

**DEPARTMENT OF EDUCATION
SPECIAL EDUCATION PROGRAMS
Brookings School District
Accountability Review - Monitoring Report 2020-2021**

Team Leader: Anneke Nelson

Team Members: RDA Monitor(s): Wendy Hodson, Lisa Reinhiller, Joan Ray, Kyle Laughlin, Kylie Steever Lori Wehlander **Special Education Programs:** Linda Turner, Brandi Gerry, Deb Willert **Transition Liaison:** Bev Petersen, Cindy Kirschman

Dates of On-Site Visit: November 2-4, 2020

Date of Report Sent to District: December 17, 2020 updated February 5, 2021

All non-compliance must be corrected within 1 year of this report date.

Date Closed: June 1, 2021

Program monitoring and evaluation.

In conjunction with its general supervisory responsibility under the Individuals with Disabilities Education Act, Part B, Special Education Programs (SEP) of the Division of Educational Services and Support shall monitor agencies, institutions, and organizations responsible for carrying out special education programs in the state, including any obligations imposed on those agencies, institutions, and organizations. The department shall ensure:

- (1) That the requirements of this article are carried out;
- (2) That each educational program for children with disabilities administered within the state, including each program administered by any other state or local agency, but not including elementary schools and secondary schools for Native American children operated or funded by the Secretary of the Interior:
 - (a) Is under the general supervision of the persons responsible for educational programs for children with disabilities in the department; and
 - (b) Meets the educational standards of the state education agency, including the requirements of this article; and
- (3) In carrying out this article with respect to homeless children, the requirements of the McKinney-Vento Homeless Assistance Act, as amended to January 1, 2007, are met. (Reference- ARSD 24:05:20:18.)

State monitoring--Quantifiable indicators and priority areas.

The department shall monitor school districts using quantifiable indicators in each of the following priority areas, and using such qualitative indicators as are needed to adequately measure performance in those areas:

- (1) Provision of Free Appropriate Public Education (FAPE) in the least restrictive environment;
 - (2) Department exercise of general supervision, including child find, effective monitoring, the use of resolution meetings, mediation, and a system of transition services as defined in this article and article 24:14; and
 - (3) Disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification. (Reference-ARSD 24:05:20:18:02.)
-

State enforcement -- Determinations.

On an annual basis, based on local district performance data, information obtained through monitoring visits, and other information available, the department shall determine whether each school district meets the requirements and purposes of Part B of the IDEA...

Based upon the information obtained through monitoring visits, and any other public information made available, Special Education Programs of the Division of Educational Services and Support determines if the agency, institution, or organization responsible for carrying out special education programs in the state:

- Meets the requirements and purposes of Part B of the Act;
- Needs assistance in implementing the requirements of Part B of the Act'
- Needs intervention in implementing the requirements of Part B of the Act; or
- Needs substantial intervention in implementing the requirements of Part B of the Act. (Reference-ARSD 24:05:20:23.04.)

Deficiency correction procedures.

The department shall require local education agencies to correct deficiencies in program operations that are identified through monitoring as soon as possible, but not later than one year from written identification of the deficiency. The department shall order agencies to take corrective actions and to submit a plan for achieving and documenting full compliance. (Reference-ARSD 24:05:20:20.)

GENERAL SUPERVISION / STATE PERFORMANCE PLAN COMPLIANCE INDICATOR

24:05:17:09. Return of information.

Local education agencies shall return information on counting eligible children to the Office of Data Collection. Each local school superintendent shall certify in writing that the information provided is an accurate and unduplicated count of children with disabilities receiving special education or special education and related services on December 1 of each school year. If December 1 falls on Saturday or Sunday, the count shall be taken on the first working day following the weekend

24:05:24.01:19. Criteria for specific learning disability.

A group of qualified professionals and the parent of the child may determine that a child has a specific learning disability if:

- (2)(a) The child does not make sufficient progress to meet age or state-approved grade-level standards in one or more of the areas identified in this section when using a process based on the child's response to scientific, research-based intervention; or
- (b) The child exhibits a pattern of strengths and weaknesses in performance, achievement, or both, relative to age, state-approved grade-level standards, or intellectual development, that is determined by the group to be relevant to the identification of a specific learning disability, using appropriate assessments, consistent with this article; and
- (3) The group determines that its findings under this section are not primarily the result of:
 - (a) A visual, hearing, or motor disability;
 - (b) A cognitive disability;
 - (c) Emotional disturbance;
 - (d) Cultural factors;
 - (e) Environmental or economic disadvantage; or
 - (f) Limited English proficiency.

To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation described in this article, data that demonstrate that prior to, or as a part of, the referral process, the

child was provided appropriate instruction in regular education settings, delivered by qualified personnel, and data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.

24:05:25:03.04. Evaluation procedures -- Notice.

The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.

24:05:25:04.02. Determination of needed evaluation data. As part of an initial evaluation, if appropriate, and as part of any reevaluation, the individual education program team required by § 24:05:27:01.01 and other qualified professionals as appropriate with knowledge and skills necessary to interpret evaluation data, shall:

- (1) Review existing evaluation data on the child, including:
 - (a) Evaluations and information provided by the parents of the child;
 - (b) Current classroom-based local or state assessments and observations; and
 - (c) Observations by teachers and related services providers; and
- (2) Based on the above review and input from the student's parents, identify what additional data, if any, are needed to determine:
 - (a) Whether the student has a particular category of disability as described in this article;
 - (b) The present levels of academic achievement and related developmental needs of the student; and
 - (c) Whether the student needs special education and related services.

The school district shall administer assessments and any other evaluation materials as may be needed to produce the data required to make the determinations listed in subdivision (2) of this section. If no additional data are needed to make the determinations listed in subdivision (2) of this section, the school district shall notify the student's parents of this fact and the reasons for this decision. The group described in this section may conduct its review without a meeting.

24:05:25:16. Parent participation. Each district shall take steps to ensure that one or both parents of the child are present at each IEP team meeting or are afforded the opportunity to participate. The district shall notify parents of the meeting early enough to ensure that they will have an opportunity to attend, scheduling the meeting at a mutually agreed-upon time and place. The notice to the parents shall state the purpose, time, and location of the IEP team meeting and who will be in attendance and inform the parents of the provisions relating to the participation of other individuals on the IEP team who have knowledge or special expertise about the child, including information related to the participation of the Part C service coordinator or other representatives of the Part C system at the initial IEP Team meeting for a child previously served under Part C of the IDEA.

If a purpose of the IEP team meeting is the consideration of postsecondary goals and transition services for a student, the notice must also address the provisions of § 24:05:25:16.01.

If parents cannot attend, the district shall use other methods to ensure participation, including individual or conference telephone calls consistent with § 24:05:27:08.04

24:05:25:16.01. Participation of student in IEP team meeting. If a purpose of the IEP team meeting is the consideration of postsecondary goals and transition services for a student, and if the meeting is for a child with a disability beginning not later than the first IEP to be in effect when the child turns 16, or younger if determined appropriate by the IEP team, the notice also must:

(3) To the extent appropriate, with the consent of the parents or a student who has reached the age of majority, identify any other agency that is likely to be responsible for providing or paying for transition services and that will be invited to send a representative.

Parental consent, or the consent of an eligible student who has reached the age of majority under state law, must be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.

24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

- (1) A statement of the student's present levels of academic achievement and functional performance, including:
 - (a) How the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled students); or
 - (b) For preschool student, as appropriate, how the disability affects the student's participation in appropriate activities;
- (2) A statement of measurable annual goals, including academic and functional goals, designed to:
 - (a) Meet the student's needs that result from the student's disability to enable the student to be involved in and progress in the general education curriculum; and
 - (b) Meet each of the student's other educational needs that result from the student's disability;

For students with disabilities who take alternate assessments aligned to alternate achievement standards, each student's IEP shall provide a description of benchmarks or short-term objectives;

- (3) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the program modifications or supports for school personnel that will be provided to enable the student:
 - (a) To advance appropriately toward attaining the annual goals;
 - (b) To be involved and make progress in the general education curriculum in accordance with this section and to participate in extracurricular and other nonacademic activities; and
 - (c) To be educated and participate with other students with disabilities and nondisabled students in the activities described in this section;
- (4) An explanation of the extent, if any, to which the student will not participate with nondisabled students in the regular class and in activities described in this section;
- (6) The projected date for the beginning of the services and modification described in this section and the anticipated frequency, location, and duration of those services and modifications;
- (8) Beginning not later than the first IEP to be in effect when the student turns 16, or younger if determined appropriate by the IEP team, and updated annually thereafter, the IEP shall include:
 - (a) Appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment, and, if appropriate, independent living skills; and
 - (b) The transition services (including courses of study) needed to assist the student in reaching those goals; and

24:05:27:12. Graduation requirements. Completion of an approved secondary special education program with a regular high school diploma signifies that the student no longer requires special education services. A regular high school diploma does not include an alternative degree that is not fully aligned with the state's academic standards, such as a certificate or a general educational development credential (GED). Graduation from high school with a regular high school diploma constitutes a change in placement requiring written prior notice in accordance with this article.

The instructional program shall be specified on the individual educational program. The individual educational program shall state specifically how the student in need of special education or special education and related services will satisfy the district's graduation requirements. The IEP team may modify the

specific units of credit described in § 24:43:11:02. Parents must be informed through the individual educational program process at least one year in advance of the intent to graduate their child upon completion of the individual educational program and to terminate services by graduation.

24:05:28:03. Factors in determining placements. Each school district shall establish and implement procedures which ensure that the following factors are addressed in determining placements:

- (1) Each child's educational placement must be individually determined at least annually and must be based on the child's individual education program;
- (2) Provisions are made for appropriate classroom or alternative settings necessary to implement a child's individual education program;
- (3) Unless a child's IEP requires some other arrangement, the child shall be educated in the school which that child would normally attend if not disabled. Other placement shall be as close as possible to the child's home;
- (4) Placement in the least restrictive environment will not produce a harmful effect on the child or reduce the quality of services which that child needs; and
- (5) A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

24:05:30:05. Content of notice. The notice must include the following:

- (1) A description of the action proposed or refused by the district, an explanation of why the district proposes or refuses to take the action, and a description of any other options the IEP team considered and the reasons why those options were rejected;
- (2) A description of each evaluation procedure, assessment, record, or report that the district uses as a basis for the proposal or refusal;
- (3) A description of any other factors which are relevant to the district's proposal or refusal;

24:05:25:04.03. Determination of eligibility. Upon completing the administration of assessments and other evaluation measures as required by this chapter, the individual education program team and other qualified individuals required by § 24:05:25:04.02 shall determine whether the student is a student with a disability, and shall determine the educational needs of the child, as defined in this article. The school district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent. A student may not be determined to be a student with a disability if the determinant factor for that decision is lack of appropriate instruction in reading, including the essential components of reading instruction as defined in ESSA, or lack of appropriate instruction in math or limited English proficiency and if the student does not otherwise meet the eligibility criteria under chapter § 24:05:24.01.
