### **Special education reports now available online**

PIERRE, S.D. – Information regarding school districts’ performance on improving the educational outcomes of students with disabilities is now available online. The Special Education Report is released annually by June 1.

The report addresses the federal requirement of special education programs, known as Part B, to report on the performance of each local school district, based on the State Performance Plan results. This report identifies school districts’ ability to meet federal requirements on several indicators, along with performance targets. It is based mainly on data from the 2020-21 school year, with the exception of indicators 1, 2, 4, 9, and 10 which are based on 2019-20 data.

To view special education reports, visit the department’s [State Performance Plan webpage](#) and scroll down to the “LEA Public Reporting” heading. Statewide and district-level data are available under “Data from the 2020-21 School Year.”
