Grounded in research. Driven by best practices. A community that puts learners first.

## What is QM?

With digital learning, everyone has a goal. Learners need to improve and grow. You work to nurture them with well-conceived, well-designed, well-presented courses and programs. Our goal — as a non-profit, quality assurance organization — is to provide a system to help you deliver on that promise: with review, improvement and certification of quality. We'll give you the tools, resources, and connections to help you with *your* goal.
