24:05:30:05. Content of notice. The notice must include the following:

- (1) A description of the action proposed or refused by the district, an explanation of why the district proposes or refuses to take the action, and a description of any other options the IEP team considered and the reasons why those options were rejected;
- (2) A description of each evaluation procedure, assessment, record, or report that the district uses as a basis for the proposal or refusal;
- (3) A description of any other factors which are relevant to the district's proposal or refusal;
- (4) A statement that the parents of a child with a disability have protection under the procedural safeguards of this article and, if this notice is not an initial referral for evaluation, the means by which a copy of a description of the procedural safeguards can be obtained; and
- (5) Sources for parents to contact to obtain assistance in understanding the provisions of this article.

24:05:27:01.03. Content of individualized education program. Each student's individualized education program shall include:

- (1) A statement of the student's present levels of academic achievement and functional performance, including:
 - (a) How the student's disability affects the student's involvement and progress in the general education curriculum (i.e., the same curriculum as for nondisabled students); or
 - (b) For preschool student, as appropriate, how the disability affects the student's participation in appropriate activities;
- (8) Beginning not later than the first IEP to be in effect when the student turns 16, or younger if determined appropriate by the IEP team, and updated annually thereafter, the IEP shall include:
 - (b) The transition services (including courses of study) needed to assist the student in reaching those goals; and

24:05:28:03. Factors in determining placements. Each school district shall establish and implement procedures which ensure that the following factors are addressed in determining placements:

- (1) Each child's educational placement must be individually determined at least annually and must be based on the child's individual education program;

- (2) Provisions are made for appropriate classroom or alternative settings necessary to implement a child's individual education program;
- (3) Unless a child's IEP requires some other arrangement, the child shall be educated in the school which that child would normally attend if not disabled. Other placement shall be as close as possible to the child's home;
- (4) Placement in the least restrictive environment will not produce a harmful effect on the child or reduce the quality of services which that child needs; and
- (5) A child with a disability is not removed from education in age-appropriate regular classrooms solely because of needed modifications in the general education curriculum.

24:05:25:03.04. Evaluation procedures -- Notice. The school district shall provide notice to the parents of a child with a disability, in accordance with this article, that describes any evaluation procedures the district proposes to conduct.

24:05:27:12. Graduation requirements. Completion of an approved secondary special education program with a regular high school diploma signifies that the student no longer requires special education services. A regular high school diploma does not include an alternative degree that is not fully aligned with the state's academic standards, such as a certificate or a general educational development credential (GED). Graduation from high school with a regular high school diploma constitutes a change in placement requiring written prior notice in accordance with this article.

The instructional program shall be specified on the individual educational program. The individual educational program shall state specifically how the student in need of special education or special education and related services will satisfy the district's graduation requirements. The IEP team may modify the specific units of credit described in § 24:43:11:02. Parents must be informed through the individual educational program process at least one year in advance of the intent to graduate their child upon completion of the individual educational program and to terminate services by graduation.

24:05:25:03. Preplacement evaluation. Before any action is taken concerning the initial placement of a child with disabilities in a special education program, a full and individual initial evaluation of the child's educational needs must be conducted in accordance with the requirements of this chapter. Initial evaluations must be completed within 25 school days after receipt by the district of signed parent consent to evaluate unless other timelines are agreed to by the school administration and the parents.

Written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of the 25 school day evaluation timeline. If another timeline for completing the evaluation process is agreed to by the parent and school administration, the written evaluation reports, determination of eligibility, and conducting an IEP team meeting must be completed within 30 days from the end of agreed upon evaluation timeline.

Consistent with the consent requirements in this section, either a parent of a child or a school district may initiate a request for an initial evaluation to determine whether the child is a child with a disability.
