

## 2024-25 Title I 1003 Competitive Grant Allocation Funds

1003 Competitive Grant Funds were made available for schools identified as needing Comprehensive (CSI), Targeted (TSI), or Additional Targeted (ATSI) Support and Improvement. These funds were intended to help schools plan and implement success activities.

Grant awards were based on the Local Education Agency's (LEA's) ability to provide:

1. A rationale and budget within the 1003 Application
2. Support for the district's request based on an approved school success action plan
3. Alignment with evidence-based interventions focusing on literacy, student engagement, and/or graduation rates

The final grant awards were determined based on the information provided in the approved application.
