive, relevant and rigorous training based upon changing needs of providers and families

...Early intervention providers continually improve their knowledge and skills in evidence-based coaching practices

...Families and caregivers are more likely to be engaged in routines-based intervention

Child Find & Workforce

...Continues to increase awareness of EI routines-based family engagement services to all South Dakota families
...Continues to attract, recruit, and retain qualified personnel to meet EI needs statewide

...Enrollment increases with emphasis on children and families most often underserved
...An increased community-based provider pool is available to meet the needs of all Part C families.
