Assumptions: 5 Year Renewal Licenses for Existing Switches
20 Licenses at \$550 each, one-time charge, for all 5 years

50

E-RATE FUNDING OF MULTI-YEAR LICENSES

- Multi-year right to use licenses have been and will continue to be classified as internal connections.
- NEW for FY 2026 – Support licenses are also classified as internal connections (formerly BMIC)
- When there is a one-time charge for multi-years of the license, E-Rate allows for the total cost of the license to be funded in the year of purchase.
 - In this example, the purchase will be made in FY 2026 and each license is for five years, at a total cost per license of \$550.
 - The entire \$550 per license will be included in the funding request.

ASSUMPTIONS FOR THIS FRN

- In FY 2025, five (5) 5-year support licenses were purchased for \$750 each.
- The support license is a fixed price item sold by the manufacturer and includes software or remote based services such as bug fixes, security patches, software based technical assistance and configuration changes.
- In FY 2025 and prior years the support license was classified as BMIC.
 - Only the annual cost of a multi-year prepaid license was eligible in each funding year.
 - \$150 per license ($\$750/5\text{ years} = \150) was approved for funding in FY 2025.
- **NEW in FY 2026**, support licenses are now classified as internal connections and treated the same way as prepaid Right to Use Licenses.
 - The entire cost of the prepaid support license is eligible for funding in the year of purchase.
 - For multi-year support licenses that were purchased prior to FY 2026, and for which there is a balance not yet approved for E-Rate, the remaining license costs can be claimed for funding in FY 2026
- In this example there are 4 years of remaining costs (\$600 per license)

Although you may order and install equipment on after April 1, the system will not accept a service start date that is earlier than 7/1/2026.
