Welcome to the South Dakota Assessment Portal!

SDAP

Authoring

Author items, create tests, and establish scoring rubrics.

Administration

Organize students for testing, schedule tests, and monitor testing progress.

Reporting

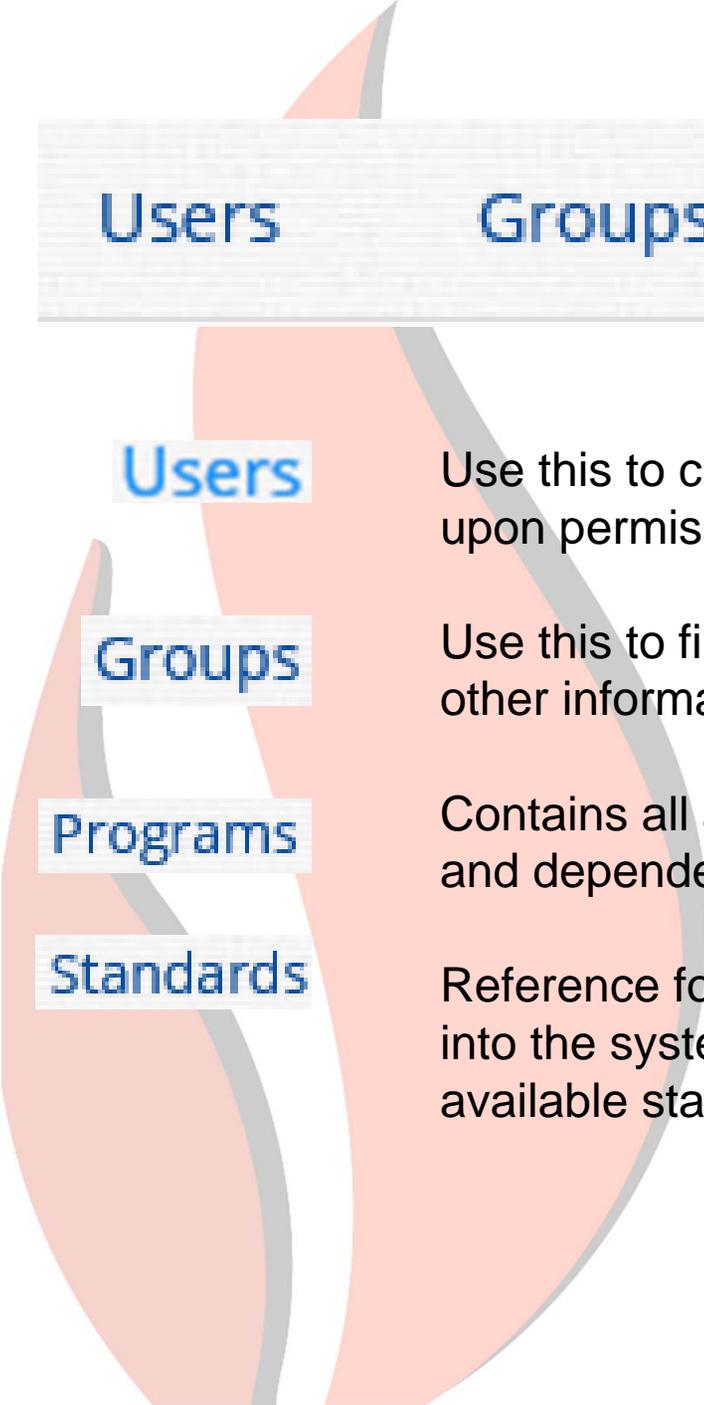

View summary and individual student results by test, content standards, and items.

Scoring

Score Student responses

Initial welcome screen when first logging into portal. Available components dependent upon user level. Scoring added into this picture.

Users

Groups

Programs

Standards

Users

Use this to create new, or look at all current users depending upon permissions of your account.

Groups

Use this to find or create groups to share item banks, forms, and other information with different users.

Programs

Contains all available assessment systems available to the user and dependent upon user account permissions.

Standards

Reference for all of the state standards. Only standards loaded into the system can be assessed as items must be aligned to available standards.

Different Component Functions

Authoring

Allows users to perform three functions in the test creation process: item authoring, form construction, and test authoring and publishing.

Administration

Allows users to organize students for testing, schedule tests, and monitor student progress.

Reporting

Houses all student testing data from tests administered via the old portal, as well as data from tests administered via the new portal. Allows users to view summary and individual student results

Scoring

Used to score human scored items that have been authored in the Authoring component. Once human scored items have been finalized and submitted, the scores will be available in Reporting

Item Types

- Choice Interaction (Multiple Choice)
- Extended Text Interaction (Open Ended)
- Technology Enhanced (TEI)

Accessibility allows setting of Text-to-Speech during item creation.

Test Types

- **Standard Tests**
 - Stores student responses and only taken once
- **Allow Multiple Student Attempts**
 - Used for Benchmark testing
- **Create a single username and password for all students**
 - Used for practice testing, no answers stored

Reporting

- **SDAP 2015+**
 - Data from all tests administered via the new portal
- **SDAP 2011-2014**
 - Data from all tests administered via the old portal
- **Dakota Step**
 - Data from all past and current DSTEP assessments
