

**DEPARTMENT OF EDUCATION
SPECIAL EDUCATION PROGRAMS
Chamberlain School District
Accountability Review - Monitoring Report 2019-2020**

Team Leader: Anneke Nelson

Team Members: RDA Monitor(s): *Wendy Hodson, Kylie Steever* Special Education Programs: *Wendy Trujillo, Beth Schiltz* Transition Liaison: *Jenny Anatra*

Dates of On-Site Visit: September 23 and 24, 2019

Date of Report Sent to District: November 8, 2019

All non-compliance must be corrected within 1 year of this report date.

Date Closed: May 27, 2020

Program monitoring and evaluation.

In conjunction with its general supervisory responsibility under the Individuals with Disabilities Education Act, Part B, Special Education Programs (SEP) of the Division of Educational Services and Support shall monitor agencies, institutions, and organizations responsible for carrying out special education programs in the state, including any obligations imposed on those agencies, institutions, and organizations. The department shall ensure:

- (1) That the requirements of this article are carried out;
- (2) That each educational program for children with disabilities administered within the state, including each program administered by any other state or local agency, but not including elementary schools and secondary schools for Native American children operated or funded by the Secretary of the Interior:
 - (a) Is under the general supervision of the persons responsible for educational programs for children with disabilities in the department; and
 - (b) Meets the educational standards of the state education agency, including the requirements of this article; and
- (3) In carrying out this article with respect to homeless children, the requirements of the McKinney-Vento Homeless Assistance Act, as amended to January 1, 2007, are met. (Reference- ARSD 24:05:20:18.)

State monitoring--Quantifiable indicators and priority areas.

The department shall monitor school districts using quantifiable indicators in each of the following priority areas, and using such qualitative indicators as are needed to adequately measure performance in those areas:

- (1) Provision of Free Appropriate Public Education (FAPE) in the least restrictive environment;
- (2) Department exercise of general supervision, including child find, effective monitoring, the use of resolution meetings, mediation, and a system of transition services as defined in this article and article 24:14; and
- (3) Disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification. (Reference-ARSD 24:05:20:18:02.)

State enforcement -- Determinations.

On an annual basis, based on local district performance data, information obtained through monitoring visits, and other information available, the department shall determine whether each school district meets the requirements and purposes of Part B of the IDEA...

Based upon the information obtained through monitoring visits, and any other public information made available, Special Education Programs of the Division of Educational Services and Support determines if the agency, institution, or organization responsible for carrying out special education programs in the state:

- Meets the requirements and purposes of Part B of the Act;
- Needs assistance in implementing the requirements of Part B of the Act'
- Needs intervention in implementing the requirements of Part B of the Act; or
- Needs substantial intervention in implementing the requirements of Part B of the Act. (Reference-ARSD 24:05:20:23.04.)

Deficiency correction procedures.

The department shall require local education agencies to correct deficiencies in program operations that are identified through monitoring as soon as possible, but not later than one year from written identification of the deficiency. The department shall order agencies to take corrective actions and to submit a plan for achieving and documenting full compliance. (Reference-ARSD 24:05:20:20.)

24:05:17:09: Return of information. Local education agencies shall return information on counting eligible children to the Office of Data Collection. Each local school superintendent shall certify in writing that the information provided is an accurate and unduplicated count of children with disabilities receiving special education or special education and related services on December 1 of each school year. If December 1 falls on Saturday or Sunday, the count shall be taken on the first working day following the weekend.

24:05:24.01:30: Vision loss including blindness defined. Vision loss including blindness is an impairment in vision that, even with correction, adversely affects a student's educational performance. The term includes both partial sight and blindness.

A student with a vision loss has a deficiency in visual acuity that, even with the use of lenses or corrective devices, requires special education or special education and related services.

Partial sight is one or more deficiencies in visual acuity, as follows:

- (1) Visual acuity of no better than 20/70 in the better eye after correction;
- (2) Restricted visual field;
- (3) Limited ability to move about safely in the environment because of visual disability.

Blindness is a deficiency in visual acuity of 20/200 or less in the better eye with correcting lenses or a limited field of vision in which the widest diameter subtends an angular distance of no greater than twenty degrees or has a medically indicated expectation of visual deterioration.

24:05:25:26: Extended school year authorized. The district shall provide extended school year services to eligible children if the IEP team determines on an individual basis that such services are necessary for the provision of FAPE.

An IEP pursuant to chapter 24:05:27 shall be developed and implemented by the IEP team that addresses the need for extended school year services. The IEP team shall determine the length of the school day and duration of extended school year services based on the individual child's needs.

In implementing the requirements of this section, a district may not:

- (1) Limit extended school year services to particular categories of disability;
- (2) Unilaterally limit the type, amount, or duration of those services; or
- (3) Apply a regression/recoupment criterion to children in need of prolonged assistance.

As used in this section, the term, extended school year services, means special education and related services that meet the standards of the state and are provided to a student with a disability beyond the normal school year of the district, in accordance with the student's IEP and at no cost to the parents of the student.

24:05:25:04.02: Determination of needed evaluation data. As part of an initial evaluation, if appropriate, and as part of any reevaluation, the individual education program team required by § 24:05:27:01.01 and other qualified professionals as appropriate with knowledge and skills necessary to interpret evaluation data, shall:

- (1) Review existing evaluation data on the child, including:
 - (a) Evaluations and information provided by the parents of the child;
 - (b) Current classroom-based local or state assessments and observations; and
 - (c) Observations by teachers and related services providers; and
- (2) Based on the above review and input from the student's parents, identify what additional data, if any, are needed to determine:
 - (a) Whether the student has a particular category of disability as described in this article;
 - (b) The present levels of academic achievement and related developmental needs of the student; and
 - (c) Whether the student needs special education and related services.

The school district shall administer assessments and any other evaluation materials as may be needed to produce the data required to make the determinations listed in subdivision (2) of this section. If no additional data are needed to make the determinations listed in subdivision (2) of this section, the school district shall notify the student's parents of this fact and the reasons for this decision. The group described in this section may conduct its review without a meeting.

24:05:25:06: Reevaluations. A school district shall ensure that a reevaluation of each child with a disability is conducted in accordance with this chapter if the school district determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation or if the child's parents or teacher requests a reevaluation.

A reevaluation conducted under this section may occur not more than once a year, unless the parent and district agree otherwise, and must occur at least once every three years, unless the parent and the district agree that a reevaluation is unnecessary.

Reevaluations must be completed within 25 school days after receipt by the district of signed consent to reevaluate unless other time limits are agreed to by the school administration and the parents consistent with § 24:05:25:03.

Each school district shall follow the procedures under § 24:05:25:04.02 when reevaluating a student for the additional purposes of:

- (1) Determining whether the child continues to have a disability and determining the educational needs of the child;
- (2) Determining the present levels of academic achievement and related developmental needs of the child;
- (3) Determining whether the child continues to need special education and related services; and

(4) Determining whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP and to participate, as appropriate, in the general education curriculum.

If no additional data are needed to determine continuing eligibility and the child's educational needs, the district shall notify the parents of that determination and reasons for it and of the right of the parent to request an assessment, for purposes of determining the child's educational needs under this article, and to determine continuing eligibility. The school district is not required to conduct an assessment unless requested to do so by the child's parents. However, a school district shall follow the procedures in this chapter before determining that the child is no longer a child with a disability. The evaluation procedures described in this chapter are not required before the termination of a child's eligibility under this article due to graduation from secondary school with a regular high school diploma, or exceeding the age eligibility for FAPE.

24:05:25:16.01: Participation of student in IEP team meeting. If a purpose of the IEP team meeting is the consideration of postsecondary goals and transition services for a student, and if the meeting is for a child with a disability beginning not later than the first IEP to be in effect when the child turns 16, or younger if determined appropriate by the IEP team, the notice also must:

(1) Indicate that a purpose of the meeting is the consideration of the postsecondary goals and transition services for the student;

(2) Indicate that the district will invite the student; and

(3) To the extent appropriate, with the consent of the parents or a student who has reached the age of majority, identify any other agency that is likely to be responsible for providing or paying for transition services and that will be invited to send a representative.

Parental consent, or the consent of an eligible student who has reached the age of majority under state law, must be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.

24:05:25:20: IEP team to evaluate, interpret, and explain. The IEP team is responsible for assuring that a child has been appropriately evaluated and that all evaluation data are interpreted and explained to parents.

24:05:27:01.02: Development, review, and revision of individualized education program. In developing, reviewing, and revising each student's individualized education program, the team shall consider the strengths of the student and the concerns of the parents for enhancing the education of their student, the results of the initial or most recent evaluation of the student, the academic, developmental, and functional needs of the student. The individualized education program team also shall:

(1) In the case of a student whose behavior impedes his or her learning or that of others, consider the use of positive behavioral interventions and supports and other strategies to address that behavior;

(2) In the case of a student with limited English proficiency, consider the language needs of the student as these needs relate to the student's individualized education program;

(3) In the case of a student who is blind or visually impaired, provide for instruction in Braille and the use of Braille unless the team determines, after an evaluation of the student's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the student's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the student;

(4) Consider the communication needs of the student and, in the case of a student who is deaf or hard of hearing, consider the student's language and communication needs, opportunities for direct communications with peers and professional personnel in the student's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the student's language and communication mode; and

- (5) Consider whether the student requires assistive technology devices and services.

The regular education teacher of a student with a disability, as a member of the individualized education program team, must, to the extent appropriate, participate in the development, review, and revision of the student's individualized education program, including the determination of appropriate positive behavioral interventions and supports and other strategies for the student and the determination of supplementary aids and services, program modifications, and supports for school personnel that will be provided for the student consistent with subdivision 24:05:27:01.03(3).

Nothing in this section requires the team to include information under one component of a student's individualized education program that is already contained under another component of the student's individualized education program. No additional information may be required to be included in a student's IEP beyond what is explicitly required in this section.

24:05:27:01.03: Content of individualized education program. Each student's individualized education program shall include:

- (1) A statement of the student's present levels of academic achievement and functional performance, including:
 - (a) How the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled students); or
 - (b) For preschool student, as appropriate, how the disability affects the student's participation in appropriate activities;
- (2) A statement of measurable annual goals, including academic and functional goals, designed to:
 - (a) Meet the student's needs that result from the student's disability to enable the student to be involved in and progress in the general education curriculum; and
 - (b) Meet each of the student's other educational needs that result from the student's disability;For students with disabilities who take alternate assessments aligned to alternate achievement standards, each student's IEP shall provide a description of benchmarks or short-term objectives;
- (3) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the program modifications or supports for school personnel that will be provided to enable the student:
 - (a) To advance appropriately toward attaining the annual goals;
 - (b) To be involved and make progress in the general education curriculum in accordance with this section and to participate in extracurricular and other nonacademic activities; and
 - (c) To be educated and participate with other students with disabilities and nondisabled students in the activities described in this section;
- (4) An explanation of the extent, if any, to which the student will not participate with nondisabled students in the regular class and in activities described in this section;
- (5) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the student on state and district-wide assessments consistent with § 24:05:14:14. If the IEP team determines that the student shall take an alternate assessment instead of a particular regular state or district-wide assessment of student achievement, a statement of why:
 - (a) The student cannot participate in the regular assessment; and
 - (b) The particular alternate assessment selected is appropriate for the student;
- (6) The projected date for the beginning of the services and modification described in this section and the anticipated frequency, location, and duration of those services and modifications;

(7) A description of how the student's progress toward the annual goals described in this section will be measured and when periodic reports on the progress the student is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;

(8) Beginning not later than the first IEP to be in effect when the student turns 16, or younger if determined appropriate by the IEP team, and updated annually thereafter, the IEP shall include:

(a) Appropriate measurable postsecondary goals based upon age-appropriate transition assessments related to training, education, employment, and, if appropriate, independent living skills; and

(b) The transition services (including courses of study) needed to assist the student in reaching those goals; and

(9) Beginning not later than one year before a student reaches the age of majority under state law, the student's individualized education program must include a statement that the student has been informed of his or her rights under Part B of the Individuals with Disabilities Education Act, if any, that will transfer to the student on reaching the age of majority consistent with § 24:05:30:16.01.

24:05:28:02: Continuum of alternative placements. Alternative placements which must be made available include the following:

(1) Regular educational programs with modification;

(2) Resource rooms;

(3) Self-contained programs;

(4) Separate day school programs;

(5) Residential school programs;

(6) Home and hospital programs; and

(7) Other settings.

For each of the programs listed in this section, the IEP team shall determine the extent to which related services are required in order for the child to benefit from the program. The length of the school day must be equal in duration to that of a regular public school day unless an adjusted school day is required to meet the individual needs of the child. The IEP team shall provide for supplementary services, such as resource room or itinerant instruction, to be provided in conjunction with regular class placement, as applicable.

In those cases where placement is made in a separate day school program or residential school program, the district may abide by the school term of the facility in which the child is placed based on the individual needs of the child.

24:05:28:03: Factors in determining placements. Each school district shall establish and implement procedures which ensure that the following factors are addressed in determining placements:

(1) Each child's educational placement must be individually determined at least annually and must be based on the child's individual education program;

(2) Provisions are made for appropriate classroom or alternative settings necessary to implement a child's individual education program;

(3) Unless a child's IEP requires some other arrangement, the child shall be educated in the school which that child would normally attend if not disabled.

Other placement shall be as close as possible to the child's home;

(4) Placement in the least restrictive environment will not produce a harmful effect on the child or reduce the quality of services which that child needs;

and

(5) A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

24:05:30:05. Content of notice. The notice must include the following:

- (1) A description of the action proposed or refused by the district, an explanation of why the district proposes or refuses to take the action, and a description of any other options the IEP team considered and the reasons why those options were rejected;
- (2) A description of each evaluation procedure, assessment, record, or report that the district uses as a basis for the proposal or refusal;
- (3) A description of any other factors which are relevant to the district's proposal or refusal;
- (4) A statement that the parents of a child with a disability have protection under the procedural safeguards of this article and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained; and
- (5) Sources for parents to contact to obtain assistance in understanding the provisions of this article.

24:05:25:03.04. Evaluation procedures -- Notice. The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.
