

# Food Service Management Company (FSMC) Monitoring Form

**2021-2022**

From Memo Number: SNP 228-1: *Every school year, each School Food Authority (SFA) with more than one school must perform no less than one on-site review of the meal counting and claiming system and some general areas identified under 7 CFR 210.18(h) in each school operating the National School Lunch Program (NSLP) and half of the schools operating the School Breakfast Program (SBP).*

In addition to the site monitoring, an official from the SFA (for this document: Local Education Agency - LEA) must conduct a monitoring visit of **each food service site operated by the FSMC** where meals are prepared and/or served to be sure they are in compliance with the contract and with USDA requirements **twice per year**.

If the monitoring visit discovers errors in the Food Service Management Company's operation of the School Nutrition Program, the LEA must issue specific corrective actions for each error. The approved completion of the corrective action within 30 days of the review will return the FSMC to the scope of their contract and return the LEA to SNP compliance.

Complete a copy of this form for **each site** monitored, any additional documentation of corrective action, and retain in program files. The results of monitoring visits may be used as support for renewing or not renewing the FSMC contract. A copy of the completed forms must be sent to Child & Adult Nutrition Services with the contract renewal documents.
