Personnel Record Form (PRF) Desk Guide

Section I – General Overview

Purpose

The purpose of the SD Department of Education (SD DOE) Personnel Record Form (PRF) is to provide a valid and reliable data collection solution for the reporting of PK-12 staffing information required to meet state and federal reporting compliancy ([SDCL § 13-3-51](#)). The following desk guide document is based on the regular PK-12 staffing data collection requirements and deadlines throughout the school year, including but not limited to:

- Annual statewide PK-12 staffing data collection,
 - October – School Year Start, and
 - June – School Year End,
- Accountability Report Card – Federal Accountability,
- ED Facts – Federal Reporting, and
- Teacher Compensation – State Accountability

To accomplish the above collection and reporting, the SD Department of Education (SD DOE) utilizes a state developed data collection system on the ServiceNOW platform. It is the responsibility of both SDDOE and districts to maintain a valid and reliable data collection solution and process to ensure accurate reporting.

In addition to the above listed data collection periods, PK-12 staffing data is also leveraged throughout the school year for additional purposes such as:

- Populate the Perkins reporting system,
- Nation Education Association annual reporting,
- Public reporting on state educator statistics,
- Legislative requests, and
- General data requests throughout the year.

Data Collection

The South Dakota educational structure includes SD-accredited districts ([SDCL § 13-5-1](#)) and approved programs in specific circumstances. The reporting requirements for each district, school system, and approved program vary based on federal and state funding and accountabilities.

Required Data Collections

The following reporting requirement crosswalk provides a brief overview of the PK-12 staffing data collection requirements by specific collection and district type.

Timeline

Annual PRF collection cycles are defined by federal and state reporting requirements based on codified law and administrative rule. SD DOE will coordinate, communicate, and facilitate regular PRF collections with all entities required to report PK-12 staffing information to ensure accountability compliancy is maintained for all stakeholders.

Personnel Record Form (PRF) Collection

All deadlines are identified as the close of business (5:00 pm MT) of the date of the deadline.

General Timeline

- Fall PRF Collection
 - Opens: Early September
 - Closes: October 15th, or the following business day ([SDCL § 13-3-51](#))
- Spring PRF Collection
 - Opens: Early April
 - Closes: Second Friday in June ([ARSD 24:17:03:02](#))

SY2023-24 Timeline

- Fall Collection
 - Opens: Monday, September 11th, 2023
 - Closes: Monday, October 16th, 2023
- Spring Collection
 - Opens: Early April 2024
 - Closes: Friday, June 14th, 2024

Updates & Reminders

Full Time Equivalency (FTE) Threshold Increase

The upper threshold of an individual's total FTE, a component of the PRF data submission validation process included in the assurance statement sign off processes, is being increased to 1.25 from 1.00 for SY2023-24. The purpose of the threshold increase is to align department monitoring practices to the evolving mode-of-instruction landscape and provide local entities additional flexibility in addressing educator and instructional needs. It is the belief of SD DOE that this data collection validation threshold increase is appropriate to leverage in only rare occasions and typically occurs when a full-time educator is providing virtual instruction for another district or educational provider.

Section II – District Portal

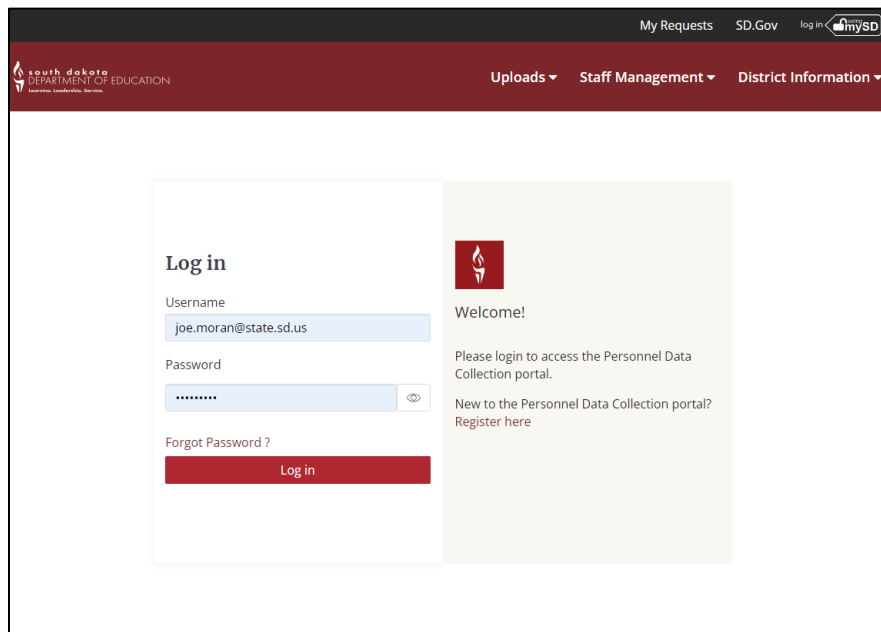

The Personnel Record Form (PRF) is a state data collection system developed as a tool to support the required annual collection of PK-12 school staffing data for every SD accredited school district and applicable approved provider. The system is developed on the state fedRAMP certified cloud platform¹, ServiceNow, as a part of modernization efforts. SD Department of Education (SD DOE) provides access to PK-12 school personnel via an online portal found here at <https://www.sd.gov/prf>.

Access & Accounts

PK-12 school user accounts are provisioned by the SD DOE PRF administrator. For support, please contact doeprf@state.sd.us. Personnel verification is managed by cross references to the department PK-12 Educational Structure and Directory as updated by the local PK-12 schools; [click here](#) for local information.

After logging on to <https://www.sd.gov/prf>, there are several ways to sign in.

If you have a current user account, enter username and password to access your school PRF portal.

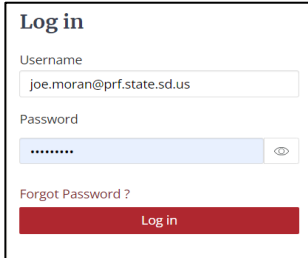

The screenshot shows the login page of the Personnel Record Form (PRF) portal. The page has a dark red header with the South Dakota Department of Education logo and navigation links: "My Requests", "SD.Gov", and "log in mySD". Below the header, there are three main navigation tabs: "Uploads", "Staff Management", and "District Information". The main content area is divided into two columns. The left column is titled "Log in" and contains a form with fields for "Username" (containing "joe.moran@state.sd.us") and "Password" (masked with dots). There is a "Forgot Password?" link and a red "Log in" button. The right column is titled "Welcome!" and contains a message: "Please login to access the Personnel Data Collection portal." and a link: "New to the Personnel Data Collection portal? Register here".

¹ The Federal Risk and Authorization Management Program (FedRAMP) was established in 2011 as a government-wide program to promote the adoption of secure cloud services by providing a standardized approach to security and risk assessment for cloud technologies and federal agencies. Primary authority is established under the Federal Information Security Modernization Act (FISMA), the Office of Management and Budget (OMB), the National Institute of Standards and Technology (NIST), and the FedRAMP Authorization Act of 2022.

The following sub-sections provide a general overview of the district portal and available tools.

Landing Page

The Personnel Record Form (PRF) is a state data collection system developed as a tool to support the required annual collection of SD accredited PK-12 school staffing data. The following information provides a general overview of the PK-12 school portal landing page.

Primary Tools and Functions

The main PRF landing page provides several pathways and tools in support of annual PK-12 staffing data submission requirements for SD accredited school districts and applicable approved programs. The primary navigation and resource components are identified on landing page below, which are summarized on the next page.

The screenshot shows the 'Personnel Data Collection' web application interface. At the top right, there is a user profile for 'Joe Moran' and 'SD.Gov'. The main navigation bar includes 'Reports', 'Uploads', 'Staff Management', and 'District Information'. The main content area features a large banner with the title 'Personnel Data Collection' and four numbered callouts (4, 5, 2, 3) pointing to navigation items. Below the banner, there is a 'Select a School Year' section with a dropdown menu set to '2024' and a callout '1'. A central navigation row contains four icons: 'Staff Management', 'Plans of Intent', 'District Information', and 'Assurance Statement', with a callout '6' pointing to the 'Plans of Intent' icon. To the right, the 'PRF Database Requirements' section includes a welcome message and a 'View Requirements' button with a callout '7'. At the bottom, the 'Upload PRF Information' section has two buttons: 'Upload Staff' and 'Upload Assignments'.

Below are brief descriptions for the primary navigation and resource components identified on the above landing page.

1. School Year Select
 - a. Allows for the selection of a specific school year.
 - b. Tip: In the PRF, the school year is designated by the end year.
 - i. For example, SY2023-24 = 2024
2. Staff Management
 - a. Provides the menu of school personnel to select from.
 - b. Tip: Not all school district types are required to report on the same personnel.
 - i. For example,
 1. public districts are required to report on educators, bus drivers, classified staff, contracted services, and paraprofessionals and
 2. non-public districts are required to report on educators and bus driver.
3. District Information
 - a. Provides the menu of district level tools and supports.
4. Reports
 - a. Available set of exportable reports provided for both user file maintenance and data entry.
5. File Uploads
 - a. Provides the ability to export all system records and a process for using template uploads to modify records.
6. Quick Links
 - a. A set of quick links to go directly to these most frequently used tools.
7. Data Collection Requirements
 - a. Provides a reference of the required reporting data for each school district type.

Each of these tools and resources will be further detailed in the following sections.

Common Hints and Tips

Browser Back Button – The PRF collection system is developed to leverage the user’s internet browser navigational tools; therefore, you are able to use the back and forward buttons to navigate through the system. If the navigation buttons are used and there are changes made on the present page, then the user will receive a notification to save the changes, or they will not be saved.

District Information

During each data collection period, the best practice is to begin with several general district related tasks to ensure effective population of the calculated fields within the PRF. The following details the location of the various initial district portal verification tools.

Attendance Centers

It is important that each district escalates all educational structural differences with the SD Department of Education. Annual updates to educational structure are collected and verified via PK-12 Educational Structure Collection, which occurs between March 1st and March 31st ([ARSD 24:17:03:10](#)). During this collection, districts shall report new schools, closed schools, grade span changes and district/school name changes. Local educational structure modifications are typically finalized by May 1st and then applied SD DOE collection systems and federal reporting. To resolve educational structure questions or concerns, contact [Jantina Nelson-Stastny](#) (605-668-2904).

Apple Blossom Elementary

Attendance Center

*School Name: Apple Blossom Elementary

District Name: K12 Test District

School Year: 2024

School Number: 01 Grade Span: PK - 08

*School Type: Elementary EC08 *Term: Quarterly

[Save \(Ctrl + s\)](#)

It's important to define the academic term at the outset. If your district uses academic terms, such as semester, trimester, or quarter, then the academic term must be setup at the attendance center or school level.

- The semester model groups the academic year into two terms. Select the quarter designation to support aggregation of semester data. In general, two quarters of a particular subject will be equivalent to one semester of the same subject.
- The trimester model groups the academic year into three terms, select the trimester designation.
- The quarter model groups the academic year into four terms, select the quarter designation.

Base Teacher Salary

The next purpose of the Teacher Base Salary field is for districts to provide their negotiated starting salary for educators starting at 0 years of experience. This data is used to both report on statewide figures and trends as well as a system validation check to ensure accuracy of the entered educator salary information.

With the district information completed, the next section will detail the primary duty of entering Personnel Record Form (PRF) staff information.

Section III – Staff Management

The purpose of this section is to provide an overview of the regular data entry and collection of PK-12 staffing information. A personnel record is required to be submitted for all individuals employed in a position for which certification is offered through the Department of Education (DOE). Additionally, if an individual is hired and certified through another agency, the district is required to complete a personnel record form.

Landing Page

Below is the landing page for the PRF Staff Management collection tools and brief references to support the general navigation.

The screenshot shows the PRF Staff Management interface. At the top, there are navigation tabs: Reports, Uploads, Staff Management, and District Information. The main content area is titled 'Manage Staff' and includes a breadcrumb trail 'Home > Educators'. A search bar is located in the top right. Below the search bar, there is a dropdown menu for 'Viewing information for: 2024 K12 Test District - 00000' with a 'Change' button. The 'Manage Staff' section has tabs for 'Educators', 'Bus Drivers', 'Classified Staffing', 'Contracted Services', and 'Paraprofessionals'. Below these tabs, there is a filter section with a dropdown for 'District has educators' and a 'Select a filter:' dropdown set to 'Include only incomplete records'. The 'Educators' section is active, showing an 'Educator List' with a 'Keyword Search' box and a 'New' button. A filter bar shows 'All > School Year = 2024 > Record Validated != Yes'. Below this is a table with columns: First Name, Last Name, Masked SSN, Updated, and Record Validated. The table contains four rows of test data. At the bottom right, there is a pagination control showing 'Showing results 1 - 4 of 4' with navigation arrows.

4. Table Function
 - a. Allows the user to sort the staff table by any field by clicking the header name of the specific field.
5. Filter Function
 - a. Allows the user to filter the staff list down to a specific subgroup based on needs.
 - i. Could filter to only cases where the record validated field is set to no or empty to isolate the records that remain incomplete for the reporting period.
6. Edit/View Function
 - a. Allows the user to open the individual record to either edit or view dependent on the time of year and state of the record.

Educators

A personnel record is required to be submitted for all individuals employed in a position for which certification is offered through the Department of Education (DOE) ([ARSD 24:43:10:01](#)); includes all instructional, administrative and education specialist positions.

Educator personnel data is required from the following district types:

- 10 - Public School Districts
- 20 - Non-Public (Private) Schools
- 30 - Tribal/Bureau of Indian Education (BIE)
- 40 - Cooperatives/Multi-Districts
- 80 - State Special Schools
- 90 - Alternative Programs
- 95 - Approved Virtual School Providers ([SD Center for Virtual Education](#))
 - Black Hills Online Learning Community
 - DIAL
 - NSU Center for eLearning
 - High Plains Alternative School

School Districts who contract personnel through cooperatives or virtual providers in South Dakota should not report those personnel. Each Cooperative/Multi-District and Virtual Provider is required to report their staff.

Please direct specific questions related to determination of PRF reporting requirements to [Jantina Nelson-Stastny](#) (605-668-2904).

Definitions

The next several subsections provide guidance intended to support annual reporting requirements and definitions related to district Educator personnel.

Note(s): PK-12 Educator positions are determined by state codified law and administrative rule, which are subject to regular review and modification.

Student Teachers

A student teacher is an individual who is completing an in-depth, direct teaching experience in a school setting conducted as a culminating, field-based experience for an educator preparation program. Under [ARSD 24:28:09](#), individuals are able to apply for either a student teaching or advanced student teaching permit, which allows for the individual to be paid by the district.

If the individual has an advanced student teacher permit and the district is utilizing the individual as the teacher of record, then the district is required to report the individual on the PRF. Individuals not acting as the teacher of record, should not be reported.

Below is the general difference between the student teacher permits.

	Student Teacher Permit	Advanced Student Teacher Permit
Report in PRF	No	Yes, if teacher of record
Requirements	Required for paid student teaching experience. <ul style="list-style-type: none"> • Official transcript verifying satisfactory completion of educational coursework likely to be met by the start date of the student teaching experience • Successfully completed: <ul style="list-style-type: none"> o 60 minutes of approved suicide awareness and prevention training • Obtained sign-off from the educator preparation program 	Required for paid student teaching experience and provides the ability for permit holder to serve as a teacher of record. <ul style="list-style-type: none"> • Official transcript confirming satisfactory completion of educational coursework likely to be met by the start date of the student teaching experience and registration of final coursework • Successfully completed: <ul style="list-style-type: none"> o state-designated pedagogy test o state-designated content test(s) o 60 minutes of approved suicide awareness and prevention training • Obtained sign-off from the educator preparation program • Participate in a mentor program • Adhere to the South Dakota Code of Professional Ethics for Teachers

Note(s): Both student teacher permits are one-year certificates and non-renewable.

For additional information, find Division of Accreditation and Certification guidance at this [link](#).

Substitutes

Another, yet separate type of educator reported on the PRF are substitutes. Below is a list of common occurrences when substitutes are hired and whether they need to be reported for this data collection:

Description	Submit a Long-Term Substitute Waiver	Submit PRF for this Individual	Reason
Substitute hired to replace a teacher on maternity leave/FMLA for less than 45 days.	No	No	The teacher for whom the substitute was hired was reported on PRF and the substitute will be "temporary" and not hired for more than 45 cumulative school days.
Substitute hired to replace a teacher on maternity leave/FMLA for more than 45 days.	No	Yes	The teacher for whom the substitute was hired was reported on PRF and the substitute will be "temporary" and hired for more than 45 cumulative school days. The plan-of-intent will still say "temporary", and the reason hired would be "long-term sub without waiver".
Substitute with a valid or inactive teaching license hired to replace a teacher for more than 45 days.	No	Yes	The teacher for whom the substitute was hired was reported on PRF and the substitute will be "temporary" and hired for more than 45 cumulative school days. The plan-of-intent will still say "temporary", and the reason hired would be "long-term sub without waiver".
An individual acting as a teacher of record for no more than 45 cumulative school days in a vacant teaching position while a school district pursues a contract for a teacher	No	No	This person is not "replacing" an existing teacher but was hired for this teaching position with the intent of finding a certified teacher.

An individual without a valid or inactive certificate acting as a teacher of record for more than 45 cumulative school days in a vacant teaching position while a school district pursues a contract for a teacher	Yes	Yes	The plan-of-intent will still say “temporary”, and the reason hired would be “long-term sub with waiver”. If the PRF is closed, contact Jantina at 605-668-2904 to manually add a PRF record.
Teacher is sick for 3 days and substitute was hired.	No	No	
Substitute replaces Teacher "A" for 23 days and then Teacher "B" for 22 days.	No	No	Substitute must replace the SAME teacher for 45 cumulative school days.
Substitute hired to replace paraprofessional.	No	No	State law defines a long-term substitute as a "substitute teacher" and "Other School Personnel" (i.e., paraprofessionals) are NOT teachers.

Below, you will find details specific to common questions related to Long-Term Substitute Teachers.

Long-Term Substitutes

An individual acting as a “long-term substitute” to fill a position will need to be added to the PRF record. A long-term substitute teacher is defined per [ARSD 24:28:01:01](#):

- An individual acting as a teacher of record for no more than 45 cumulative school days in a vacant teaching position while a school district pursues a contract for a teacher: or
- An individual acting as a teacher of record for more than 45 cumulative school days when a teacher is on a temporary leave of absence, if:
 - The teacher's leave of absence is granted pursuant to the "Family and Medical Leave Act of 1993," 29 U.S.C. § 2601, et seq. by the school; or
 - The individual has a valid or inactive teaching certificate.

The following details how to hire a long-term substitute.

- Complete the Administrative Rule Waiver Application: Long-Term Substitute form at <https://doe.sd.gov/oatq/documents/Waiver-LTS-22.pdf> and request to waive the highlighted pieces in the screenshot below.
 - Gain school board approval
 - Submit to doeaccred@state.sd.us along with the school board meeting minutes.

The following details how to add a long-term substitute teacher to the PRF.

- A non-certified personnel record is required to be submitted for all individuals employed in a position that meets the definition of long-term substitute. Be sure to use the status of “Long-Term Substitute” on the PRF record.
- Within the PRF this will trigger a plan of intent.
 - The following needs to be selected
 - Check box: Temporary Assignment
 - Reason Individual was Hired dropdown: “Long-Term Substitute with waiver” or “Long-Term Substitute without waiver”

Long-term Substitute Requirement

ARSD 24:28:01.01 (54) “Long-term substitute” means:

- (A) an individual acting as a teacher of record for no more than 45 cumulative school days in a vacant teaching position while a school district pursues a contract for a teacher; or
- (B) an individual who is acting as the teacher of record for more than 45 cumulative school days when a teacher is on a temporary leave of absence if:
 - (1) the teacher’s leave of absence is granted pursuant to the “Family and Medical Leave Act of 1993,” 29 U.S.C. § 2601, et seq. by the school; or
 - (2) the individual has a valid or inactive teaching certificate.

Definition of an Inactive Certificate (will allow someone with an invalid certificate to receive an inactive certificate allowing them to meet [the exemption in ARSD 24:24:01:01\(54\)\(B\)\(2\)](#))

ARSD 24:28:01.01 (50) “Inactive certificate” means a certificate issued to a certificate holder with a valid certificate, who is not acting as an educator and requests the certificate become inactive for a period of five years.

Application Timeline

ARSD 24:43:08:04. Application timelines. An approved waiver shall take effect at the beginning of the next school fiscal year on July 1. The department must receive an application for a waiver at least 60 days prior to the start of a new school fiscal year July 1. A district may petition the secretary for consideration of an alternate effective date that is least 60 days after the department receives its application for a waiver. The secretary shall consider the quality of the application and the extent of its intended outcomes on student learning and enhancement of student opportunity in determining whether to grant the alternate effective date for an approved waiver.

The Educator records section provides guidance on navigating and entering required personnel information.

Adding and Modifying

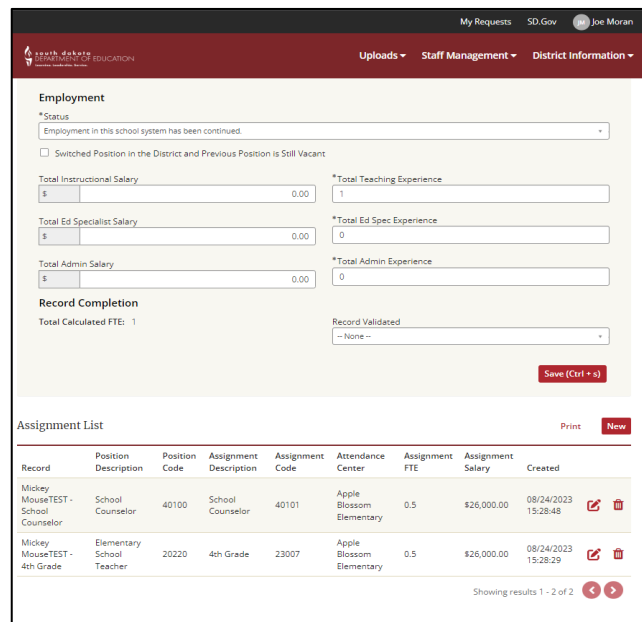

The PRF educator record consists of two main sections: (a) Educator and (b) employment information. Both sections are generally detailed below, however, not all educator records are the exact same and there will be differences based on whether the educator exists in the Certification system.

Educator record (upper section): Person and demographics information

Educator record (lower section): Employment information

Educator Record - Person Information

Each year, district PRF coordinators are required to verify and update each Educator record information as appropriate. The Educator person information is found on the upper section of the educator record. The person information consists of both person identification and demographic information, which is typically automatically populated based on the Educator's self-identification on their certification record.

Individual and Demographic Information

To ensure compliancy with Federal reporting requirements, the educator person and demographic information collect includes the following fields:

- Social Security Number (SSN)*
- First Name*
- Middle Name
- Last Name*
- Gender*
- Date of Birth (DOB)*
- Hispanic/Latino Indicator*
- Race Selections*
- Federal Race/Ethnicity – Calculated field based on the aggregation of the Hispanic/Latino indicator and selected race identification.

Educator person and demographic information come from one of two locations. If the individual *has* a record in the Certification System, then their person and demographic information is populated in the PRF based on the individual’s social security number (SSN). If the individual *does not have* a Certification record, then their required person and demographic information is manually entered by district coordinators.

Data Entry Hint: Always start person information entry with the SSN. When you enter an SSN and then click into the next data field, the system will run a check on the Certification system and pull in the information if found.

Certification Status

Additionally, the educator’s person information includes certification information, which is found below the demographic information, if the individual has a Certification record, then their relevant certification information will update when the educator record undergoes several changes, including but not limited to entering an SSN or validating and saving the record.

The educator profile certificate status indicates the certificate’s status as it moves through the Certification process (see [Certification Statuses](#) for definitions and alignment), whereas the certification status indicates the status of the certificate as it relates to the PRF (not certified or certified).

Certification Status on the PRF is defined as:

- Certified means the individual has an active certificate.
- Non-Certified means the individual does not have an active certificate.
 - *You must ensure the individual becomes certified.*

The following are four reasons why an educator may have a certificate status of non-certified.

Reason 1: The staff person's certificate expired on July 1st of the current year and has not been renewed.

- You should follow up with the staff person to ensure they have applied for a renewal certificate.
- Between July 1st and October 1st of the year of expiration the renewal requirements remain the same, however beginning October 1st the renewal requirements increase to 6 transcribed credits.

Reason 2: The staff person's certificate is invalid.

- If the individual has allowed their certificate to become invalid, and is not able to meet the renewal requirements, they must apply for a one-year non-renewable Temporary certificate. This will allow them to be considered certified while completing the renewal requirements.

Reason 3: The staff person has an alternative preliminary certificate.

- If you have hired someone who will be going through alternative certification you must make sure they have applied for alternative certification.
 - Step 1 of alternative certification is to apply for an Alternative Preliminary certificate. This allows the applicant to be hired by a district to go through alternative certification, but this certificate does not allow them to be considered certified.
 - Step 2 of alternative certification is to apply for the appropriate alternative certification route. Once they have received the alternative certification certificate, they will be considered certified for the school year.

Reason 4: The staff person is non-certified.

- All staff should have a certificate to be an administrator, teacher, or education specialist.
 - In 2017, the certification rules were updated to include additional flexibilities for districts who are not able to fill a position requiring a certificate.
 - For additional details related to certification options, find information at the following certification website: <https://doe.sd.gov/certification/documents/Admin-FlexOptions.pdf>.

Educator Record - Employment Information

Each year, district PRF coordinators are required to update the educator's employment information, which is found on the lower section of the educator record. The employment information consists of three main components: employment status, educator salary, and educator experience information.

Employment Status

Each year, every educator record status is required to be verified. The below list reflects the current active employment statuses:

- Employment in this school system has been continued,
- New Employee – 1st year hired as staff in any school district, in any state,
- New Employee – has been absent from field of education 1 or more year(s),
- New Employee – previously employed in another SD school district,
- New Employee – previously employed out of state,
- Re-employed in a school district following an absence of one year or more,
- Long-Term Substitute, or
- No Longer Employed.

Data Entry Hint: The employment record status is a required field as indicated by the * leading the field name. When the status is modified to – None – the system provides several notifications such as changing the status field border turns to red and a required information notification pops up on the bottom of the record. If there is an attempt to save or navigate to another window, without the required data, a message is sent through the browser with guidance toward a resolution. In the below case, the browser notification indicates that some fields are incomplete and provides the field name of Status. Once the Employment record status is selected and no other required fields are missing, the required field notifications disappear, and the record is ready to be saved.

No Longer Employed Status

Generally, Educator No Longer Employed record entry should be completed with the following criteria considerations:

- Every Educator reported on the prior school year needs to be accounted for in the current school year PRF submission as either continuing employment or *No Longer Employed*.
- When Educators are employed the prior school year and are *No Longer Employed* for the current school year, select the most appropriate reason known to the district.
- If an Educator leaves during the current school year, do not update their record to reflect they are *No Longer Employed*.
 - The Educator will need to be switched to *No Longer Employed* during the following year reporting.
- Maintaining a list of all employees from the previous year who are *No Longer Employed* and completing the associated Educator record status updates at the same time has been identified as a beneficial practice.

The status selection of *No Longer Employed* will initiate a cascading set of questions specific to the local actions taken with respect to the assignment. Proceed and respond to the required fields. Below are the list of current *No Longer Employed* reasons:

- Caregiver to family/children,
- Death,
- Employed by District in another capacity not tracked in Educator Screen,
- Employed in another SD-accredited school/district,
- Employed in another school/district out of state,
- Employee that rotates and carries out their CTE classes at another district,
- Family/personal relocation,
- Illness,
- Non-Renewal,
- Not Currently Instructing (Virtual School Only),
- On Leave of Absence or Sabbatical,
- Other employment outside of education,
- Reduction-in-Force, or
- Retirement.

The following *No Longer Employed* responses provide a reference of potential reasons and district actions relative to an Educator turnover.

Switching Positions within District

In the event that an Educator who continues to be an employee in the district, however, changed positions, the district will need to report this change by checking the box *Switched position in the district and previous position is still vacant* as depicted below.

Employment

* District: K12 Test District

 Employment in this school system has been continued. 

Switched Position in the District and Previous Position is Still Vacant

This checkbox should be selected if the employee received a promotion or accepts a different position within the district. For example, if a self-contained 5th grade Educator transitions to a Special Education Educator position.

Once the educator employment status fields are completed, proceed below to update the educator salary and experience information.

Educator Salary and Experience

Total salary must be reported as instructional, administrative, and education specialist as appropriate. As a reminder, salary information is only required to be collected at public school districts and educational cooperatives.

Generally, salary information on the Educator records should be completed with the following criteria considerations:

- Do not include:
 - Bonuses,
 - Longevity pay,
 - Extended contract pay, or
 - Stipends or extra duty pay.
 - These are not used when calculating salaries and average salaries.
- Round all salaries to the nearest whole dollar.
- If there is not yet an agreement regarding salaries (impasse), report the salary they were paid the prior year.
 - Then, notify [Jantina Nelson-Stastny](mailto:jantina.nelson-stastny@doe.sd.gov) (605-668-2904) when determinations are completed and there is information to update if the collection windows are closed.
- Salary step increases should be reflected in the PRF database.
 - If the district has received a conditional waiver from the School Finance Accountability Board and paid out additional funds to your teachers, the Educator records must be updated to include the additional contract amounts.

As a reference, here are some example situations:

- If an administrator also instructs a course, the breakout of the instructional salary and the administrative salary should reflect the actual salary for each job responsibility.
 - The administrator is paid on a schedule higher than the instructional staff, so don't simply allocate the percentage of FTE.
 - The district is required to determine the full-time salary schedule for the instructional assignment by negotiated schedule "step and lane" increases to determine the appropriate salary percentages between the instructional and administrative assignments.
- If instructional staff have periods/blocks during the school day to carry out Classified Staff duties, do not include this time or salary on the PRF Educator screen.
 - For example, an athletic director who also instructs a course, should have only the breakout of the instructional salary reported in the PRF.
 - The Athletic Director – a Classified Staff position – salary is not reported.
- If a teacher has unpaid leave days but is returning to the district to teach, a district should NOT adjust the contract salary amount reported to the actual cost to the district.

To ensure compliancy with federal and state reporting requirements, the required Educator salary and experience fields are defined below.

Total Salary: The total negotiated contract amount is required to be reported for all Educators at the position level (Instructional, Education Specialist, or Administrative); as appropriate.

- **Total Instructional Salary:** The amount of salary negotiated for instructional assignments.
- **Total Education Specialist Salary:** The amount of salary negotiated for educational specialist assignments.
- **Total Administrative Salary:** The amount of salary negotiated for administrative assignments.

Total experience – years of experience prior to the start of the current school year – is required to be reported at the position level (Instructional, Education Specialist, or Administrative); as appropriate.

- **Total Instructional Experience:** Total years of delivering instructional to students, prior to this school year.
 - This should include time teaching at another district or school.
 - If a part-time principal and part-time teacher, count one year instructional and one year administrative.
 - Include years of experience for Alternative Certification to count towards the years of total "teaching experience".
 - Do not include years as a long-term substitute as years of service.
- **Total Education Specialist Experience:** Total years as an education specialist prior to the current school year.
- **Total Administrative Experience:** Total years as an administrator prior to the current school year, including CEO.

- If full-time principal and teach 1 class, count one-year administrative experience and one-year instructional experience.

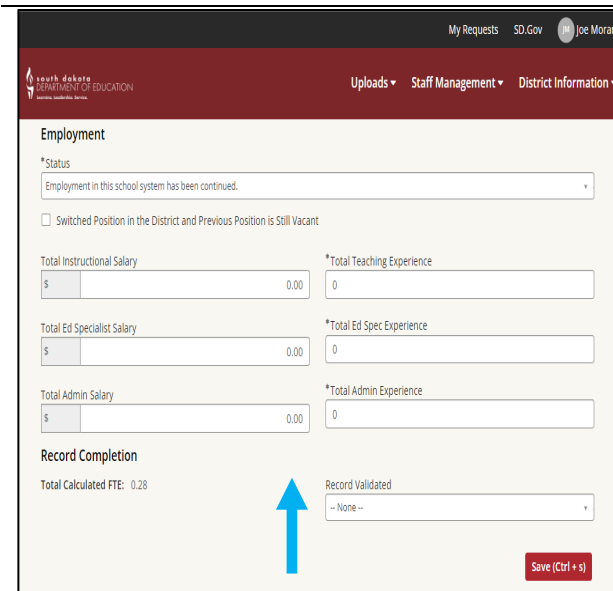

The below calculated fields will populate after modifying the relevant assignment information.

- Total Calculated FTE: The total number of contracted FTE at the individual level.
 - Value must be between 0 and annual Educator FTE limit; most traditionally 1.
 - Field calculates on the Educator record after each modification of salary or assignment information.
- Assignment Salary: The amount of salary provisioned for each Educator assignment.
 - Field calculates on the Educator record after each modification of salary information.

The following guidance is provided to support clarification regarding the implications of the annual roll over process on Educator salary and experience information.

- During the annual system rollover, which occurs over the summer, the educator information is carried over from the previous year, and procedural transformations are implemented where appropriate.
- For instance, the rollover record below illustrates that all salary information is zeroed out during the rollover, establishing the requirement of annual updates to every salary field.
- Conversely, the experience fields were retained through the rollover, to provide a reminder of the previous entry.
 - In this case, the contracted salary amount was entered by the district PRF contact, and the years of experience field was increased by 1 by the district PRF contact as an update, then the record saved.

Educator Record – Validation

The *Record Validated* field can be set at any time. This indicator field is the mechanism used to confirm with the system that the record was reviewed, modified appropriately, and prepared for submission. Toggling the *Yes/No indicator* triggers a final update to calculations, status checks, etc. If navigating from the educator record to update their assignments, save the educator record then navigate to *Edit* any assignment record or click *New*. Changes made to any assignment record switches all *Record Validated* response where *Yes* to *No*; thus, best practice with the *Record Validated* field is to switch it to *Yes* when both the educator and related assignment records have been verified for submission.

The screenshot shows a form titled "Record Completion" with the text "District Level FTE: 1" on the left. On the right, there is a dropdown menu labeled "Record Validated" with "Yes" selected. A green arrow points from the left towards the dropdown menu. Below the dropdown menu is a red button labeled "Save (Ctrl + s)", with a blue arrow pointing towards it.

Assignment Record

The following Assignment record fields are required for the appropriate district types and local educators.

- Assignment FTE*
- Attendance Center*
- Position Description*
- Assignment Description*
- Check all appropriate boxes:
 - Digital Curriculum: Instruction is provided virtually by the local district.
 - Electronic Distance Instruction: Instruction is provided by an approved SD Center for Virtual Instruction provider.
 - Employed by this district for Title/SPED programs provided to non-public students
 - Only available to public school districts.
 - Assignment carried out at another District/School
 - Only available to Cooperative/Multi-Districts.
- Additional Details: Select when Educator needs to be dually licensed to provide both the content and one of the below services. These teachers of record are awarding student grades and are providing core content assignment instruction.
 - Special Education Teacher
 - English as a Second Language Teacher:
 - Blind/Visually Impaired
 - Deaf/Hearing Impaired
- Terms*
 - Must select at least one of the appropriate quarters or trimesters.
 - Populated options are based on the selected attendance center and the district term designation for that specific attendance center in the [district information section](#).

The Total Calculated FTE field will populate after assignment records are modified and provides the number of FTEs assigned to each Educator regardless of district.

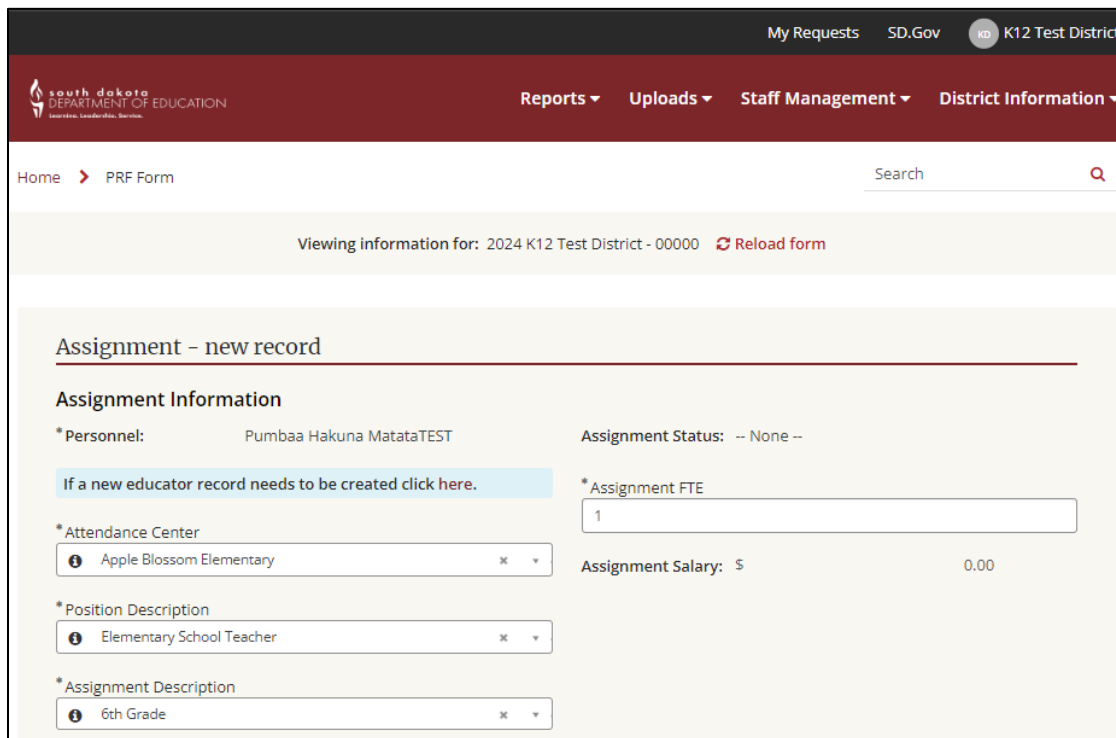

Generally, Educator Assignment record entry should be completed with the following criteria considerations:

- A Title I Teacher/Interventionist is defined as a teacher who provides supplemental instruction and interventions based on student’s needs in the areas of reading, language arts, and math.
 - In a Title I Schoolwide Program or Title I Targeted Assistance Program, staff providing interventions should be coded as one of the following options:
 - 26001 Elementary Title/Interventionist
 - 26002 Grades 5-8 Title/Interventionist
 - 26003 High School Title/Interventionist
 - In a non-Title I school, staff providing interventions should be coded as one of the following options:
 - 26004 Elementary Interventionist
 - 26005 Grades 5-8 Interventionist
 - 26006 High School Interventionist
 - The code ‘99999’ should be used for dual credit/concurrent credit courses.
 - This only applies to situations where the teacher is employed by the school district but is offering coursework from a Postsecondary Institution (university or technical school).
 - These types of courses typically have a teacher that has signed an agreement with the Postsecondary Institution.
 - The agreement ensures the teachers meets the certification requirements for the Postsecondary Institution and the credit is applied at both the secondary and postsecondary level.
- If you are receiving an Electronic/Distance class offered by another district and have someone monitoring the classroom, report the time for this individual with an assignment code of E-Mentor.
- Elementary teachers in departmentalized setting should be counted like the middle and secondary teachers and thus be given a Study Hall/Preparation period in addition to the subjects they teach.
 - Elementary teachers in a self-contained setting should be listed as only self-contained (1st grade, 2nd grade, etc.) and no study hall/preparation period should be added.
- Preschool teachers should be listed as 23002 Pre-kindergarten.
 - You should not multi-grade list preschool teachers as teaching in a combination room or junior kindergarten.
 - There are no certification requirements for pre-school teachers and the system will not generate a plan of intent.
- Assistant Superintendents and Assistant Principals must be certified, or a plan of intent will be triggered.
 - If the position evaluates the effectiveness of teachers, then they need to be coded as assistant principal and work toward licensure.

- If the position assigns suspensions for disciplinary reasons, then you can list them under Classified as "Other District Administrator".
- Holders of a CEO permit may not complete teacher evaluations or be designated as a superintendent, assistant superintendent, principal, or assistant principal.
- If the position isn't a librarian but work with other teachers only, you can code them as Library/Media Support Staff under "Classified". If the position isn't a librarian but work with students, then code them as a paraprofessional with the job duty of "Provide Instructional Support in a Library or Media Center".
- Quarters or Trimesters: The quarters or trimesters will be pre-filled. Click on the button if you need to remove a quarter or trimester (i.e., teaches a course the first and second semester).
 - Quarters or Trimesters will be displayed based on what your school uses. The academic term must be selected to coincide with each assignment. Examples include semester, trimester, or quarter.
- If a staff member has more than one assignment, count the staff member in terms of the assignments. An assignment could be a school, a position, or a teacher category. For example:
 - If a school staff member worked three-quarters of the time as a teacher, and one-quarter of the time as a librarian, he or she would be counted as a 0.75 teacher FTE and a 0.25 librarian FTE.
 - If a teacher teaches both prekindergarten and kindergarten, his/her total FTE should be proportionally divided between those two teacher categories (PKTCH and KGTC). Similarly, if a school or an LEA offers both prekindergarten and kindergarten, but does not distinguish between PK and KG teachers, the total FTE for these two categories should be divided proportionally between them.

In short, the individual Assignment record is defined by the designation of:

- attendance center,
- position, and
- assignment.

Data Entry Hint: Each of the above selections will filter the following selection options based on the previous designation. As such, when a high school attendance center is selected then only high school positions will remain as options. When the district selects the appropriate position – such as High School Principal – then only the assignments associated to the designated position will remain as options. The following screen shot illustrates this feature.

The last component of the general Assignment record details is the Assignment FTE. FTE (full-time equivalent) is the required measurement for reporting the number of hours required to perform duties. Conversely, the Assignment FTE represents the percentage of the workload designated for each the specific assignment relative to the total (workload, day, or year). Below, table 2 provides a table of estimated FTE allocated based on the period and term structures.

Table 2: Estimated School Schedule FTE by Number of Period and Term

Note(s): In the SY2023-24 assignment data, educators with 12 or less assignment records were in the 95th percentile, indicating a representative sample.

Here are several general considerations for determining and reporting Assignment FTE.

- FTE counts for instructional staff must be reported to the nearest hundredth, with an EXPLICIT decimal (ex.: 0.85).
 - If an instructional position is filled by four Educators at the same amount of time, then each Educator Assignment record would be 0.25 FTE.
- Educators may be reported at multiple attendance centers during the school year.
 - A district may choose to:
 - Associate the full FTE at the school where the teacher spent most of their time, or
 - Divide the FTE across the schools where they spent their time based on the proportion of time spent at each school for shared employees.
- An Educator’s total FTE may exceed 1.00 at the state level.
 - If the FTE is defined as
 - A 40-hour week,
 - Provides 40 hours at one attendance center per week, and
 - Provides an additional 4 instructional hours through virtual instruction,
 - Then the total FTE would be 1.10 (44 hours/40 hours) and would count as
 - 1.00 FTE at the first school and
 - 0.10 FTE at the virtual school.

Once the above information is entered on the Assignment record – and the record is saved – the calculated Assignment status and salary will populate.

Assignment Provisioning - Check all appropriate

The next section of the Educator Assignment record provides several Assignment provisioning indicator checkboxes that allow the district to define each Assignment by the specifics of the locations of where the instruction is being provided from and received at. The following details reflect the optional Assignment provisioning data entry.

- **Digital Curriculum:** An assignment provided via locally implemented virtual instruction.
 - Do not include SD Center for Virtual Instruction providers.
 - Should be checked when a district offers a class through a locally purchased and implemented online curriculum.
 - Ex.: Edgenuity, Time4Learning, etc.
 - The district is required to identify the teacher of record, a state certified teacher in the content area who is providing instructional communications, main.
- **Electronic Distance Instruction:** An assignment provided via non-locally implemented virtual instruction.
 - This should be checked when the teacher is providing the instruction to a class located in another district or attendance center.
 - If this is checked then you will need to identify the district and attendance center which is receiving instruction via electronic distance education.
 - Includes approved SD Center for Virtual Instruction providers.

- **Employed by this district for Title or Special Education Federal Programs provided to non-public school students.**
 - Do not include Shared Staff:
 - This box should be checked when a district sends one of their paid employees to another district/school to provide an assignment.
 - Examples
 - An example is when a district employs a teacher, paid with Title funds, to provide the related services at a non-public district.
 - Non-public district enrolled students attend the public district to receive the related program services.
 - Some public school uses their Title I funds to pay for transportation instead of the teacher carrying out the assignment at the nonpublic school.
 - Based on Title I, public districts are required to report the Educator information for those individuals' providing services to non-public districts students.

Assignment Dual Certifications - Additional Details

The following checkboxes allow the district to report dual certification assignments and verify if the Educator is properly endorsed for both the core content and support program:

- Special Education Teacher
 - Assignment is also provided to Special Education students and requires the teacher to be certified in the content area and special education.
 - Assignment Code is the content assignment.
 - Use only if the Educator is providing case management services to the special education students in addition to teaching the core content subject.
- Blind/Visually Impaired
 - Blind/Visually Impaired Educator who is also the teacher of record for the assignment core content and awards the grade.
- Deaf/Hearing Impaired
 - Deaf/Hearing Impaired Educator who is also the teacher of record for the assignment core content and awards the grade.
- English as a Second Language (EL)
 - English Learner Educator who is also the teacher of record for the assignment core content and awards the grade.

Below illustrates the functionality of the dual certifications and provides the qualification status for each selected additional detail based on the Educator certifications and endorsements.

Paraprofessionals

The purpose of the Paraprofessional reporting is to provide a collection tool for district submission of Paraprofessional personnel information required for federal reporting. A Paraprofessional, also known as an aide, provides instructional support and assists teachers in the delivery of instructional and related services to students. The paraprofessional works under the supervision of the teacher and helps to support the lesson plan of the licensed teacher.

Paraprofessional personnel data is required from the following district types:

- 10 - Public School Districts
- 40 - Cooperatives/Multi-Districts
- 80 - State Special Schools

Definitions

Based on federal reporting (EDFacts) requirements, include all Paraprofessionals employed or contracted to provide special education and related services to children with disabilities (IDEA) ages 3 through 21 regardless of funding source (*i.e.*, Part B, State, and local), including personnel employed by private agencies.

FS059: Paraprofessionals/Instructional Aides (PARA)

FS112 - Special Education Paraprofessionals File Specifications

Staff members assigned to assist a teacher with routine activities associated with teaching, *i.e.*, activities requiring minor decisions regarding students, such as monitoring, conducting rote exercises, operating equipment and clerking.

34 CFR 200.58: <https://www.govinfo.gov/link/uscode/20/6319>

This file specification is used to collect the full-time equivalency (FTE) of special education paraprofessionals who are employed or contracted to provide special education and related services to children with disabilities (IDEA) ages 3 through 21. This file specification reflects the requirements of the Individuals with Disabilities Education Act (IDEA '04). Other files collect data on special education teachers (FS070) and related services personnel (FS099).

In South Dakota all Paraprofessionals working in a program supported with Title I Funds – or any portion of their salary supported by Title I Funds – are required to meet one of the following requirements:

- complete 48 credit hours, or
- pass the Praxis ParaPro Assessment (<https://www.ets.org/parapro/test-takers/about.html>), or
- obtain an associate degree.

Further guidance related to Paraprofessionals is provided by [Jordan Varilek](#) (605-773-6509) of the Division of Instruction and Learning – Office of Title. Certification administrative rules specific to Paraprofessionals were repealed in September of 2018. SD DOE no longer issues paraprofessional certificates; the school district will need to have documentation on file showing the requirements have been met.

This information was included in Mary Stadick Smith announcement in the 9/24/18 Secretary's notice to schools: Paraprofessional rules addressed. At its meeting last week, the South Dakota Board of Education Standards took action to eliminate rules that would have required paraprofessionals to earn a permit. While the requirements in Administrative Rule have been eliminated, Title I schools that have paraprofessionals will still need to meet certain requirements that will be monitored through the Title I process. These requirements will be similar to what was required under previous federal “highly qualified” rules.

The following information in table X provides guidance detailing Paraprofessional qualification requirements based on programmatic funding sources.

Table X: Paraprofessional Qualification Requirements

Records

The Paraprofessional records section provides guidance on navigating and entering required personnel information.

Examples of the type of support provided by a Paraprofessional includes:

- Provide one-on-one tutoring if tutoring is scheduled at a time when a student would not otherwise receive instruction from a teacher,
- Assist with classroom management, such as by organizing instructional materials,
- Provide instructional assistance in a computer laboratory,
- Conduct parental involvement activities,
- Provide instructional support in a library or media center,
- Act as a translator; or
- Provide instructional support services under the supervision of a highly qualified teacher.

The screenshot shows the 'Manage Staff' interface for Paraprofessionals. At the top, there are navigation tabs for 'Reports', 'Uploads', 'Staff Management', and 'District Information'. The main content area includes a search bar, a dropdown for 'District has paraprofessionals' set to 'Yes', and a 'Total FTE: 0' summary. Below this is a 'Paraprofessionals' section with a 'Paraprofessional List' table. The table has columns for First Name, Last Name, Masked SSN, District, Total Qualified, Total Not Qualified, District Level FTE, Created, Created by, and Attendance Center Detail Count. A single record is shown for 'Sleeping BeautyTEST' with a masked SSN of 'XXX-XX-1111' and a district of 'K12 Test District'. The table also includes pagination controls showing 'Showing results 1 - 1 of 1'.

Bus Drivers

The purpose of the Bus Driver collection is to gather required information regarding school bus driver licensure and training. Each school bus driver must maintain proper active licensure and complete the appropriate training at least once every five years. This collection allows districts to monitor the required trainings of their bus drivers and is available to all districts.

All districts are required to indicate whether the district employs or contracts Bus Drivers or not. Bus Driver reporting is required for following district types if Bus Drivers are employed or contracted:

- 10 - Public School Districts
- 20 - Non-Public (Private) Schools
- 30 - Tribal/Bureau of Indian Education (BIE)
- 40 - Cooperatives/Multi-Districts
- 80 - State Special Schools
- 90 - Alternative Programs

The following are several general reporting considerations. Historically, school bus contracting companies do not report directly to DOE and contractors are asked to work cooperatively with the school system that contracts their services to provide the drivers' names and social security numbers to the school. Then, the school should include the contracted bus driver's Bus Driver record.

NOTE: You must change the Bus Driver Training from a No to Yes. The system will not let you sign off on the Assurance Statement until all bus drivers have a Yes for training, or department staff updated the system to reflect this change.

Definitions

In 2001, the South Dakota Legislature enacted [SDCL § 32-12A-26](#), which requires school districts to be notified when the commercial drivers' license of a school bus driver is suspended or revoked by the state Department of Public Safety.

[SDCL § 32-12A-26](#) Suspension of license bearing school bus endorsement--Notification of school district.

If a person's commercial driver license bearing a school bus endorsement is suspended or revoked pursuant to this chapter, the Department of Public Safety shall, upon the suspension or revocation, notify the Department of Education. The Department of Education shall notify the school district or school bus contracting company for which the person is employed of the suspension or revocation. The notification may be done by first class mail.

In order to accommodate this notification, [SDCL § 32-12A-27](#) requires schools to report the names and social security numbers of bus drivers to DOE. Every Sunday this information will be matched against the driver licensing database.

[SDCL § 32-12A-27](#) Names and social security numbers of school bus drivers to be reported to Department.

Each school district and school bus contracting company shall report to the Department of Education, in a manner prescribed by the secretary, the names and social security numbers of all individuals it employs as bus drivers. The school district and school bus contracting company shall inform the department of any changes to the list within seven days after they occur.

[SDCL § 13-29-21](#) School Bus Driver Training.

Each school bus driver shall receive appropriate training at least once every five years, and the school bus driver shall pay any fees charged for the training. The training shall include classroom instruction in first aid, bus safety, and the management of passengers, and also behind-the-wheel training to enable the safe and efficient operation of the bus.

Criminal Background Check Requirement for New Bus Drivers

Schools must complete a criminal background check on newly hired school bus drivers, pursuant to [SDCL § 13-10-12](#). [SDCL § 32-12A-26](#) requires schools to report bus driver information to the state in order to determine the status of the driver's CDL. It does not take the place of the criminal background check requirement on new hires.

[SDCL § 13-10-12](#) Criminal background investigation--Prospective employees, technical college instructors, and student teachers--Temporary employment pending results.

Each person over eighteen years of age hired by a school district shall submit to a criminal background investigation, by means of fingerprint checks by the Division of Criminal Investigation and the Federal Bureau of Investigation. The school district shall submit completed fingerprint cards to the Division of Criminal Investigation before the prospective new employee enters into service. If no disqualifying record is identified at the state level, the fingerprints shall be forwarded by the Division of Criminal Investigation to the Federal Bureau of Investigation for a national criminal history record check. Any person whose employment is subject to the requirements of this section may enter into service on a temporary basis pending receipt of results of the criminal background investigation. The employing school district may, without liability, withdraw its offer of employment or terminate the temporary employment without notice if the report reveals a disqualifying record. The employing school district may pay any fees charged for the cost of fingerprinting or the criminal background investigation for any person whose employment is subject to the requirements of this section. Any person hired to officiate, judge, adjudicate, or referee a public event sponsored by a school district is not required to submit to a criminal background investigation as required in this section. In addition, any instructor employed by a technical college is required to submit to a criminal background investigation as required in this section at the time of initial employment.

The criminal investigation required by this section with respect to a student teacher completing requirements for teacher certification shall be conducted by the school district. A criminal background

investigation, of a student teacher, conducted by a school district may be provided to any other school in which the student engages in student teaching. The school district conducting the criminal background investigation of a student teacher may rely upon the results of that investigation for employment of that person as an employee of the district.

[SDCL § 13-10-12.1](#) Single investigation required of employee of multiple school districts--Condition-- Procedure for transfer of report.

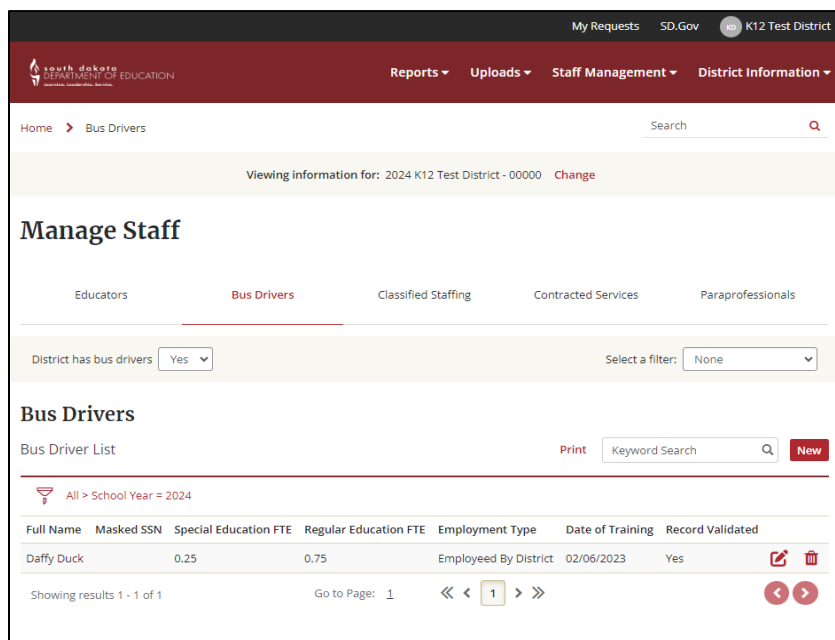

Any school district employee who is employed by more than one school district is only required to obtain one criminal background investigation, if the background investigation was conducted no more than five years before the person is first employed by the additional school district. The results of the background investigation shall be transferred to any additional school district from the initial school district that obtained the criminal background investigation if the additional school district or the school district employee requests in writing to the initial school district that the results be transferred and the school district employee who was the subject of the criminal background investigation signs a written release authorizing the transfer.

Reminder, the school system is required to report any changes to the bus driver list within seven days after they occur. If there are changes after October 15th, please contact Carol Uecker at 773-4771 to report any changes to your bus driver list that occur as a result of resignations or new hires.

Adding and Modifying

If the district employs Bus Drivers, then the following list reflects the required fields for modifying or adding new Bus Driver records.

Bus Driver Record

The following Bus Driver record fields are required for the appropriate district types and local staffing.

- Social Security Number (SSN)*
- First Name*
- Middle Name
- Last Name*
- Employment Type*
- Special Education FTE*
 - Personnel who provide specialized pupil transportation as per a student's individual education plan (IEP) indicated as transportation as a related service.
- Regular Education FTE*
 - Personnel actually driving the bus (the ones holding the CDL license) transporting students for their school system (not bus driver monitors)
- Has this person received training for Bus Drivers in the past 5 years?*
- Date of Training*
 - Must be within 5 years of entry date
- Record Validated

The full-time equivalency (FTE) should be broken out between Special Education and Regular Education, unless it is a substitute driver.

*If the student has transportation on their IEP, then the funding is associated to Special Education and can be divided up according.

Below records provide an overview of the Bus Driver data entry requirements.

Records

The Classified Staff records section provides guidance on navigating and entering required personnel information.

Generally, Classified Staff record entry should be completed with the following criteria considerations:

- report total FTE Counts for each appropriate staff category to the nearest hundredth,
- include part-time staff in terms of full-time equivalency (ex.: 0.50 FTE is half time), and
- include a full-time employee having more than one assignment should be counted in terms of full-time equivalency for each assignment (ex.: 1 personnel with 6 hours per day as a bus mechanic and 2 hours per day as a custodian = 0.75 FTE for bus mechanic position and 0.25 FTE custodian position).

Landing Page

The screenshot shows the 'Classified Staff' landing page. At the top, there are navigation tabs: 'Reports', 'Uploads', 'Staff Management', and 'District Information'. Below these are sub-tabs: 'Educators', 'Bus Drivers', 'Classified Staffing' (selected), 'Contracted Services', and 'Paraprofessionals'. A dropdown menu indicates 'District has classified staff' is set to 'Yes'. The main heading is 'Classified Staff'. A note explains that if the district continues to employ classified staff, it should select 'yes'. Below this is a 'Classified Staff List' with a 'Print' button and a 'Keyword Search' field. A note provides instructions on how information from the previous year is pulled into the current year's database and lists actions like 'Add new Positions Codes', 'Edit previous Position Codes', and 'Delete Position Codes'. At the bottom, there is a table for 'All > School Year = 2024'.

Note(s):

Contracted Staff

The purpose of the Contracted Services reporting is to provide a collection tool for districts and service providers to reporting of personnel that are a Third-Party Contractors and providing special education or related services that are considered part of the standard district operations. Contracted Staff reporting is required for the available to the following district types:

- 10 - Public School Districts
- 40 - Cooperatives/Multi-Districts
- 90 - Alternative Programs

As a reminder, approved Virtual School Providers and Cooperatives/Multi-Districts are required to report personnel information specific to staff and assignments on the Personnel Record Form (PRF). Districts are not required to report assignments provided by:

- 95 - Approved Virtual School Providers ([SD Center for Virtual Education](#)) which are
 - Black Hills Online Learning Community,
 - DIAL,
 - NSU Center for eLearning, and
 - High Plains Alternative School.

It is still important to check the accuracy of the data. This can be done by going to the Contracted Services screen and clicking on the Services Provided by Coop or Virtual District to review the services provided by these schools.

The Personnel Record Form (PRF) allows virtual school providers and cooperatives to encode staff assignments for contracted services to districts. Districts are then able to view the staffing information added by these providers and review to ensure the information is accurate. The system does not have the ability to identify whether this information has been updated for the current year or whether it was rolled forward from the previous school year.

Definitions

Contracted Staff by Assignment Code

Remember, student location matters. Only report those individuals contracted into the district to provide those services. For example, if students are located at Children's Care Hospital and Advance, then the district is only paying for the services, then the district is not paying the employee salary directly. Cases as described above do not require PRF reporting.

The approved Contracted Staff assignment codes include those identified in table 3.

Table 3: Approved Contracted Staff Assignments

Assignment Code	Assignment Description
25000	Ages 3-5 Special Education
25002	Birth through Grade Three Special Education
25001	Birth-Age 2 Special Education
25106	KG-12 Adapted Physical Education
25100	KG-12 Special Education
40501	Psychological Examiner
40401	Regular Ed School Psychologist
40402	Special Ed School Psychologist
40104	Special Education Counselor
40601	Special Education Director
40106	Special Education Student Advisor

Note(s):

If multiple staff are contracted for one assignment, they must be encoded separately. Report the Contracted Staff by the assignment by identifying the percentage of FTE that works with which student age groups. For example, if the individual spends 25% of their time with students age 3 to 5 and 50% with students age 6 to 21, then you would enter 0.25 FTE (students age 3 to 5) and 0.50 FTE (students age 6 to 21).

At the beginning of the year, these percentages may not be strictly defined. Enter the estimated percentages at the fall collection and return during the end of year collection to modify as necessary.

Note(s):

Additionally, there are several requirements related to instructional assignments provided via virtual instruction.

[SDCL § 13-33-21](#) Certificate authorizing distance learning provider to provide courses required.

No distance learning provider may provide courses through distance learning to any student in an accredited elementary or secondary school in this state unless the distance learning provider has a

certificate issued by the secretary of the Department of Education authorizing the distance learning provider to provide the courses.

[SDCL § 13-33-29](#) **Granting of credit for distance learning courses not offered by South Dakota Virtual School prohibited--Exceptions.**

No school district may grant credit for any course successfully completed through distance learning as defined in SDCL § 13-33-20 unless the course is offered through the South Dakota Virtual School.

However, a school district may grant credit for a distance learning course offered through an entity other than the South Dakota Virtual School if any of the following conditions apply:

- The course is provided through an agreement among accredited school districts;
- The course is a university or postsecondary technical institute course taken by a student who is dually enrolled pursuant to the provisions of [SDCL § 13-28-37](#);
- The course was previously taken through an accredited high school or other accredited provider by a student who subsequently transferred into the school district; or
- The course is not available through the South Dakota Virtual School and is pre-approved by the Secretary of Education.

Records

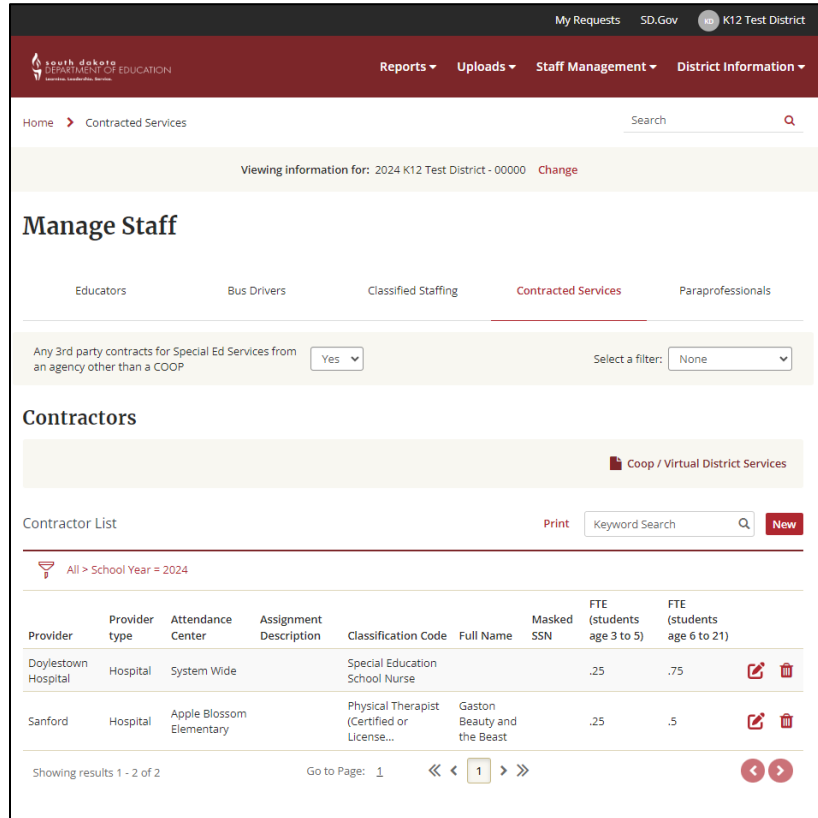

The Contracted Staff records section provides guidance on navigating and entering required personnel information.

Generally, Contracted Staff records enter should be completed with the following criteria considerations.

- Include staff employed by another entity (private or hospital) that is Third Party Contracted to provide work that can be considered part of the district's special education and/or related services.
 - Ex.: Staff that work within the district but are employees of the entity with which the district contracts and
 - Hint: The district does not pay retirement or other benefits,
- Do not include:
 - Employees of contractors who provide a non-regular service; these are staff furnished by the contractor, on- or off-site, to provide the service.
 - EX.: Staff such as carpenters, electricians, etc. working for a firm hired to refurbish a school building.
 - Individuals who contract directly with a coop or virtual school provider.
 - Cases where students are receiving services outside the district and tuition is paid, staff would not need to be reported.

Overall, the distinction between whether or not a Contracted Staff is reported is based on whether the special education services are part of the district’s regular operation or if it is a non-regular service.

Section IV – Turnover and Vacancy Records

The purpose of this new way of collecting Turnover and Vacancy data is to provide a collection tool for districts to identify positions that had vacancies between the following school year and the current school year. It is also used to collect data regarding positions that are still open at the start of the new school year.

NOTE: The following details are still from the former system as the new system does not have this section functioning currently. Reach out to DOE with any specific questions. (as of 04/2024)

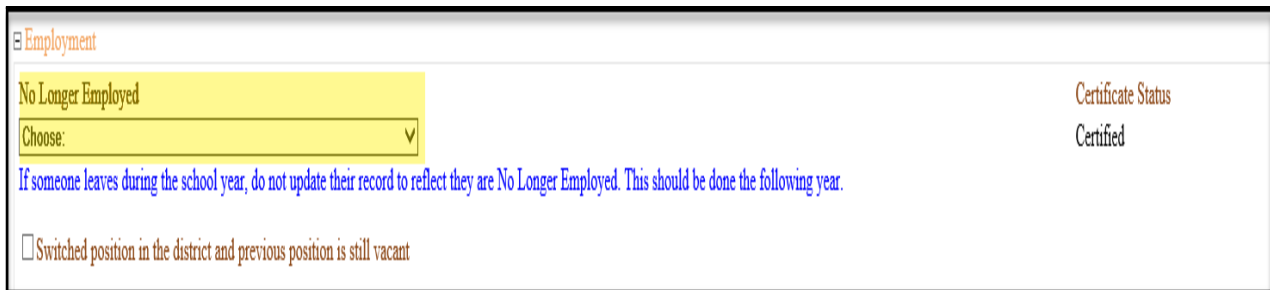

Vacancy Report

No Longer Employed Staff

For all staff employed during the 2022-2023 school year but are “No Longer Employed” for the 2023-2024 school year you should select the appropriate reason.

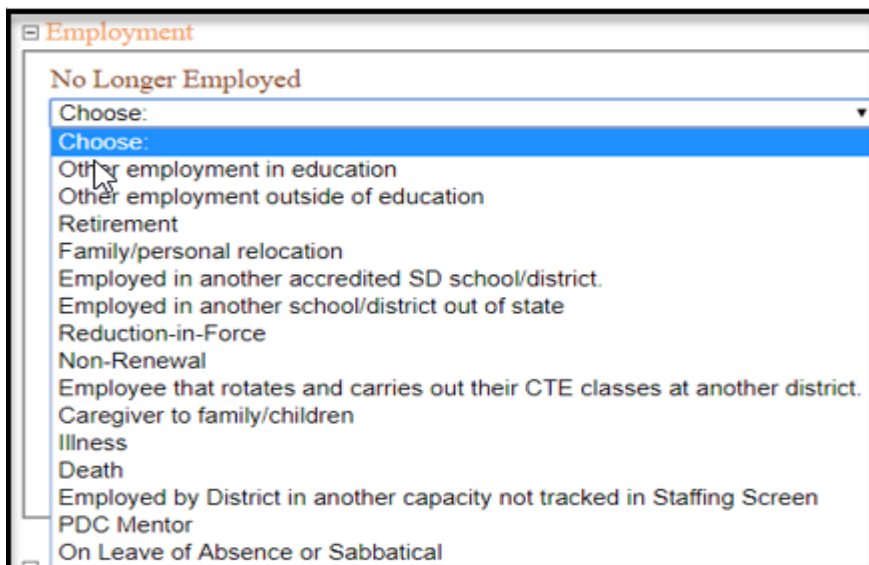

NOTE: If someone leaves during the school year, do not update their record to reflect they are No Longer Employed. This should be done the following year.

It is recommended you have a list of all employees from the previous year who are No Longer Employed and complete them at one time. You can use the No Longer Employed Data Collection Form to help gather the needed data. This is located on the PRF website at <https://doe.sd.gov/prf/documents/STAFF-NotEmpl.doc>.

Yes, it was filled (this includes rotational courses). For employees that rotate and carry out their CTE classes at another district every other school year, do not mark them as vacant.

No, it was left vacant.

If you select “No, it was left vacant”, then you will need to select the decision that was made because of the vacant position.

After completing this data field, indicate the personnel record form has been completely updated and Click on the Save Button. There is no need to update any other fields unless the employee has 0 years of experience. In this case, the system will require you to enter years of experience before it will allow you to save.

By doing this, you create a record in the “Vacancy” menu. You can access this menu by clicking on the Vacancy Screen.

Vacancy				
Vacancy information must be supplied for all staff that were reported the previous year but are no longer employed this year and the position was not filled the first day of school. Please edit any entries below to supply this information. All entries must be marked as completed before the assurance statement can be signed.

Staff who change positions within the district:

If you have a staff person who continues to be an employee in the district, however has changed jobs, you will need to check the box “Switched position in the district and previous position is still vacant”.

This box should be checked if the employee received a promotion or accepts a different position in the district. An example is if a teacher was a self-contained 5th grade teacher and becomes a Special Education teacher.

Section V – Collection Close and Sign-Off

The purpose of this section is to provide an overview of the PK-12 staffing information collection closure and sign off process.

There are two components of the collection closure and sign off process:

- Submitting Plans of Intent and
- Verifying the Assurance Statement.

The following guidance will detail collection closure and sign off process components.

Plan of Intent

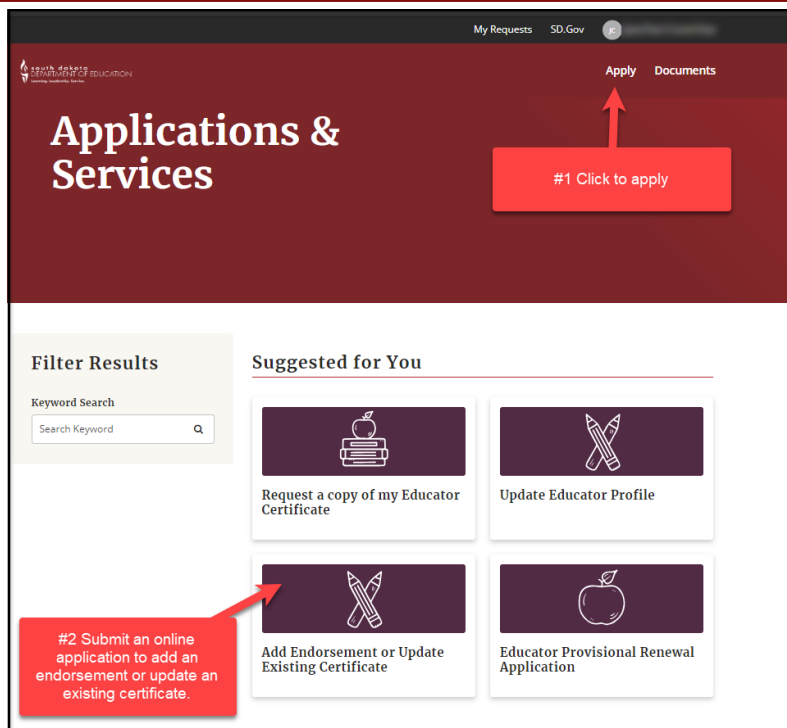

As per Administrative Rule 24:43:02:08, any district employing teachers or administrators who are serving outside of their current certification shall have on file with the Department of Education a plan of intent stating how the district intends to ensure that all teachers and administrators are serving on a valid certificate in their certified areas. The Plan of Intent must be fulfilled in one calendar year.

Non-Authorized Plan-of-Intent (POI): Any employees serving outside of their current certification will be on a plan-of-intent stating how the district intends to ensure they gain licensure. The qualification portion of the plan-of-intent never gave districts and educators the various options to gain licensure along with what each of the requirements were, so it was redesigned midyear. Remember if your staff have taken and passed the Praxis test, your staff will need to fill out the application to add an endorsement and allow time for the application to be processed. The system will then update the status of the Plan of Intent to “Completed”.

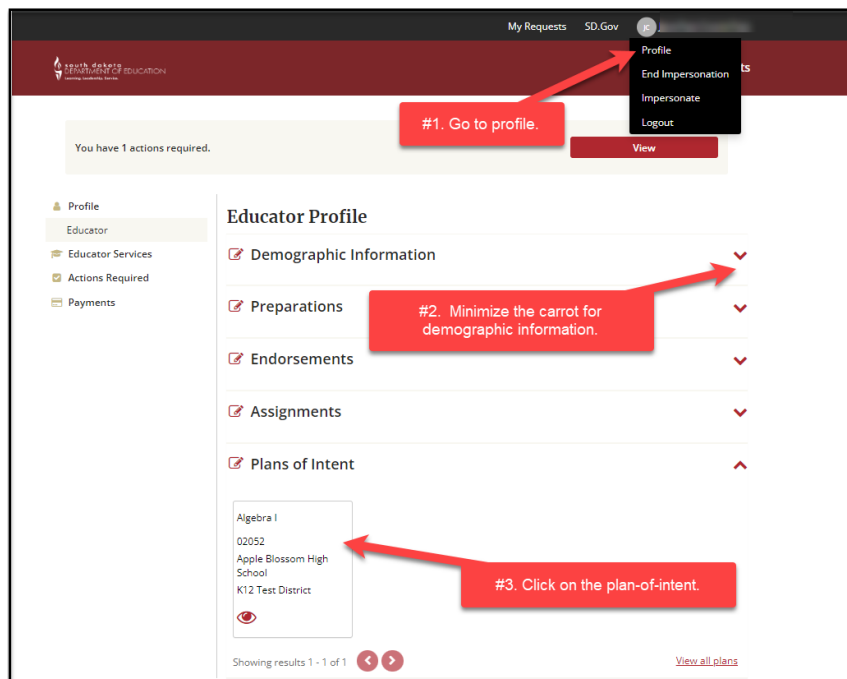

Corrective Action Plans (CAP): For those corrective action plans where the person was “pursuing certification”, the status column will reflect that the CAP has been “completed” once the person obtains their license. If that certification isn’t necessarily sufficient for them to be deemed state certified to teach each assignment, then you’ll need to fill out a plan(s)-of-intent that get generated.

Once staff complete a plan of intent, the system will deem them as completing the plan-of-intent.

NOTE: Previously when someone would take and pass the state-designated test an endorsement would automatically be added to their certificate. An endorsement will no longer be automatically added to a certificate, but instead must be requested by the applicant accessing the educator portal at <https://doe.sd.gov/certification/>.

When completing a Plan of Intent (POI), it is important the educator who is requiring a plan be involved in the decision-making process. When the plan-of-intent is submitted by the district, it becomes part of the teacher's profile on the certification side of the system notifying them how the district intends to ensure they will gain licensure.

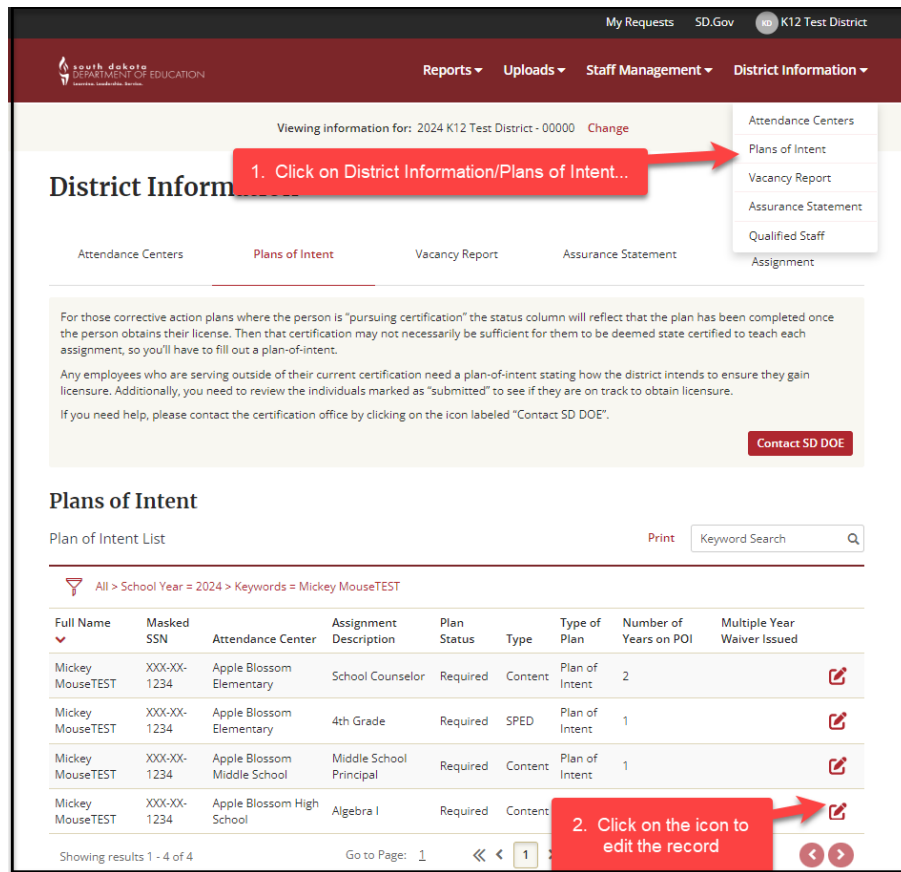

STEP 1: The Educator screen must be updated before you complete the Plan of Intent.

The information you enter in the PRF screen determines who will need to complete a plan of intent. The system can determine the following:

- Check for state certification and generate a corrective action plan if they don't hold a valid license or plan of intent if they need to gain an endorsement.
- Identify positions which should NOT prompt for a plan of intent
- Identify who needs to complete a plan of intent for dual licensure areas such as Special Education, English as a Second Language (ESL), Deaf/Hearing Impaired and Blind/Visually Impaired

STEP 2: Click on the District Information/Plans of Intent:

You will then see the list of individuals who will need to complete a Plan of Intent for your district.

Assignment Description

Plan Status

- Required
 - Set when plan is initially created, for corrective action or plan of intent
- Not Met
 - When a plan of intent gets created, if the same educator had the plan of intent in the previous school year for the same assignment, then that previous year plan of intent gets marked as Not Met
- Submitted
 - Whenever a plan is updated its status is set to submitted if:
 - An endorsement is filled in OR
 - A preparation is filled in OR
 - It was related to a temporary assignment OR
 - It was related to retirement OR
 - A waiver has been submitted.
- Complete
 - When a certificate or endorsement is added for an educator, any corrective action plans in a submitted or required state for that educator are marked as complete.
 - Separately, if they're still not qualified for any of their assignments, a plan of intent record is also created with a required status.
- Required – Waiver Requested
 - When a user submits the Plan of Intent Waiver form, this status is applied to the related plan of intent.

Type – Identifies Plans of Intent for dual licensure such as Special Education, English as a Second Language, Deaf/Hearing Impaired, or Blind/Visually Impaired

Type of Plan

- Plan of intent (POI) - identifies whether it is someone that holds an active certificate but is not authorized for one or more current assignments.
- Corrective action plan (CAP) – identified person who does not hold an active certificate.

Number of Years on POI – calculate the number of years this individual has been on a plan-of-intent.

Multiple Year Waiver Issued – If there is a required in this box it means the individual has been on a Plan of Intent for more than two years and a waiver through the Department of Education must be submitted. For more information about the waiver process, go to

Step 1: Checkbox Options

The checkboxes should only be used in very special circumstance and the staff person will still be considered on a Plan of Intent. When a district selects one of the checkboxes, a manual review is completed by the department.

- **Temporary Assignment (optional)** – TIP: to be used only when a staff person has resigned, and the position is temporarily filled. The reason the individual was hired should be “will not be employed following the end of the school year”.
- **Retirement (optional)**

Step 2: Select an Endorsement, Preparation and then click on save to generate the qualifications.

When you click on the dropdown box you will see a list of endorsements that will allow someone to be considered authorized to teach a subject area or act in an administrative capacity.

Once you select an endorsement, the remaining options are based on the specific endorsement.

Select the preparation. The preparations in the dropdown box are based on the preparation program completed by the staff person. The preparation is listed on the certificate and Educator411. All qualifications that generate to complete the POI will be based on this preparation.

Select the qualification(s) the staff person will complete to be authorized for the assignment and be sure to save.

- Requirements – Indicates it must be completed.
- Options – Indicates a list of choices. One of the options must be completed.

Add Comments (optional).

Be sure to Click Submit! You will return to the Plan of Intent Listing. Once you exit out and then return to the POI List the “Plan Status” will say submitted.

Example #4: For those long-term sub plans, you’ll need to indicate if they are on a waiver or not. When you open the POI, you will see a screen that includes the following information:

Step 1: Checkbox Options

The temporary checkboxes should be used in this circumstance and the long-term substitute will still be considered on a plan. When a district selects this checkbox, a manual review is completed by the Accreditation department.

Select temporary assignment

Step 2: Select the reason individual was hired:

The reason Individual was hired dropdown should be:

- “Long-Term Substitute with waiver” if it is an individual without a valid or inactive certificate acting as a teacher of record for more than 45 cumulative school days in a vacant teaching position while a school district pursues a contract for a teacher
- “Long-Term Substitute without waiver” if
 - Substitute hired to replace a teacher on maternity leave/FMLA for more than 45 days.
 - Substitute with a valid or inactive teaching license hired to replace a teacher for more than 45 days.

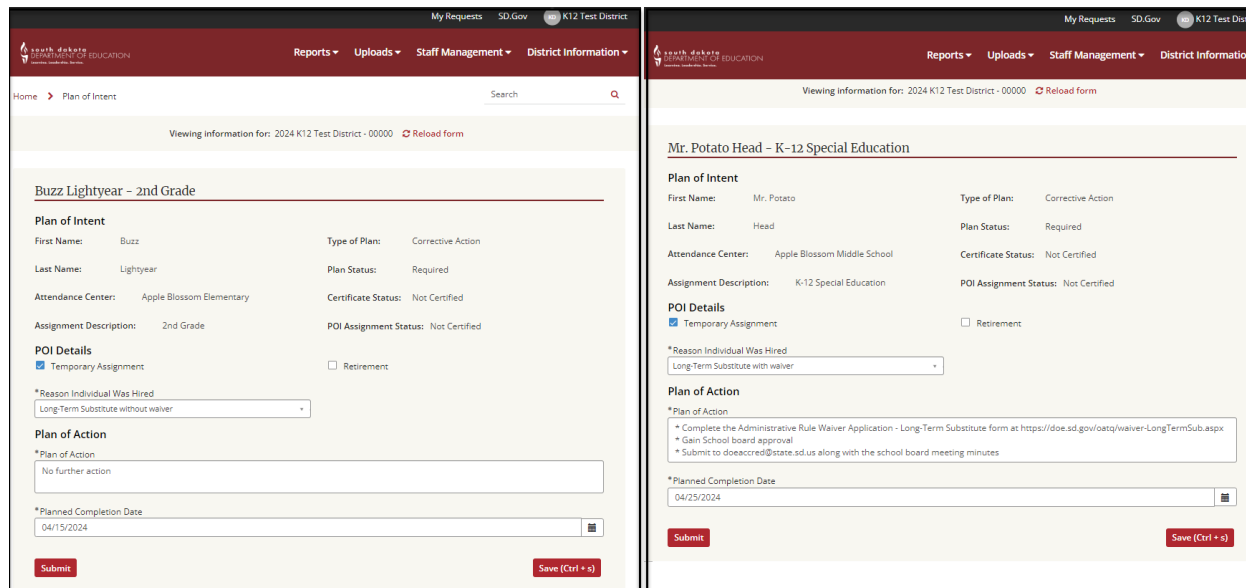

Plan-of-action:

- If with waiver, state that you plan to complete the Administrative Rule Waiver Application: Long-Term Substitute form at <https://doe.sd.gov/oatq/documents/Waiver-LTS-22.pdf>, gain school board approval, and submit to doeaccred@state.sd.us along with the school board meeting minutes.
- If no waiver, state that there is no further action required.

Information about endorsement requirements can be found on [Educator411](#). Other questions related directly to certification can be directed to the certification office at 605-773-3134.

The PRF system allows districts to enter non-certified individuals into the PRF database and trigger a Corrective Action Plan. These individuals must be state certified. Refer to [Educator Certification Flexibility Options](#) for information about alternative certification and educator permits for options that allow districts flexibility.

State Statutes regarding certified staff:

13-42-1.2. Certificate required for teachers, administrators, and other educational professionals in schools.

No person may draw wages as a teacher, administrator, or other educational professional in any public school or other accredited school who does not have a valid certificate.

13-43-5. Certificate required before contract signed—Exception when academic training being completed.

A teacher may sign a contract only upon exhibition of a valid certificate to teach the courses and grades in the school contemplated under the contract and to qualify the school for accreditation. A person is eligible to sign a contract if the person is completing academic training which would qualify the person for issuance or renewal of a teaching certificate. However, if a certificate is not issued prior to the time

for performance of the contract, the contract is thereafter void. Prior to making payment under the contract, the validity of the certificate shall be verified through the Department of Education's public online certification database.

Assurance Statement

The Assurance Statement is the final component of the Personnel Record Form (PRF) PK-12 staffing information reporting collection. This final component contains the following two distinct functions:

- Data Validation Checks and
- Certification Statements Sign Off.

All districts are required to complete the Assurance Statement; however, the validation checks and certification statements will vary depending on the district type.

Validation Checks

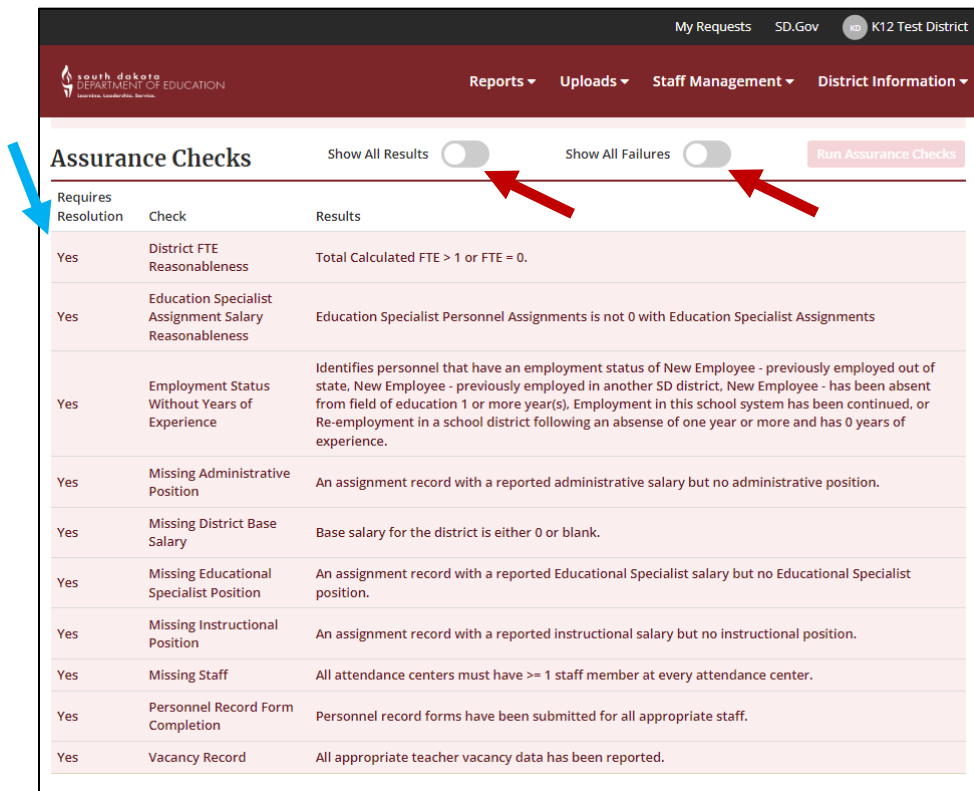

The following guidance is provided to support the navigation of the data validation check tools.

Personnel Record Form (PRF) validation checks are a bundle of business rules and procedures that are run against each reported district dataset to identify data quality issues prior to submission. These checks can be implemented at any time during the collection window.

Each data validation check is developed to provide the district with these three pieces of information:

- Does a failed check require resolution,
- Which checks failed, and
- How is the error corrected?

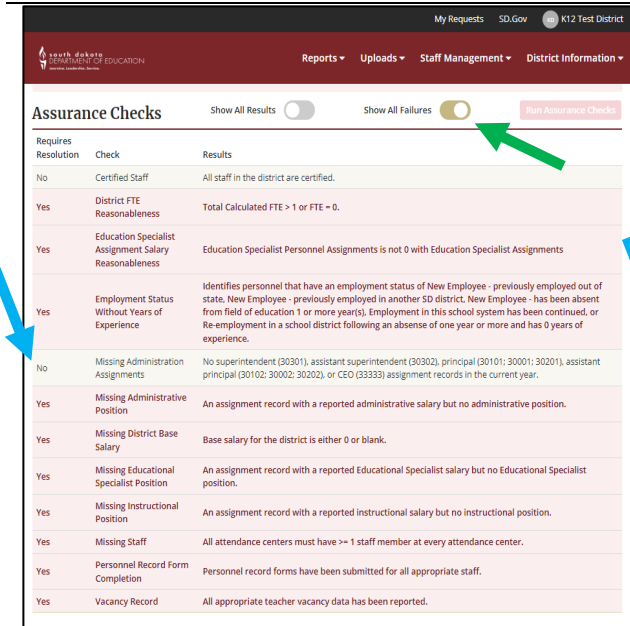

The below Assurance Statement reflects the default state of the validation checks, which is to filter the list to only the failed checks that require resolution.

Note(s):

Data Entry Hint: The district can change the validation check filters such that any set of validation checks are displayed. Turn the *Show All Failures* filter on and the list will update to also show checks that failed, but do not require resolution. Finally, Turn the *Show All Results* filter on and the list will update to include all checks regardless of the pass/fail state.

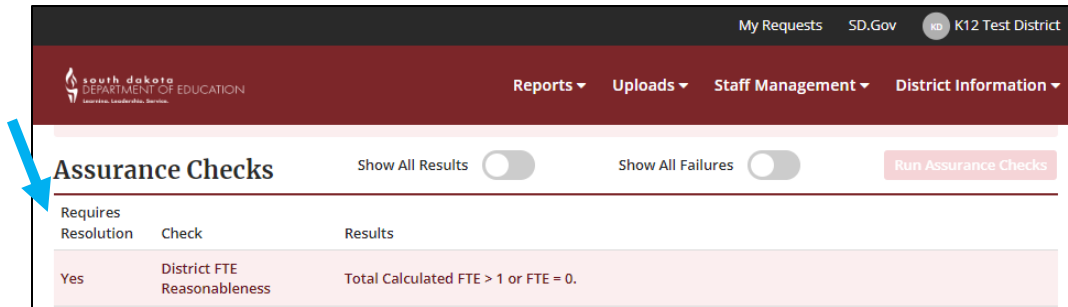

In summary, failed checks that require resolution are data errors and failed checks that do not require resolution are statistical outliers. Best practice is to correct the issues that require resolution and review the others for accuracy.

For a complete list of the data validation checks and descriptions, see [Appendix B](#).

Please contact DOEPRF@state.sd.us with questions or concerns related to the functioning of the validation checks.

Requires Resolution

Data validation checks that fail and require resolution represent data entry errors and modifying the identified records will be required to complete and submit the PRF PK-12 Educator information collection.

Does not Require Resolution

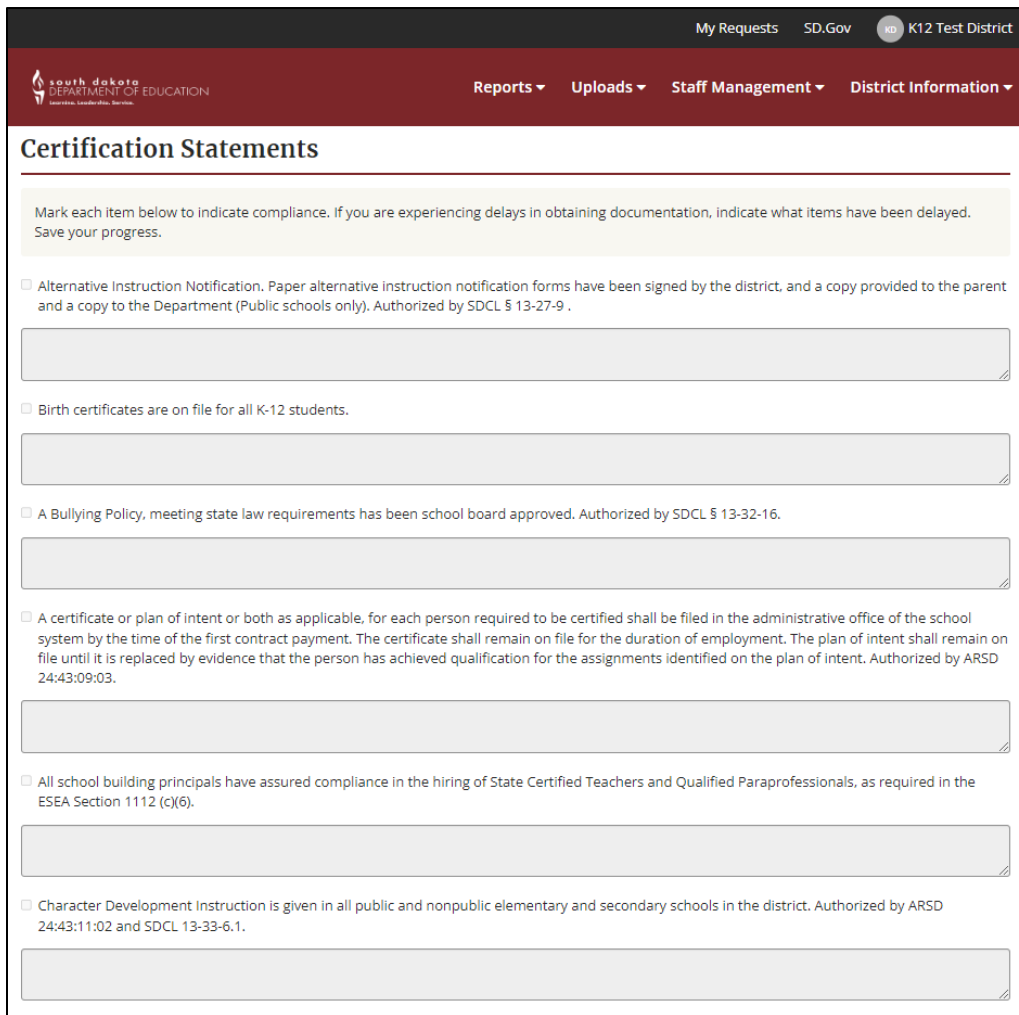

Data validation checks that fail and do not require resolution represent statistical outliers in the data and warrant a review to ensure accuracy, but data modification is not required to complete and submit the PRF PK-12 Educator information collection.

The next section provides guidance specific to the Assurance Statement certification statements that districts are required to verify annually.

Appendix

Appendix A: Definitions and Authority

PK-12 Structure

[SDCL § 13-3-1.4](#) General supervision of accredited elementary and secondary schools.

Subject to policies established by the South Dakota Board of Education Standards, the secretary of the Department of Education has general supervision over all accredited elementary and secondary schools in the state, including adult education, kindergarten, preschool, and summer schools.

[SDCL § 13-1-12.1](#) Promulgation of rules on classification and accreditation of schools, preparation of certified personnel, eligibility for state aid, career and technical education, and curriculum requirements.

The South Dakota Board of Education Standards shall promulgate rules pursuant to chapter [1-26](#) to establish standards for the classification and accreditation of schools within this state, to establish standards for preparation of certified personnel, to set forth procedures for determining the eligibility of school districts to receive state aid to education funding, to adopt policies and rules necessary to establish standards and procedures for career and technical education, and to establish curriculum requirements for a recommended high school program for all public and nonpublic schools within the state. The recommended high school program shall include a rigorous high school curriculum in both academic and career and technical courses. The requirements of the recommended program shall be aligned to the academic content standards developed pursuant to [§ 13-3-48](#) and shall, at a minimum, include the content standards tested pursuant to [§ 13-3-55](#).

Nothing in this section authorizes the board to require the use of specifically designated curriculum or methods of instruction.

[SDCL § 13-3-47](#) Classification and accreditation of schools.

The secretary of the Department of Education shall be responsible for the classification and accreditation of all public and nonpublic schools under the rules established by the South Dakota Board of Education Standards pursuant to chapter 1-26.

[SDCL § 13-3-51](#) Data reporting and record systems—Evaluation—Promulgation of rules--Exception.

The secretary of the Department of Education shall establish a uniform system for the gathering and reporting of educational data for the keeping of adequate educational and financial records and for the evaluation of educational progress. Any school district or school seeking state accreditation shall submit enrollment data, personnel data, and shall verify all state and federal standards for accreditation and approval of schools, including those related to safety and educational equity of the school district or school by October fifteenth of each year. If the due date falls on a weekend or state holiday, the due date is the next business day following the scheduled due date. An annual written evaluation of the

educational progress in the state and in each school district shall be submitted to the Legislature and shall be made available in each school district to the general public. The South Dakota Board of Education Standards may promulgate rules pursuant to chapter 1-26 to further define the data required pursuant to this section. However, nothing in this section authorizes the collection of information not necessary for the calculation of funding for public education, the determination of student academic progress, state and federal reporting requirements, or other duties prescribed to a school district, the department, or the South Dakota Board of Education Standards by law.

[SDCL § 13-3-51.1](#) Definitions regarding privacy of records.

Terms used in §§ 13-3-51.1 to 13-3-51.6, inclusive, mean:

- (1) "Aggregate data," information from education records in which all personally identifiable information has been removed;
- (2) "Department," the South Dakota Department of Education;
- (3) "Disclosure," "education records," and "personally identifiable information," as defined in 34 C.F.R. § 99.3, as amended to January 1, 2014;
- (4) "Privacy protection laws," the federal Family Educational Rights and Privacy Act (20 U.S.C. 1232g), the Protection of Pupil Rights Amendment (20 U.S.C. 1232h), the Individuals with Disabilities Education Act (20 U.S.C. 1401 et seq.), and any other state or federal law relating to the confidentiality and protection of personally identifiable information, as amended to January 1, 2014.

[SDCL § 13-3-51.3](#) Prohibition against reporting personally identifiable information--Exception.

The department may not, as part of any reporting requirement tied to federal funds, report personally identifiable information from education records to the United States Department of Education. However, this section does not apply to information required to be reported pursuant to 20 U.S.C. § 6398 to improve programs for migrant students.

[SDCL § 13-3-51.4](#) Department to develop security measures to protect personally identifiable information.

Personally identifiable information is confidential and is not a public record, and the department shall develop security measures and procedures intended to protect personally identifiable information from release to unauthorized persons or for unauthorized purposes. [SDCL § 13-10-12](#) Criminal background investigation--Prospective employees, technical college instructors, and student teachers--Temporary employment pending results.

Each person over eighteen years of age hired by a school district shall submit to a criminal background investigation, by means of fingerprint checks by the Division of Criminal Investigation and the Federal Bureau of Investigation. The school district shall submit completed fingerprint cards to the Division of Criminal Investigation before the prospective new employee enters into service. If no disqualifying record is identified at the state level, the fingerprints shall be forwarded by the Division of Criminal Investigation to the Federal Bureau of Investigation for a national criminal history record check. Any person whose employment is subject to the requirements of this section may enter into service on a temporary basis pending receipt of results of the criminal background investigation. The employing school district may, without liability, withdraw its offer of employment or terminate the temporary employment without notice if the report reveals a disqualifying record. The employing school district may pay any fees charged for the cost of fingerprinting or the criminal background investigation for any person whose employment is subject to the requirements of this section. Any person hired to officiate, judge, adjudicate, or referee a public event sponsored by a school district is not required to submit to a criminal background investigation as required in this section. In addition, any instructor employed by a technical college is required to submit to a criminal background investigation as required in this section at the time of initial employment.

The criminal investigation required by this section with respect to a student teacher completing requirements for teacher certification shall be conducted by the school district. A criminal background investigation, of a student teacher, conducted by a school district may be provided to any other school in which the student engages in student teaching. The school district conducting the criminal background investigation of a student teacher may rely upon the results of that investigation for employment of that person as an employee of the district.

[SDCL § 13-10-14](#) Persons continuously employed from July 1, 2000, exempt from criminal background check.

Any person employed by a South Dakota school district on July 1, 2000, who remains continuously employed by the same South Dakota school district for consecutive school years is not required to submit to a criminal background check as provided in § 13-10-12.

[SDCL § 13-10-15](#) Suspension or resignation of employee for criminal conviction--Reporting.

If a school board or governing body of any accredited school suspends an employee or an employee resigns or is terminated as a result of a criminal conviction, the superintendent or chief administrator shall, within ten days of the date of the suspension or the date the employment is severed, report the circumstances and the name of the employee to the Department of Education. Any superintendent or chief administrator who fails to report under this section is subject to sanctions found in § 13-8-48.
