GENERAL SUPERVISION / STATE PERFORMANCE PLAN COMPLIANCE INDICATOR

ARSD 24:05:25:04. Evaluation procedures -- General. School districts shall ensure, at a minimum, that evaluation procedures include the following:

(8) The evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.

ARSD 24:05:25:03. Preplacement evaluation. Before any action is taken concerning the initial placement of a child with disabilities in a special education program, a full and individual initial evaluation of the child's educational needs must be conducted in accordance with the requirements of this chapter. Initial evaluations must be completed within 25 school days after receipt by the district of signed parent consent to evaluate unless other timelines are agreed to by the school administration and the parents.

Written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of the 25 school day evaluation timeline. If another timeline for completing the evaluation process is agreed to by the parent and school administration, the written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of agreed upon evaluation timeline.

Consistent with the consent requirements in this section, either a parent of a child or a school district may initiate a request for an initial evaluation to determine whether the child is a child with a disability.

ARSD 24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

- (1) A statement of the student's present levels of academic achievement and functional performance, including:

(a) How the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled students); or

(b) For preschool student, as appropriate, how the disability affects the student's participation in appropriate activities;

ARSD 24:05:25:26. Extended school year authorized. The district shall provide extended school year services to eligible children if the IEP team determines on an individual basis that such services are necessary for the provision of FAPE.

An IEP pursuant to chapter 24:05:27 shall be developed and implemented by the IEP team that addresses the need for extended school year services. The IEP team shall determine the length of the school day and duration of extended school year services based on the individual child's needs.

In implementing the requirements of this section, a district may not:

- (1) Limit extended school year services to particular categories of disability;
- (2) Unilaterally limit the type, amount, or duration of those services; or
- (3) Apply a regression/recoupment criterion to children in need of prolonged assistance.

As used in this section, the term, extended school year services, means special education and related services that meet the standards of the state and are provided to a student with a disability beyond the normal school year of the district, in accordance with the student's IEP and at no cost to the parents of the student.

ARSD 24:05:25:03.04. Evaluation procedures -- Notice. The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.
