

2014 DSTEP Online

Carol Sekinger, Pearson
Gay Pickner, SD DOE

DSTEP Online 2014

- SD DOE and Pearson has begun the work to move the DSTEP assessment to be administered online in Spring 2014.
 - The first of this process is the implementation of PearsonAccess for additional orders for Spring 2013.
 - Throughout this next year there will be many activities (see next slide) that will occur that we want you to be aware of, as some of these activities will require your districts participation.
 - Pearson is working with DOE to evaluate results of information in the Technology Readiness Tool. Be sure your network administrators has completed.

Online Implementation Activities

- ***Evaluation of District Readiness for Online Assessment (December 2012 – April 2013, follow-up verification September 2013 – December 2013)***
- ***System Check Tool – (March 2013 ongoing)***
- ***Training Site and Student Practice Tests (mid-August 2013)***
- ***Delivering a Pilot Assessment (October 2013 – November 2013)***
- ***Conduct Mandatory District “Infrastructure Trials” prior to the first live assessments (Fall 2013 - January 2014)***
- ***Face to Face teacher training (Fall 2013)***
- ***Student Readiness (September 2013 – March 2014)***

Online Implementation

- SD DOE, BIT and Pearson have begun working with select schools to determine site readiness. The results of these visits will enable Pearson to provide online training to additional districts and schools.
- During the visits SD DOE, BIT and Pearson met with the Network Administrators

Online Implementation

- Pearson has established a reference site:
- **<http://pearsononlinetesting.com/South Dakota>**
 - This reference site contains:
 - Hardware/software requirements for TestNav 7
 - Requirements for proctor caching
 - Early Warning System
 - System Check Tool
 - Proctor Caching

Click on Support Tab

Available training modules for staff that will be setting up the computers for testing

The screenshot shows a Windows Internet Explorer browser window displaying the PearsonAccess Reference Site. The page title is "PearsonAccess Reference Site". The navigation menu includes "Home", "Support", and "ePAT". The "Support" menu is expanded to show "Resources". Under "Resources", there are tabs for "Downloads", "Templates", "Training", and "User Documentation". The "Training" tab is selected, showing a list of training documents. The list has 5 results, with the first one selected. The table below shows the details of the training documents.

Document Name	Description
System Check	-
TestNav 7 Overview	March 22, 2012
Proctor Caching Overview	March 22, 2012
Test Administrator Overview - TestNav 7.5	March 22, 2012
Test Administrator Overview - TestNav 6	March 22, 2012

South Dakota PearsonAccess Training Site

- South Dakota PearsonAccess Training Site will be available – Mid June 2013
 - This site will contain training modules
 - In mid-August there will be student practice tests available
 - Site will represent what the operational Spring 2014 will look like

Teacher Hands On Training

- SD DOE and Pearson will be setting up training sites for this training to occur in the fall of 2013.
 - Training sites will be located across the state
 - Training will be geared towards the steps necessary for sitting up testing sessions for classrooms.

Every District should send at least one person to this training.

Pearson Training Support

- In addition to the training site Pearson will offer many webex training sessions through out the next year.
 - Webex Trainings:
 - **System Check Tool** – Network Administrator
 - **Proctor Caching** – Network Administrator
 - **Test Session Management** (creating test sessions and updating) – Teachers, District Test Coordinators
 - **Accessing the Training Site** - everyone
 - Technology questions and answers
- Announcements about the webex trainings will be sent via the district coordinators list serve.

Defined Roles in PearsonAccess

- In the past only District Test Coordinators had roles defined in PearsonAccess
 - As we move forward we will provide access to:
 - District Network Administrators
 - District Test Coordinators
 - School Site Coordinators (larger districts)
 - Teachers

Things to Consider

- When the testing window will occur
- What online tools will be mandated
- Options for colony schools without internet access
 - www.PearsonOnlineTesting.com/TabletConsiderations
