(4) No single measure or assessment is used as the sole criterion for determining eligibility or an appropriate educational program for a child;

(5) A variety of assessment tools and strategies are used to gather relevant functional, developmental, and academic information about the child, including information provided by the parents, that may assist in determining:

(a) Whether the child is a child with a disability; and

(i) To be involved in and progress in the general education curriculum; or

(ii) For a preschool child, to participate in appropriate activities;

(8) The evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.

Assessments of children with disabilities who transfer from one school district to another school district in the same school year are coordinated with those children's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with § 24:05:25:03.01, to ensure prompt completion of full evaluations.

24:05:30:05. Content of notice. The notice must include the following:

- (3) A description of any other factors which are relevant to the district's proposal or refusal;

- (5) Sources for parents to contact to obtain assistance in understanding the provisions of this article.

24:05:25:26. Extended school year authorized. The district shall provide extended school year services to eligible children if the IEP team determines on an individual basis that such services are necessary for the provision of FAPE.

An IEP pursuant to chapter 24:05:27 shall be developed and implemented by the IEP team that addresses the need for extended school year services. The IEP team shall determine the length of the school day and duration of extended school year services based on the individual child's needs.

In implementing the requirements of this section, a district may not:

- (1) Limit extended school year services to particular categories of disability;
- (2) Unilaterally limit the type, amount, or duration of those services; or
- (3) Apply a regression/recoupment criterion to children in need of prolonged assistance.

As used in this section, the term, extended school year services, means special education and related services that meet the standards of the state and are provided to a student with a disability beyond the normal school year of the district, in accordance with the student's IEP and at no cost to the parents of the student.

24:05:25:16. Parent participation. Each district shall take steps to ensure that one or both parents of the child are present at each IEP team meeting or are afforded the opportunity to participate. The district shall notify parents of the meeting early enough to ensure that they will have an opportunity to attend, scheduling the meeting at a mutually agreed-upon time and place. The notice to the parents shall state the purpose, time, and location of the IEP team meeting and who will be in attendance and inform the parents of the provisions relating to the participation of other individuals on the IEP team who have knowledge or special expertise about the child, including information related to the participation of the Part C service coordinator or other representatives of the Part C system at the initial IEP Team meeting for a child previously served under Part C of the IDEA.

If parents cannot attend, the district shall use other methods to ensure participation, including individual or conference telephone calls consistent with § 24:05:27:08.04.

24:05:25:06. Reevaluations. A school district shall ensure that a reevaluation of each child with a disability is conducted in accordance with this chapter if the school district determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation or if the child's parents or teacher requests a reevaluation.

A reevaluation conducted under this section may occur not more than once a year, unless the parent and district agree otherwise, and must occur at least once every three years, unless the parent and the district agree that a reevaluation is unnecessary.

Reevaluations must be completed within 25 school days after receipt by the district of signed consent to reevaluate unless other time limits are agreed to by the school administration and the parents consistent with § 24:05:25:03.

Each school district shall follow the procedures under § 24:05:25:04.02 when reevaluating a student for the additional purposes of:

- (1) Determining whether the child continues to have a disability and determining the educational needs of the child;
- (2) Determining the present levels of academic achievement and related developmental needs of the child;

(3) Determining whether the child continues to need special education and related services; and

(4) Determining whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP and to participate, as appropriate, in the general education curriculum.

If no additional data are needed to determine continuing eligibility and the child's educational needs, the district shall notify the parents of that determination and reasons for it and of the right of the parent to request an assessment, for purposes of determining the child's educational needs under this article, and to determine continuing eligibility. The school district is not required to conduct an assessment unless requested to do so by the child's parents. However, a school district shall follow the procedures in this chapter before determining that the child is no longer a child with a disability. The evaluation procedures described in this chapter are not required before the termination of a child's eligibility under this article due to graduation from secondary school with a regular high school diploma, or exceeding the age eligibility for FAPE.
