

**DEPARTMENT OF EDUCATION
SPECIAL EDUCATION PROGRAMS
Kadoka Area School District
Accountability Review - Monitoring Report 2021-2022**

Team Leader: Amy Jo Yost

Team Members: RDA Monitor(s): Brenda Boyd

Special Education Programs: Melissa Flor

Transition Liaison: Dave Halverson

Dates of Review: October 21, 2021

Date of Report Sent to District: December 3, 2021

All non-compliance must be corrected within 1 year of this report date.

Date Closed: May 17, 2022

Program monitoring and evaluation.

In conjunction with its general supervisory responsibility under the Individuals with Disabilities Education Act, Part B, Special Education Programs (SEP) of the Division of Educational Services and Support shall monitor agencies, institutions, and organizations responsible for carrying out special education programs in the state, including any obligations imposed on those agencies, institutions, and organizations. The department shall ensure:

- (1) That the requirements of this article are carried out;
- (2) That each educational program for children with disabilities administered within the state, including each program administered by any other state or local agency, but not including elementary schools and secondary schools for Native American children operated or funded by the Secretary of the Interior:
 - (a) Is under the general supervision of the persons responsible for educational programs for children with disabilities in the department; and
 - (b) Meets the educational standards of the state education agency, including the requirements of this article; and
- (3) In carrying out this article with respect to homeless children, the requirements of the McKinney-Vento Homeless Assistance Act, as amended to January 1, 2007, are met. (Reference- ARSD 24:05:20:18.)

State monitoring--Quantifiable indicators and priority areas.

The department shall monitor school districts using quantifiable indicators in each of the following priority areas, and using such qualitative indicators as are needed to adequately measure performance in those areas:

- (1) Provision of Free Appropriate Public Education (FAPE) in the least restrictive environment;
 - (2) Department exercise of general supervision, including child find, effective monitoring, the use of resolution meetings, mediation, and a system of transition services as defined in this article and article 24:14; and
 - (3) Disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification. (Reference-ARSD 24:05:20:18:02.)
-

State enforcement -- Determinations.

On an annual basis, based on local district performance data, information obtained through monitoring visits, and other information available, the department shall determine whether each school district meets the requirements and purposes of Part B of the IDEA...

Based upon the information obtained through monitoring visits, and any other public information made available, Special Education Programs of the Division of Educational Services and Support determines if the agency, institution, or organization responsible for carrying out special education programs in the state:

- Meets the requirements and purposes of Part B of the Act;
- Needs assistance in implementing the requirements of Part B of the Act'
- Needs intervention in implementing the requirements of Part B of the Act; or
- Needs substantial intervention in implementing the requirements of Part B of the Act. (Reference-ARSD 24:05:20:23.04.)

Deficiency correction procedures.

The department shall require local education agencies to correct deficiencies in program operations that are identified through monitoring as soon as possible, but not later than one year from written identification of the deficiency. The department shall order agencies to take corrective actions and to submit a plan for achieving and documenting full compliance. (Reference-ARSD 24:05:20:20.)

24:05:17:03. Annual report of children served. In its annual report of children served, the department shall indicate the number of children with disabilities receiving special education and related services on December 1 of that school year;

For the purpose of this section, a child's age is the child's actual age on the date of the child count, December 1.

The department may not report a child under more than one disability category.

24:05:30:05. Content of notice. The notice must include the following:

- (2) A description of each evaluation procedure, assessment, record, or report that the district uses as a basis for the proposal or refusal;

24:05:25:04. Evaluation procedures -- General. School districts shall ensure, at a minimum, that evaluation procedures include the following:

(1) Assessments and other evaluation materials are provided and administered in the child's native language or by another mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to so provide or administer. In addition, assessments and other evaluation materials:

(a) Are used for the purposes for which the assessments or measures are valid and reliable; and

(b) Are administered by trained and knowledgeable personnel in conformance with the instructions provided by their producer;

(2) Assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those which are designed to provide a single general intelligence quotient;

(3) Assessments are selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment accurately reflects the child's aptitude or achievement level or whatever other factors the assessment purports to measure, rather than the child's impaired sensory, manual, or speaking skills except where those skills are the factors which the assessment purports to measure;

(4) No single measure or assessment is used as the sole criterion for determining eligibility or an appropriate educational program for a child;

(5) A variety of assessment tools and strategies are used to gather relevant functional, developmental, and academic information about the child, including information provided by the parents, that may assist in determining:

- (a) Whether the child is a child with a disability; and

- (b) The content of the child's IEP, including information related to enabling the child:
 - (i) To be involved in and progress in the general education curriculum; or
 - (ii) For a preschool child, to participate in appropriate activities;
- (6) Technically sound instruments, assessment tools, and strategies are used that:
 - (a) May assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors; and
 - (b) Provide relevant information that directly assists persons in determining the educational needs of the child;
- (7) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities; and
- (8) The evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.

Assessments of children with disabilities who transfer from one school district to another school district in the same school year are coordinated with those children's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with § 24:05:25:03.01, to ensure prompt completion of full evaluations.

24:05:25:04.03. Determination of eligibility. Upon completing the administration of assessments and other evaluation measures as required by this chapter, the individual education program team and other qualified individuals required by § 24:05:25:04.02 shall determine whether the student is a student with a disability, and shall determine the educational needs of the child, as defined in this article. The school district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent. A student may not be determined to be a student with a disability if the determinant factor for that decision is lack of appropriate instruction in reading, including the essential components of reading instruction as defined in ESSA, or lack of appropriate instruction in math or limited English proficiency and if the student does not otherwise meet the eligibility criteria under chapter § 24:05:24.01.

24:05:24.01:19. Criteria for specific learning disability. A group of qualified professionals and the parent of the child may determine that a child has a specific learning disability if:

To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation described in this article, data that demonstrate that prior to, or as a part of, the referral process, the child was provided appropriate instruction in regular education settings, delivered by qualified personnel, and data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, which was provided to the child's parents.

The school district must promptly request parental consent to evaluate the child to determine whether the child needs special education and related services, and must adhere to the timeframes described in this article unless extended by mutual written agreement of the child's parents and a group of qualified professionals. The district must request such consent if, prior to a referral, a child has not made adequate progress after an appropriate period of time when provided instruction, as described in this section, and whenever a child is referred for an evaluation.

24:05:27:01.02. Development, review, and revision of individualized education program. In developing, reviewing, and revising each student's individualized education program, the team shall consider the strengths of the student and the concerns of the parents for enhancing the education of their student, the results of the initial or most recent evaluation of the student, the academic, developmental, and functional needs of the student. The individualized education program team also shall:

Nothing in this section requires the team to include information under one component of a student's individualized education program that is already contained under another component of the student's individualized education program. No additional information may be required to be included in a student's IEP beyond what is explicitly required in this section.

24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

- (1) A statement of the student's present levels of academic achievement and functional performance, including:
 - (a) How the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled students); or
- (2) A statement of measurable annual goals, including academic and functional goals, designed to:
 - (a) Meet the student's needs that result from the student's disability to enable the student to be involved in and progress in the general education curriculum; and
 - (b) Meet each of the student's other educational needs that result from the student's disability;For students with disabilities who take alternate assessments aligned to alternate achievement standards, each student's IEP shall provide a description of benchmarks or short-term objectives;
- (5) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the student on state and district-wide assessments consistent with § 24:05:14:14. If the IEP team determines that the student shall take an alternate assessment instead of a particular regular state or district-wide assessment of student achievement, a statement of why:
 - (a) The student cannot participate in the regular assessment; and
 - (b) The particular alternate assessment selected is appropriate for the student;
- (6) The projected date for the beginning of the services and modification described in this section and the anticipated frequency, location, and duration of those services and modifications;

24:05:30:04. Prior notice. Written notice which meets the requirements of § 24:05:30:05 must be given to the parents five days before the district proposes or refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child. The five-day notice requirement may be waived by the parents.

24:05:27:10. Individual educational programs for students placed in private schools. Before a resident school district places or refers a child in need of special education or special education and related services to a private school, facility, or a contracting district, the district shall initiate and conduct an IEP team meeting to develop an individual educational program for the child in accordance with district procedures.

The district shall ensure that a representative of the private school or facility attends the IEP team meeting. If the representative of the private school or facility cannot attend the IEP team meeting, the district shall use other methods to ensure participation, including individual or conference telephone calls.

After a child in need of special education or special education and related services enters a private school or facility, any meetings to review and revise the child's individual educational program may be initiated and conducted by the private school or facility at the discretion of the district.

If the private school or facility initiates and conducts these meetings, the district shall ensure that the parents and a district representative are involved in any decision about the child's individual educational program and agree to any proposed changes in the program before those changes are implemented.

Even if a private school or facility implements a child's individual educational program, responsibility for compliance with this section remains with the school district and the department.

24:05:25:03.04. Evaluation procedures -- Notice. The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.

24:05:25:04.02. Determination of needed evaluation data. As part of an initial evaluation, if appropriate, and as part of any reevaluation, the individual education program team required by § 24:05:27:01.01 and other qualified professionals as appropriate with knowledge and skills necessary to interpret evaluation data, shall:

- (2) Based on the above review and input from the student's parents, identify what additional data, if any, are needed to determine:
- (a) Whether the student has a particular category of disability as described in this article;
 - (b) The present levels of academic achievement and related developmental needs of the student; and
 - (c) Whether the student needs special education and related services.
