ATTEND TODAY, ACHIEVE TOMORROW

GOOD SCHOOL ATTENDANCE MEANS...

ELEMENTARY STUDENTS
read well by the end of third grade

MIDDLE SCHOOLERS
pass important courses

HIGH SCHOOLERS
stay on track for graduation

COLLEGE STUDENTS
earn their degrees

WORKERS
succeed in their jobs

Too many absences—excused or unexcused—can keep students from succeeding in school and in life. How many are too many? 10% of the school year—that’s 18 missed days or 2 days a month—can knock students off track.

Help Your Child Succeed in School: 
Build the Habit of Good Attendance Early
School success goes hand in hand with good attendance!

DID YOU KNOW?

- Starting in kindergarten, too many absences can cause children to fall behind in school.
- Missing 10 percent (or about 18 days) can make it harder to learn to read.
- Students can still fall behind if they miss just a day or two days every few weeks.
- Being late to school may lead to poor attendance.
- Absences can affect the whole classroom if the teacher has to slow down learning to help children catch up.

Attending school regularly helps children feel better about school—and themselves. Start building this habit in preschool so they learn right away that going to school on time, every day is important. Good attendance will help children do well in high school, college, and at work.

WHAT YOU CAN DO

- Set a regular bed time and morning routine.
- Lay out clothes and pack backpacks the night before.
- Find out what day school starts and make sure your child has the required shots.
- Introduce your child to her teachers and classmates before school starts to help her transition.
- Don’t let your child stay home unless she is truly sick. Keep in mind complaints of a stomach ache or headache can be a sign of anxiety and not a reason to stay home.
- If your child seems anxious about going to school, talk to teachers, school counselors, or other parents for advice on how to make her feel comfortable and excited about learning.
- Develop back-up plans for getting to school if something comes up. Call on a family member, a neighbor, or another parent.
- Avoid medical appointments and extended trips when school is in session.

When Do Absences Become a Problem?

CHRONIC ABSENCE
18 or more days

WARNING SIGNS
10 to 17 days

SATISFACTORY
9 or fewer absences

Note: These numbers assume a 180-day school year.

When you're learning a new language, a “cognate” is an easy word to remember because it looks and means the same thing as a word you already know. For example, *gratitude* in English means the same as *gratitud* in Spanish.

Letter from US Department of Education—Responsibilities to our English Learners
https://www2.ed.gov/about/offices/list/ocr/letters/colleague-el-201501.pdf
The 21st Century Community Learning Center (21st CCLC) grant program supports 41 different grants this year covering 64 sites in South Dakota. This is a grant that supports afterschool and summer learning programs.

The programs take place in public schools, private schools, and community based organizations such as Boys and Girls Clubs or YMCAs. An academic component is required and programs focus on developing a strong connection to the schools that their students attend.

Title I Equitable Services for Private Schools FAQ

What is the role of the ombudsman?
The ombudsman serves as SD DOE’s primary point of contact for addressing questions and concerns from LEAs and Private School Officials regarding equitable services for Title I and Title VIII programs. Title VIII includes Title I Part C, Title II, Title III Part A, Title IV Part A, and Title IV Part B. The ombudsman’s primary role is to monitor and enforce the equitable services requirement for Title I and Title VIII.

What is “timely and meaningful” consultation?
LEAs must hold meetings before any decisions are finalized, including but not limited to services provided to eligible students, transfer of funds, and professional development. LEAs can draft a proposal and suggest a direction but must be willing to listen and engage in dialogue with the Private School's official regarding the needs of the students they serve. Meaningful consultation allows ample time for all parties to express their views.

How should the LEA document any cases of disagreement between the public and private school officials?
ESSA requires the LEA to provide private school officials written notice of any consultation topic on which agreement was not met. Documentation should include acknowledgement of the private school’s position on the topic and an explanation as to why the LEA is not in agreement and how and why the final decision will serve the students better.

How has Allocating Funds changed with Title I Equitable Services as amended by the Every Student Succeeds Act?
The LEA must determine the proportionate share of Title I funds available based on the total amount of Title I funds received by the LEA prior to any allowable expenditures or transfers of funds. This includes the reservations that were previously taken “off the top”, such as administration, parental involvement, and professional development. To help determine the proportionate share, SD DOE has provided calculators that can be found on the Title website.

How does an LEA determine the private school share of set-asides such as parent involvement and administrative costs?
ESSA changed the way LEAs determine the private school set-asides. All set-asides now come from the Private School’s equitable share, this includes administration, professional development, and parent engagement, based on the needs of the student’s being served.

For more information refer to U.S. Department of Education’s Non-regulatory Guidance at https://www2.ed.gov/policy/elsec/leg/essa/essaguidance160477.pdf. You can also contact the LEA program representative or the state ombudsman at Jordan.dueis@state.sd.us.

Better Questions, Better Data, Better Results

9/25 Sioux Falls
9/26 Watertown
9/27 Aberdeen
9/28 PIERRE
9/29 Rapid City

Workshop Description: Why are my boys in the middle grades not performing as well as the girls in ELA? Are my students on IEPs making growth? Why did so many of my elementary students get a zero for the Smarter Balanced writing prompt? What can I do to improve the progress of my English learners so they are proficient? The Division of Accountability Systems workshop, Better Questions, Better Data, Better Results, is designed to analyze trends seen in accountability and assessments that can help spark districts’ own data analyses. Strategies being used by the Division to dig deeper into the data will be shared with opportunities for participants to begin to formulate strategies for answering local questions, while understanding the interplay of the various indicators and data systems available and finding out where to go for help. Time also will be spent reviewing the changes in how data, including assessment data, will be used for accountability as part of the new ESSA report card.
