

## DISTINGUISHED DISTRICTS

Distinguished Districts will be identified using the following criteria:

- Met AYP for 2 consecutive years in reading, math and the other academic indicator in each of the three district grade spans.
- At least 85% of the students in the “all students” group have met the State’s proficient and advanced levels of student performance in both reading and math.
- 30 or more students participated in both the Reading and Math analyses in each of the 3-5 and 6 – 8 grade spans for the current school year.
- 10 or more students participated in both the Reading and Math analyses in the 11<sup>th</sup> grade for the current school year.

## DISTINGUISHED SCHOOLS

Distinguished Schools will be identified using the following criteria:

[www.website.com](http://www.website.com)

- Met AYP for 2 consecutive years in reading, math and the other academic indicator.
- The percentage of students in the “all students” group that have scored at or above the State’s proficient level of student performance in both reading and math is 10 percentage points higher than the current year’s AMO for each subject.
- An average of 10 or more students participated in the grades tested in that school.
