

**DEPARTMENT OF EDUCATION
SPECIAL EDUCATION PROGRAMS
Waubay School District
Accountability Review - Monitoring Report 2021-2022**

Team Leader: Lori Wehlander

Team Members: RDA Monitor(s): Toni Anderson Special Education Programs: Brandi Gerry Transition Liaison: Cindy Kirschman

Dates of Review: December 8, 2021

Date of Report Sent to District: January 18, 2022

All non-compliance must be corrected within 1 year of this report date.

Date Closed: May 17, 2022

Program monitoring and evaluation.

In conjunction with its general supervisory responsibility under the Individuals with Disabilities Education Act, Part B, Special Education Programs (SEP) of the Division of Educational Services and Support shall monitor agencies, institutions, and organizations responsible for carrying out special education programs in the state, including any obligations imposed on those agencies, institutions, and organizations. The department shall ensure:

- (1) That the requirements of this article are carried out;
- (2) That each educational program for children with disabilities administered within the state, including each program administered by any other state or local agency, but not including elementary schools and secondary schools for Native American children operated or funded by the Secretary of the Interior:
 - (a) Is under the general supervision of the persons responsible for educational programs for children with disabilities in the department; and
 - (b) Meets the educational standards of the state education agency, including the requirements of this article; and
- (3) In carrying out this article with respect to homeless children, the requirements of the McKinney-Vento Homeless Assistance Act, as amended to January 1, 2007, are met. (Reference- ARSD 24:05:20:18.)

State monitoring--Quantifiable indicators and priority areas.

The department shall monitor school districts using quantifiable indicators in each of the following priority areas, and using such qualitative indicators as are needed to adequately measure performance in those areas:

- (1) Provision of Free Appropriate Public Education (FAPE) in the least restrictive environment;
 - (2) Department exercise of general supervision, including child find, effective monitoring, the use of resolution meetings, mediation, and a system of transition services as defined in this article and article 24:14; and
 - (3) Disproportionate representation of racial and ethnic groups in special education and related services, to the extent the representation is the result of inappropriate identification. (Reference-ARSD 24:05:20:18:02.)
-

State enforcement -- Determinations.

On an annual basis, based on local district performance data, information obtained through monitoring visits, and other information available, the department shall determine whether each school district meets the requirements and purposes of Part B of the IDEA...

Based upon the information obtained through monitoring visits, and any other public information made available, Special Education Programs of the Division of Educational Services and Support determines if the agency, institution, or organization responsible for carrying out special education programs in the state:

- Meets the requirements and purposes of Part B of the Act;
- Needs assistance in implementing the requirements of Part B of the Act'
- Needs intervention in implementing the requirements of Part B of the Act; or
- Needs substantial intervention in implementing the requirements of Part B of the Act. (Reference-ARSD 24:05:20:23.04.)

Deficiency correction procedures.

The department shall require local education agencies to correct deficiencies in program operations that are identified through monitoring as soon as possible, but not later than one year from written identification of the deficiency. The department shall order agencies to take corrective actions and to submit a plan for achieving and documenting full compliance. (Reference-ARSD 24:05:20:20.)

24:05:25:06. Reevaluations. A school district shall ensure that a reevaluation of each child with a disability is conducted in accordance with this chapter if the school district determines that the educational or related service needs, including improved academic achievement and functional performance, of the child warrant a reevaluation or if the child's parents or teacher requests a reevaluation.

A reevaluation conducted under this section may occur not more than once a year, unless the parent and district agree otherwise, and must occur at least once every three years, unless the parent and the district agree that a reevaluation is unnecessary.

Reevaluations must be completed within 25 school days after receipt by the district of signed consent to reevaluate unless other time limits are agreed to by the school administration and the parents consistent with § 24:05:25:03.

Each school district shall follow the procedures under § 24:05:25:04.02 when reevaluating a student for the additional purposes of:

- (1) Determining whether the child continues to have a disability and determining the educational needs of the child;
- (2) Determining the present levels of academic achievement and related developmental needs of the child;
- (3) Determining whether the child continues to need special education and related services; and
- (4) Determining whether any additions or modifications to the special education and related services are needed to enable the child to meet the measurable annual goals set out in the IEP and to participate, as appropriate, in the general education curriculum.

If no additional data are needed to determine continuing eligibility and the child's educational needs, the district shall notify the parents of that determination and reasons for it and of the right of the parent to request an assessment, for purposes of determining the child's educational needs under this article, and to determine continuing eligibility. The school district is not required to conduct an assessment unless requested to do so by the child's parents. However, a school district shall follow the procedures in this chapter before determining that the child is no longer a child with a disability. The evaluation procedures described in this chapter are not required before the termination of a child's eligibility under this article due to graduation from secondary school with a regular high school diploma, or exceeding the age eligibility for FAPE.

24:05:25:06.01. Consent for reevaluation. Before conducting a reevaluation of an eligible child, parental consent is required, unless:

- (1) The school district can demonstrate that it has taken reasonable measures to obtain consent, and the child's parent has failed to respond; and
- (2) The school district documents its efforts to obtain consent by using the procedures consistent with § 24:05:25:17.

If the parent refuses to consent to the reevaluation, the school district may, but is not required to, pursue the reevaluation by using the consent override procedures described in chapter 24:05:30 including mediation and due process hearing procedures.

24:05:27:01.02. Development, review, and revision of individualized education program. In developing, reviewing, and revising each student's individualized education program, the team shall consider the strengths of the student and the concerns of the parents for enhancing the education of their student, the results of the initial or most recent evaluation of the student, the academic, developmental, and functional needs of the student

24:05:30:04. Prior notice. Written notice which meets the requirements of § 24:05:30:05 must be given to the parents five days before the district proposes or refuses to initiate or change the identification, evaluation, or educational placement of the child or the provision of a free appropriate public education to the child. The five-day notice requirement may be waived by the parents.

24:05:27:04.01. Parental consent for services. A school district that is responsible for making a free appropriate public education available to a student with a disability under this article shall obtain informed consent from the parent of the student before initially providing special education and related services to the student.

The district shall make reasonable efforts to obtain informed consent from the parent for the initial provision of special education and related services to the child. To meet the reasonable efforts requirement, the district shall document its attempts to obtain parental consent using the procedures in § 24:05:25:17.

If the parent of the student fails to respond or refuses to consent to services, the school district may not use the procedures in chapter 24:05:30, including the mediation procedures or the due process procedures, in order to obtain agreement or a ruling that the services may be provided to the child.

24:05:25:04.02. Determination of needed evaluation data. As part of an initial evaluation, if appropriate, and as part of any reevaluation, the individual education program team required by § 24:05:27:01.01 and other qualified professionals as appropriate with knowledge and skills necessary to interpret evaluation data, shall:

- (1) Review existing evaluation data on the child, including:
 - (a) Evaluations and information provided by the parents of the child;
 - (b) Current classroom-based local or state assessments and observations; and
 - (c) Observations by teachers and related services providers; and
- (2) Based on the above review and input from the student's parents, identify what additional data, if any, are needed to determine
 - (a) Whether the student has a particular category of disability as described in this article;
 - (b) The present levels of academic achievement and related developmental needs of the student; and
 - (c) Whether the student needs special education and related services

The school district shall administer assessments and any other evaluation materials as may be needed to produce the data required to make the determinations listed in subdivision (2) of this section. If no additional data are needed to make the determinations listed in subdivision (2) of this section, the school district shall notify the student's parents of this fact and the reasons for this decision. The group described in this section may conduct its review without a meeting.

24:05:27:01.05. IEP team attendance. A member of the IEP team described in subdivisions 24:05:27:01.01(2) to (5), inclusive, is not required to attend an IEP team meeting, in whole or in part, if the parent of a student with a disability and the school district agree in writing that the attendance of the member is not necessary because the member's area of the curriculum or related services is not being modified or discussed in the meeting. A member of the IEP team may be excused from attending, in whole or in part, an IEP team meeting that involves a modification to or discussion of the member's area of the curriculum or related services, if:

- (1) The parent and school district consent in writing to the excusal; and
- (2) The member submits, in writing to the parent and the IEP team, input into the development of the IEP before the meeting.

24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

(2) A statement of measurable annual goals, including academic and functional goals, designed to:

(a) Meet the student's needs that result from the student's disability to enable the student to be involved in and progress in the general education curriculum; and

(b) Meet each of the student's other educational needs that result from the student's disability;

For students with disabilities who take alternate assessments aligned to alternate achievement standards, each student's IEP shall provide a description of benchmarks or short-term objectives;

(3) A statement of the special education and related services and supplementary aids and services, based on peer-reviewed research to the extent practicable, to be provided to the student, or on behalf of the student, and a statement of the program modifications or supports for school personnel that will be provided to enable the student:

(a) To advance appropriately toward attaining the annual goals;

(b) To be involved and make progress in the general education curriculum in accordance with this section and to participate in extracurricular and other nonacademic activities; and

(c) To be educated and participate with other students with disabilities and nondisabled students in the activities described in this section;

(4) An explanation of the extent, if any, to which the student will not participate with nondisabled students in the regular class and in activities described in this section;

(5) A statement of any individual appropriate accommodations that are necessary to measure the academic achievement and functional performance of the student on state and district-wide assessments consistent with § 24:05:14:14. If the IEP team determines that the student shall take an alternate assessment instead of a particular regular state or district-wide assessment of student achievement, a statement of why:

(a) The student cannot participate in the regular assessment; and

(b) The particular alternate assessment selected is appropriate for the student;

(6) The projected date for the beginning of the services and modification described in this section and the anticipated frequency, location, and duration of those services and modifications;

(7) A description of how the student's progress toward the annual goals described in this section will be measured and when periodic reports on the progress the student is making toward meeting the annual goals (such as through the use of quarterly or other periodic reports, concurrent with the issuance of report cards) will be provided;

24:05:25:03.04. Evaluation procedures -- Notice. The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.

24:05:27:05. Hearing aid. For children with hearing impairments, including deafness, in need of special education who wear hearing aids in school, the IEP team shall include, as a related service, a monitoring schedule in the individual educational program to ensure the proper functioning of these corrective devices.

24:05:24.01:10. Hearing loss defined. A student may be identified as having a hearing loss if an unaided hearing loss of 35 to 69 decibels is present that makes the acquisition of receptive and expressive language skills difficult with or without the help of amplification.
