What is Family Support?

The Family Support 360 Program (FS 360) provides people and their families with services and supports to meet their unique needs.

The FS 360 Program is **self-directed**, which means the person and their family choose the services, the staff who provide them, and a schedule based on their needs.

FS 360 helps people and their family receive state funded services and other community services, together with natural supports (extended family members, friends, neighbors, church congregations, and community organizations).

Each person receiving FS 360 services chooses a Family Support Service Coordinator who will help you find state funded services, community services, and natural supports. Once these services and supports are found, the Family Support Service Coordinator will help you control a budget for your services. Most importantly, your Family Support Service Coordinator will advocate for **you and your family**.
