REPORTING TEACHER COMPENSATION

Data displayed has been uploaded for your district based on teacher information entered in the Personnel Record Form (PRF) database for school year 2024-2025.

There are 2 ways to complete the Teacher Compensation data reporting:

- Data Edit and Entry of Compensation Data
- Uploading File of Teacher Compensation Data

REPORTING TEACHER COMPENSATION – DIRECT DATA ENTRY

- If you choose to enter the benefit costs for each teacher click on the paper and pencil icon at the start of each line.
- The curser will highlight the Total Benefits data field and you may enter the cost of benefits for that teacher and press enter. The record will be saved when the enter key is pressed.
 - Enter benefit costs or contract salary in whole dollar values no cents!
- To continue to the next record, click on the paper and pencil icon and again enter the benefit costs - press the enter key.

REPORTING TEACHER COMPENSATION – DIRECT DATA ENTRY

- If a teacher should need to be removed click on the wastebasket in at the beginning of the line.
 - The program has a safeguard and will ask you confirm that you want to delete the data for this teacher.
- Why may a teacher need to be removed?
 - If sharing a teacher with another district only the district in which the teacher has a contract should be
 reporting the teacher. The district with which the teacher is shared should NOT report this teacher. If you don't
 issue a W2 for a teacher they should not be included in this report!
 - If the employee is NOT a contracted teacher but a long-term substitute; teacher does not have a contract but is
 rather paid a daily rate and no benefits are offered this teacher.
 - If the teacher is not certified do not include this individual for this data collection.
 - General education PK teachers should NOT be included, only K-12 teachers should be reported.

REPORTING TEACHER COMPENSATION – DIRECT DATA ENTRY

- If a teacher's information needs to be edited click on the paper and pencil icon i and click in the appropriate data field to enter the correct information. When data has been entered press enter key and data will be saved.
- If you need to ADD a teacher click on the "Add New" button at the top of the screen and enter the appropriate information.
- When entering data for a NEW teacher to save entries you MUST click on the save icon 🗄 at the beginning of the row.

REPORTING TEACHER COMPENSATION – DATA UPLOAD

If your district would like to UPLOAD the Teacher Compensation data in lieu of encoding the data –

Teacher Compensation

REPORTING TEACHER COMPENSATION – DATA UPLOAD

- A district may create their own file OR may export the data preloaded by DOE and enter the benefit costs on a spreadsheet and then re-upload. (Recommended to export data file to ensure proper staff listing.)
 - IMPORTANT: Data files uploaded need to be saved in a .csv format
- To export the Teacher Compensation data click on <u>Reports</u> and then chose report group "District".
 From the list of report options choose "Export District Teacher Compensation"

FINALIZING TEACHER COMPENSATION DATA

When all data has been completed and reviewed enter the Submitted By information (name) and check the Editing Complete box to finalize your submission of the FY2025 Teacher Compensation data.

Submitted By						
Editing Complete						

 No additional editing of the Teacher Compensation Data can be done after the Editing Complete Box has been checked.

TEACHER COMPENSATION REVIEW

What are the Next Steps?

DOE review of data.....

- Once a district has completed their data entry or upload DOE will also run the Report-Teacher Compensation Comparison report and may contact districts for clarification of discrepancies between TC and PRF data submissions.
- Once ALL districts have completed their TC data submissions DOE will complete a statewide review of all data to check for data variances, duplicates and irregular benefit costs.

TEACHER COMPENSATION DATA CORRECTIONS

- What if I need to make a correction after I have checked the Editing Complete box?
 - If you need to make a correction to the reported Teacher Compensation data contact Office of State Aid & School Finance and we will remove the check box for Editing Complete and the district will then be allowed to make updates.
- When will I know that my district has met the accountabilities?
 - At any time, a district may use the Teacher Compensation accountability calculator to test for compliance.
 Official notification of Teacher Compensation accountability status will come from DOE by October 6th.

TEACHER COMPENSATION REPORTS

- There are other report options available to print. Reports such as:
 - Report Teacher Compensation
 - Report Teacher Compensation Comparison
 - Report Teacher Compensation Current Year/Prior Year
- Report District Teacher Compensation will provide a list of the data reported for all teachers and will also include the summary data such as total FTE, total compensation, average teacher salary and average teacher compensation.

TEACHER COMPENSATION REPORTS

Report – Teacher Compensation Comparison

- This report will provide a "comparison" of data reported here and data reported in PRF.
- If there are any differences:
- Row starting with "District:" the data reported in Teacher Compensation does not match PRF reported data.
 - This may happen if a teacher was not entered into PRF but is now reported in Teacher Compensation.
- Row starting with "State:" the data reported in PRF does not match or is missing from the Teacher Compensation reported data.
 - This may identify a teacher that is reported in PRF but not included in Teacher Compensation. Good
 example may be a shared teacher, long-term substitute teacher or PK teacher none of which should
 be reported for Teacher Compensation but are needed to be entered into PRF.

TEACHER COMPENSATION REPORTS

Report – Teacher Compensation Comparison PY/CY

This report will provide a list of teachers reported in FY24 to the list of teachers reported in FY25.

Districts should use the TC accountability calculator to ensure FY2025 compliance.
