GENERAL SUPERVISION / STATE PERFORMANCE PLAN COMPLIANCE INDICATOR

24:05:25:04.02. Determination of needed evaluation data. As part of an initial evaluation, if appropriate, and as part of any reevaluation, the individual education program team required by § 24:05:27:01.01 and other qualified professionals as appropriate with knowledge and skills necessary to interpret evaluation data, shall:

- (1) Review existing evaluation data on the child, including:
 - (a) Evaluations and information provided by the parents of the child;
 - (b) Current classroom-based local or state assessments and observations; and
 - (c) Observations by teachers and related services providers; and
- (2) Based on the above review and input from the student's parents, identify what additional data, if any, are needed to determine:

24:05:25:16.01. Participation of student in IEP team meeting. If a purpose of the IEP team meeting is the consideration of postsecondary goals and transition services for a student, and if the meeting is for a child with a disability beginning not later than the first IEP to be in effect when the child turns 16, or younger if determined appropriate by the IEP team, the notice also must:

(3) To the extent appropriate, with the consent of the parents or a student who has reached the age of majority, identify any other agency that is likely to be responsible for providing or paying for transition services and that will be invited to send a representative.

Parental consent, or the consent of an eligible student who has reached the age of majority under state law, must be obtained before personally identifiable information is released to officials of participating agencies providing or paying for transition services.

24:05:27:12. Graduation requirements. Completion of an approved secondary special education program with a regular high school diploma signifies that the student no longer requires special education services. A regular high school diploma does not include an alternative degree that is not fully aligned with the state's

academic standards, such as a certificate or a general educational development credential (GED). Graduation from high school with a regular high school diploma constitutes a change in placement requiring written prior notice in accordance with this article.

The instructional program shall be specified on the individual educational program. The individual educational program shall state specifically how the student in need of special education or special education and related services will satisfy the district's graduation requirements. The IEP team may modify the specific units of credit described in § 24:43:11:02. Parents must be informed through the individual educational program process at least one year in advance of the intent to graduate their child upon completion of the individual educational program and to terminate services by graduation.

For a student whose eligibility terminates under the above graduation provisions, or due to exceeding the age eligibility for a free appropriate public education, a school district shall provide the student with a summary of the student's academic achievement and functional performance, which shall include recommendations on how to assist the student in meeting the student's postsecondary goals.

24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

(6) The projected date for the beginning of the services and modification described in this section and the anticipated frequency, location, and duration of those services and modifications;

24:05:27:01.02. Development, review, and revision of individualized education program. In developing, reviewing, and revising each student's individualized education program, the team shall consider the strengths of the student and the concerns of the parents for enhancing the education of their student, the results of the initial or most recent evaluation of the student, the academic, developmental, and functional needs of the student.
