**24:05:25:03.04. Evaluation procedures -- Notice.** The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.

**24:05:25:04. Evaluation procedures -- General.** School districts shall ensure, at a minimum, that evaluation procedures include the following:

- (6) Technically sound instruments, assessment tools, and strategies are used that:
  - (a) May assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors; and
  - (b) Provide relevant information that directly assists persons in determining the educational needs of the child;

**24:05:25:04.03. Determination of eligibility.** Upon completing the administration of assessments and other evaluation measures as required by this chapter, the individual education program team and other qualified individuals required by § 24:05:25:04.02 shall determine whether the student is a student with a disability, and shall determine the educational needs of the child, as defined in this article. The school district shall provide a copy of the evaluation report and the documentation of determination of eligibility at no cost to the parent. A student may not be determined to be a student with a disability if the determinant factor for that decision is lack of appropriate instruction in reading, including the essential components of reading instruction as defined in ESEA, or lack of appropriate instruction in math or limited English proficiency and if the student does not otherwise meet the eligibility criteria under chapter § 24:05:24.01.

**24:05:27:01.03. Content of individualized education program.** Each student's individualized education program shall include

- (3) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the program modifications or supports for school personnel that will be provided to enable the student:
  - (a) To advance appropriately toward attaining the annual goals;
  - (2) A statement of measurable annual goals, including academic and functional goals, designed to:
    - (a) Meet the student's needs that result from the student's disability to enable the student to be involved in and progress in the general education curriculum; and
    - (b) Meet each of the student's other educational needs that result from the student's disability;

For students with disabilities who take alternate assessments aligned to alternate achievement standards, each student's IEP shall provide a description of benchmarks or short-term objectives;

**24:05:27:01.02. Development, review, and revision of individualized education program.** In developing, reviewing, and revising each student's individualized education program, the team shall consider the strengths of the student and the concerns of the parents for enhancing the education of their student, the results of the initial or most recent evaluation of the student, the academic, developmental, and functional needs of the student. The individualized education program team also shall:

- (1) In the case of a student whose behavior impedes his or her learning or that of others, consider the use of positive behavioral interventions and supports and other strategies to address that behavior;

**24:05:24.01:31. IEP team override.** If the IEP team determines that a student is eligible for special education or special education and related services because the student has a disability and needs special education even though the student does not meet specific requirements in this chapter, the IEP team must include documentation in the record as follows:

- (1) The record must contain documents that explain why the standards and procedures that are used with the majority of students resulted in invalid findings for this student;
- (2) The record must indicate what objective data were used to conclude that the student has a disability and is in need of special education. These data may include test scores, work products, self-reports, teacher comments, previous tests, observational data, and other developmental data;
- (3) Since the eligibility decision is based on a synthesis of multiple data and not all data are equally valid, the team must indicate which data had the greatest relative importance for the eligibility decision; and
- (4) The IEP team override decision must include a sign-off by the IEP team members agreeing to the override decision. If one or more IEP team members disagree with the override decision, the record must include a statement of why they disagree signed by those members.

The district director of special education shall keep a list of students on whom the IEP team override criteria were used to assist the state in evaluating the adequacy of student identification criteria.

Each local school superintendent shall certify in writing that the information provided is an accurate and unduplicated count of children with disabilities receiving special education or special education and related services on December 1 of each school year. If December 1 falls on Saturday or Sunday, the count shall be taken on the first working day following the weekend.
