

EDER 792: USING DATA TO INFORM INSTRUCTION

The University of South Dakota and the South Dakota Department of Education are excited to announce the pilot of a new series of courses for educators. These courses are part of an initiative of SDDOE to educate administrators and teachers on how to use and understand data. If successful, courses could be provided throughout the state next year.

Description:

Understanding and using data will assist teachers in making decisions to foster powerful improvements in student outcomes. This workshop will provide classroom teaching professionals with the skills they need to analyze and use data in order to answer important questions for their classroom to drive positive change. Instructors: Kelly Duncan, Ph.D., and Gerta Bardhoshi, Ph.D.

Objectives:

Creating a Data Plan; Understanding Types of Data; Understanding the Process for Collecting Data; Interpreting Data; Creating Action Plans; Implementation Strategies; Monitoring and Evaluating Effectiveness of Plans; Examining and Sustaining Progress

Who:

All teachers working in South Dakota.

Focus or Priority schools are especially encouraged to attend.

Dates:

August 1 Online Pre-Work through D2L

August 8 Face-to-Face Instruction

Location: Southeast Technical Institute,
Sioux Falls, SD

Time: 8-5pm

August 9-31 Independent Work on Project

Cost:

Participation is free, but 1 credit for this course is available through USD at a reduced cost of \$40.

How to Register: (limited spots available)

For credit, register with USD online at

<https://aceware.usd.edu/CourseStatus.awp?&course=87221>

For non-credit, register with SDDOE by emailing

sara.kock@state.sd.us or marcus.bevier@state.sd.us.
